# DEDICATION

This, the forty-first volume of Torontonensis, is affectionately and respectfully dedicated to the Honourable and Reverend Dr. H. J. Cody, President of the University of Toronto, on the occasion of the fiftieth anniversary of his graduation.

"Four things a man must learn to do
If he would make his record true:
To think without confusion clearly,
To love his fellow men sincerely,
To act from honest motives purely,
To trust in God and heaven securely."

### A MESSAGE FROM THE PRESIDENT

To the Members of the Graduating Classes:

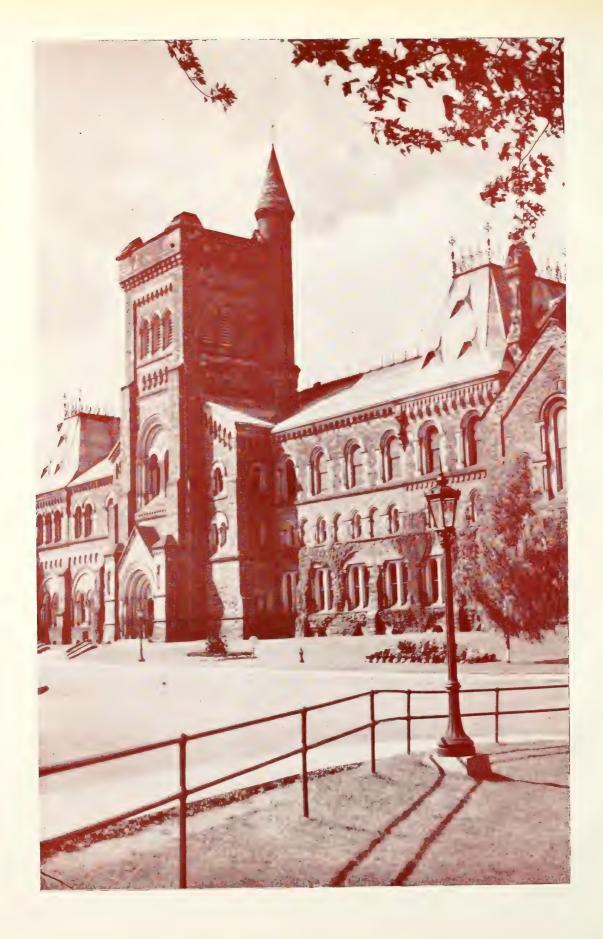

NCE more it is my privilege to address you in the name of the whole University and to congratulate you on passing another milestone in your career. You are about to enter more immediately the battle-field of life. During your undergraduate course you have already enjoyed much of the keenness of living; you now go forward with reasonable equipment to face the broader problems of a country singularly favoured in situation, in material resources and, I hope, in public spirit. I trust that you will all speedily find your opportunity for work and service and find it in this Dominion.

During the year we have carried on our academic work under the shadow of the European crises. These have added to the urgency of the call to be serious and "to redeem the time because the days are evil". The future is still clouded. Even though Canada can go on with her work without the overhanging pall of fear in her daily life, she is vitally involved in any worldstruggle of the future. She is part of the British Empire and of the British Commonwealth of Nations. She is one of the few remaining free democracies of the world. She cannot be neutral. Professor Wrong in his recent book, "The Canadians", aptly puts the case: "To attack Canada is to attack also the British Commonwealth, and to attack the British Commonwealth is also to attack her, whatever protests in some quarters this opinion may arouse. To attack Canada is also to attack the United States, which could not afford to have on its northern frontier a powerful assailant of Canada. It would be ignoble of Canada to fall back supinely on such defences, and to fail to take her fair share in creating the guarantees against fear." Canada will stand on guard for herself, for the Empire and for "the sacred cause of justice and the freedom of the world".

You are leaving the halls of your Alma Mater at a time when no one, man or woman, can escape the responsibilities of citizenship and of safeguarding free, just and honourable government in our own country and wherever sane democracy is still to be found. The State has a right to expect special service from University graduates, a large share of the cost of whose education it defrays. Your University has sought to help you to win a disciplined mind, widened interests and an enriched imagination. It has stimulated you to think; to think strenuously; to form balanced judgments; and then to act decisively. The supreme gift you can offer God, your country, your University, your fellows, is yourself. Courage, discipline, efficiency and leadership are as necessary to a democracy as to a dictatorship, and will be used, we believe, in a better cause. If I may adapt Browning's words in Paracelsus, you "devote yourself, you have a life to give". But Education can be a bulwark of democracy only so far as educated men and women take part in public affairs. Our liberties which we took for granted are now a cause for which we must fight: the fundamentals of free and godly living, which once seemed platitudes, are now a challenge to defend them. These are great and strenuous days for new crusaders. Youth and maturity must combine forces in the great cause.

Remember your University and help her in her work wheresoever she needs you: she will always follow your career with pride and good will. God bless and guide you!

A J Goody
President.

# TO THE GRADUATING CLASS OF UNIVERSITY COLLEGE

By Principal Malcolm W. Wallace, B.A., Ph.D.

N this last occasion when I shall have an opportunity of addressing you I wish that I were able to speak words of wisdom that would help you to interpret the confused, contemporary world. But unfortunately I have no such wisdom. I do not know any more than you why men are devoting themselves so whole-heartedly to the task of slaughtering one another. Forty years

ago when I graduated from college we assumed that there would be no more great wars, and that science and commerce would work out the fulfilment of the gospel of progress. Both of these agents have achieved, on a scale that we could never have guessed at in those far-off days. But they have not enabled us to build the earthly paradise which seemed within our grasp--a paradise of security and plenty and opportunity for all, the defects of which were merely such as would give scope for the exercise of human kindness and ingenuity. Instead, our programme is made up of insecurity, want, hatred, fear and physical and mental suffering in unparalleled volume. Why these things have come upon us we can only dimly guess. We feel like men betrayed and are inclined to say that an enemy hath done this, though we know not who he is.

The commonest explanation of our dilemma is that which ascribes it to fundamental defects in human

character. Men, we say, are greedy, self-indulgent, cruel; they compete for power and then treat their fellows unjustly. These charges are true but is it not equally true to say that under favourable conditions men are generous, altruistic, pitiful, that they delight to co-operate with other men, and to govern themselves by ideals of justice and mercy? I suggest to you that the fatal defect in our human equipment is at least as much intellectual as ethical. Every generation must learn to define afresh the concepts by which a healthy society lives. What is justice? What is international morality? How shall we attain to more efficient government? What are the aims, to achieve which we should devote our lives?

Only educated, thoughtful men and women can give the tentative answers to these questions on which depends the health of human societies. Every college graduate should be ambitious to make some contribution to the solution of these problems, and to do so you must remain serious students throughout your lives. A small group of friends who meet for periodic discussions can often arrive at greater clarity of thinking than is possible for any one of them alone. Recently I met a Princeton graduate, now a New York banker, who for the last ten years has spent an evening each month with five or six of his former class-mates and a former instructor to discuss some subject from literature or history. These meetings, he insisted, were highly significant and valuable events in his life; and I do not find it difficult to accept his estimate. Men are never more truly what men should be than when they try seriously to think more clearly about the necessary adjustments in their social relations. Our present discontents will pass away, and to the historian of a hundred years hence will no doubt seem comparatively simple. May each one of you be able to contribute something toward shortening the period of blind groping, and toward ushering in the day when all men can work gladly and intelligently for the accomplishment of sane, intelligible human ideals!

UNIVERSITY COLLEGE 3T9 PERMANENT EXECUTIVE

G. M. Dent, President; Doris Bailey, Vice-President, Evelyn Brown, Secretary; J. R. Mingay, Treasurer.

## Message from Class of 3T9

S the academic year draws to a close, we of 3T9 greet the future with mixed feelings. We will be happy in the coming years to enjoy the sunshine and beauty of springtime without the reserve which accompanies the "exam. complex". At the same time, we will look back on our college years, as we would on our parents, for they have been influential in developing our character, our individuality and our ideals.

This year has been notable insofar as an ever-increasing number of undergraduates is taking part in U.C. activities—literary, athletic, social and otherwise. Provision of more adequate sports equipment and of expert coaching has revived interest in U.C. athletics and made us an important factor in the intramural and university athletic world. The series of Sunday evening musicales, which was inaugurated this year, proved very successful, and will, we hope, be continued in future years. But the development which possesses the greatest potential significance for our college was the launching of the campaign for a new men's residence, the need for which is imperative. And although the campaign, which is under the auspices of the Alumni Association, has been started in a quiet way, it has been pursued with great energy and success.

But though we leave the halls of our college this year, we do not sever our connection. For U.C. has left its mark on each of us. It has been our gateway to life and it has equipped us for the business of living.

Victoria College

# 1836 VICTORIA UNIVERSITY 1939 On the Old Ontario Strand

OR the first fifty-six years of its history Victoria University was located in Cobourg. The Upper Canada Academy was opened in 1836 and on October 12th of the same year the Royal Charter was granted by King William IV. In 1841 the Charter was extended to include degree-conferring powers and the name was changed to Victoria College. The first degree in Arts in Ontario was conferred by Victoria College in 1845 on Oliver Springer. A Faculty of Medicine was added in 1854; a Faculty of Law in 1860, and a Faculty of Theology in 1871. A department of Science was organized, and in 1877 Faraday Hall was opened and had the unique distinction of being the first building in the province erected and devoted exclusively to scientific work. In 1884 the name was changed to Victoria University. Egerton Ryerson was responsible for securing the Royal Charter and he was the first Principal of Victoria College in 1841. In 1850 Samuel S. Nelles took charge of the College. Under his wise and far-sighted guidance the work of Victoria grew and expanded as additional faculties were added.

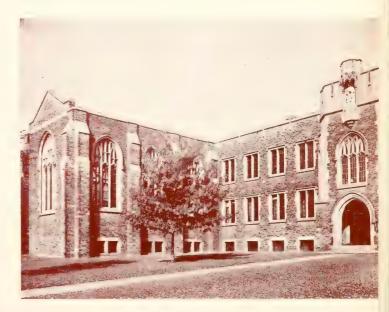

### Federation with the University of Toronto

HE federation of Victoria University with the University of Toronto became an accomplished fact in 1892. Victoria was a pioneer in setting

up the system of education by which the provincial university and three independent denominational universities and colleges have in the course of time through their federation agreements established the Faculty of Arts of the University of Toronto as it exists today. Victoria University retained the right to grant degrees only in Divinity, and since 1892 Victoria's degreeconferring powers in Medicine, Law and Science have remained in abeyance. From 1892 to 1928 the organization of Victoria University consisted of two faculties, Arts and Divinity. The task of translating the federation agreement into practice was accomplished by Chancellor Nathanael Burwash who had succeeded Dr. Nelles in 1887 and held office until 1913. During the

difficult war years and during the period of expansion in 1920-30 Chancellor R. P. Bowles guided the destinies of the institution.

### The Residences of Victoria University

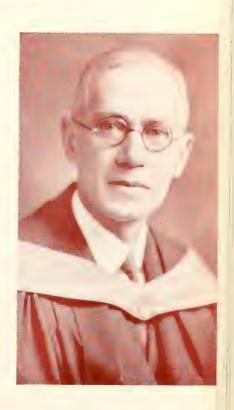

LTHOUGH residence accommodation was provided in Cobourg, for the first eleven years of its existence in Toronto Victoria had no residences for students. With the opening of Annesley Hall Women's Residence in 1903 there was a marked increase in the number of women students. Burwash Hall and the Victoria College Men's Residences consisting of four houses known as North, Middle, Gate and South, the gift of Mr. Chester D. Massey, were completed in 1913 During the Great War the Men's Residences were used almost exclusively for military purposes. In 1926 a splendid addition was made to the buildings of Victoria University with the opening of the Wymilwood Women Students' Union and Residence, the gift of Mrs. E. R. Wood and Lady Flavelle. The new Emmanuel College Men's Residences consisting of five separate houses known as Ryerson, Nelles, Caven, Gandier and Bowles, all constructed on the stair-case plan, were opened in 1931. At the present time Victoria has residence accommodation for 170 women students and for a total of 217 men students in Arts and Divinity. There are dining-rooms for women students in Annesley Hall and Wymilwood, and all men living in the Residences of Victoria University take their meals in Burwash Hall.

### Victoria College and Emmanuel College

HE consummation of Church Union in 1925 affected both the work and organization of Victoria University. There was a marked increase in the number of students enrolled in Victoria College. The amendment to the Charter contained in the Victoria University Act of 1928 provided for the organization of Victoria University with two colleges, Victoria College in Arts and Emmanuel College in Divinity. In 1929 and 1930 an appeal was made for funds to provide land and buildings for Emmanuel College and improved residential accommodation for the women students of Victoria College. A new academic building was opened in 1931 to provide for the work of Emmanuel College, thereby relieving the great congestion in the Victoria College building. During the session 1938-39 there are 858 students enrolled in Victoria College and 83 students in Emmanuel College. In January, 1930, Dr. Edward W. Wallace was installed as Chancellor and President of Victoria University, succeeding Dr. R. P. Bowles, who had resigned and was appointed Chancellor Emeritus.

### To the Graduating Class of Victoria College

By Principal W. T. Brown, M.A., Ph.D.

HE world into which the class of 1939 enters is still much perplexed and distraught. During the last year the anxiety created by the tension in the realm of international affairs has increased rather than lessened. While the fierceness of the economic depression has somewhat abated, nevertheless unemployment, poverty and distress still stalk through the country. At the

some sectional or selfish interest be entrusted with leadership. We can work our way out of our present difficulties under the leadership only of those who face the issues with breadth of mind and tolerance of spirit, with clarity of intelligence and maturity of judgment, and who are concerned not for their own gain or glory, but for the welfare of their country. These are the qualities which the College has sought to inculcate in you during the years you have spent in its halls. The difficulties of our own times present a call and a challenge to university men and women, and universities and colleges will be judged by the achievements of their graduates.

Your Alma Mater looks forward same time that the world faces these grave international and economic problems, significant political issues have arisen in our own country which press for immediate solution.

No cheap and easy panaceas will cure these ills of the world, nor can those who are concerned to bolster

with hope to your future, confident that you will measure up to the needs of the hour.

Trinity College

### To the Graduating Class of Trinity College

By the Reverend F. H. Cosgrave, M.A., B.D., D.C.L., LL.D.

HE few short years of your undergraduate course have passed. You go forth from the University, I hope, greatly enriched. Through your studies in science and literature you have gained a new and growing interest in the world around you and in the fortunes and fate of your fellow-men. You have gone some distance towards qualifying yourselves for effective service in

human society.

It is natural that we should look to our Universities for men and women qualified to serve God in Church and State, qualified by some measure of sound learning and by the possession of ideals and standards of conduct which will prevent them from being swayed by consideration of their own pleasure and profit and prompt them to do their utmost for the health and wealth of their people.

It is unnecessary to remind you that the world which you are facing is in a most difficult and dangerous condition. This is due to the breakdown of the philosophy on which for a long time the life of civilized man was based, the abandonment of assumptions on which there was formerly a general agreement. We are waiting for men and women able and willing to reconstruct the very foundations of a stable civilization. At last we are realizing the vital importance of

clear thought on the meaning of human life. If we escape from our present perplexities it will be because man recovers the faith in himself which has been so violently shattered in our time, because once again he attributes a real meaning to his own existence and rids himself of the appalling heresy that man has not only ceased to be the supreme value but value of any sort.

We hope you may contribute to the making of a new and better world and that your residence in the University has done something to equip you for this task. If that is so you will have reason to be grateful and to think affectionately of the University and College in which you passed those critical years.

St. Michael's College

### To the Graduating Class of St. Michael's College

By Rev. E. J. McCorkell, B.A., M.A.

HERE is an educational heresy abroad to the effect that a University education is a luxury, which they who desire it should pay for.

It is easy to see the falsity of this doctrine on merely utilitarian grounds, for the State which has a goodly number of research experts on the one hand and a sufficiency of trained minds to make a sane use of the fruits

of research on the other will be superior to one which lacks either the one or the other or both. But it is not on flimsy utilitarian grounds that I would attack the error; it is rather on the ground of Christian The State exists to philosophy. make man more truly human, to enable him to develop his powers, his creative energies and his characteristic life of reason, as well as to make effective his attempts to make the forces of the physical world instruments of his freedom. It can do this best of all perhaps, by promoting sound University education, particularly that type of university education which it has been our aim to give you here, viz.: -wherein reason is illuminated by faith and thus made to realize to the uttermost its intrinsic fecundity.

It should never be forgotten that the essentially human life is a

life of reason, a reason illuminated by faith. Such a life is not a luxury for the few, but a necessity for all, at least for all who are competent. If the State exists for the good of its citizens, its first duty is to promote this life of reason. Any other course will be an irrational one, tending to the degradation rather than the exaltation of man.

I recall to your minds at this solemn moment of your graduation these fundamental principles of Christian philosophy, and urge you to make them prevail to the best of your ability in a world which shows abundant signs of having forgotten them.

Commerce and Finance

To the Graduating Class of Commerce and Finance

By Professor C. A. Ashley, B.Com., C.A.

URING the past year a number of changes have been started in the Commerce Course. The work of the third year has been increased by the introduction of a course in the Economics of Marketing; a new introductory course (Industry and Trade) has taken the place of Economic History in the first year, and Economic History will in future be given in three successive years; and in two years' time Public Finance will probably go into the fourth year to make room for Economic History in the third year. We hope you agree with these changes, even if you may be glad to have escaped them yourselves. A further change has been the establishing of a course in Business Administration, leading to the degree of Master of Commerce, which we hope will develop a reputation in the graduate school equivalent to that earned by the Commerce Course in undergraduate work.

The question of scholarships in Commerce and Finance gives us anxiety. We hope that each of you has the ambition to endow a scholarship; in the meantime you can exert your influence on those who can afford to do so. The good will of the department goes with you in this and in all your endeavours, and we hope you will visit us from time to time.

### Theron Chalmers Adams Toronto, Ont.

This embryonic business man twenty-one years ago raised his hat, made his bow in this world of woe. They sent him to Model School; he was a model boy. Jeachers' Course

# To the Graduating Classes in the Department of University Extension

By W. J. Dunlop, B.A., B.Paed., Director, University Extension and Publicity

ROM the Department of University Extension there go out this year three graduating classes—next year there should be four. Approximately forty men and women are graduating in the Pass Course for Teachers, a course which is the same as the Pass Course in Arts except that instruction is given in the evenings and in the summer. The courses in Occupational Therapy and

Physiotherapy are two-year diploma courses, each followed by a six-months' interneship.

My most cordial good wishes for abundant success are hereby tendered to these graduates who now go out to render, in their several stations, intelligent public service to their communities. These graduates have no worries regarding positions because the teachers are already employed; and, in the fields of Occupational Therapy and Physiotherapy, the demand for qualified operatives considerably exceeds the supply. This is a happy and a somewhat unusual condition.

These graduates will allow me, I hope, to say to them that their success depends to a great extent on two factors. They must continue to study and they must give a great deal of attention to the development of their own personalities. Personality is really much more import-

ant than education. Academically, these graduates are well equipped for the tasks that are ahead and they are well qualified, too, in the matter of personality. But one's education never ceases while one lives and it should be our constant care to continue to improve that somewhat indefinite and intangible but quite easily discernible asset commonly known as personality.

The best of luck to you all! If I can be of assistance to you at any time, please do not hesitate to ask me. I have watched your progress throughout your courses with a great deal of interest and I shall continue to watch your careers as there may be opportunity to do so. Never forget that, if you make public service your first and greatest aim, other rewards will naturally and almost automatically come to you.

Medicine

### To the Graduating Class in Medicine

By Dean W. E. Gallie, M.D., F.R.C.S.Eng., F.R.C.S.(C.)

S each graduating class departs from this University, it carries with it the good wishes of the Dean and the Faculty and their great hope that these young men and women with whom they have been associated so long may find in the new life upon which they are embarking a full measure of success and happiness.

It may be that at this stage of a student's career he may experience some doubts as to whether he has chosen the kind of life for which he is best suited. To such, I would point out that a full medical course provides an education that may lead to success in many very different fields and provides opportunity for many different kinds of men. Thus, the lives of the physician and surgeon differ greatly, as do those of the family doctor and the specialist. What a distance there is between the psychiatrist and the obstetrician! Then, aside altogether from the various forms of practice in Medicine, opportunity lies in the laboratory for the teacher, the technician and the investigator. Some of you may become anatomists, physiologists or pathologists; others, biochemists or pharmacologists. An entirely different kind of life is offered in the health services and again in

the editorial rooms of the Medical Journals. To those with executive and business ability, the great hospitals are constantly calling for superintendents.

While decisions on these matters may have been forming gradually during the last few years of the course, I am convinced that the final decision may well be postponed till some time in the intern year. This year gives the graduate a chance to come face to face with practice in most of its forms and enables him to come to a sounder conclusion as to what kind of life he should choose.

While the happiness and success of our graduates must necessarily depend almost altogether on themselves, yet situations often arise in which advice and assistance are of value. Such situations are always welcomed by old teachers and you may rest assured that the welfare of her graduates is of first importance to this School.

Applied Science and Engineering

## To the Graduating Class of Applied Science and Engineering

By Dean C. H. Mitchell, C.B., C.M.G., D.S.O., C.E., LL.D., D.Eng.

Gentlemen:

To graduate and leave your University this year of 1939 is to go out into a world that is very busy—busy for engineers certainly, and shortly for architects as well.

At first glance, the prospect may not appear very encouraging, because

we hear and see about us much confusion and uncertainty. We have lived through a good deal of it the past year, not only in Canada, but in the Empire and in the world. Uncertainty though there may be in business and international affairs, let us keep in mind that engineers are always wanted, will continue to be wanted in Canada whatever the future brings.

This Canada of ours is dynamic, not static. It cannot stand still. Canada will and must progress. There is too much in this country, both in natural and human resources, of the most valuable kind to cause us to waver in our steady development. You need not be reminded that engineers and architects are in the professions that do the developing. That has been Canada's history from

the first days of ships, roads, bridges and railways, down through the decades to the present time of motor cars, aeroplanes, radios, skyscrapers and industrial works manufacturing for our own needs in every field.

As you go out into this rapidly changing world, therefore, even with its present uncertainties, you carry with you the confident feeling that you, too, are needed, wanted as leaders for these new activities, just as your predecessors were needed and went confidently to their work thirty, twenty and ten years ago.

Engineering is a profession of action. It is no profession to shelter visionaries, dreamers or sit-downers. We see about us clever men and men of action who do things. Sometimes we come across a man of vivid imagination, of vision and wide knowledge and mental ability of which leaders are made — but he lacks one essential quality, the ability to act; he is timid, hesitant, perhaps procrastinating in making up his mind, and with these he could never inspire confidence. Action of the quick, positive kind produces leaders, men with courage. Remember, though, that readiness to take action and to become leaders also carries with it readiness to take the consequences.

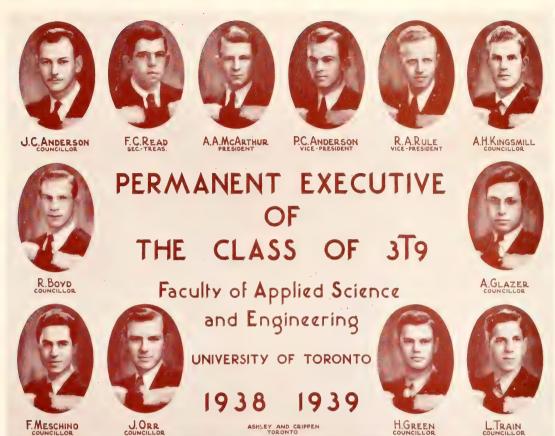

All successful leaders must be men of action. Frequently their decisions may require great courage, but that is what is expected of leaders. If I can give you a message, it is to put hard thinking and fresh energy into all of your problems, then follow with fresh firm action. If you do your work that way, you will achieve not only success, but great joy and satisfaction in it.

I extend best wishes for your success and fortune.

## Class History of 3T9

ASHLEY AND CRIPPEN

HE class of 3T9 was born at the sound of our first "Toike Oike" which seems only a short time ago. Since then we have given rise to a "Great Spirit", "The Spirit of 3T9", which has become a component of the University of this faculty which we so dearly esteem.

Our University career has been crowded with happy events, games and thousands of episodes which have happened in the labs or in the lecture halls. All of which shall live on and shall be told and retold with ever-increasing gusto.

And now that we are about to make our stir in the outer world as graduates, it is the intention of your permanent executive with the help of each individual member of the class to maintain the friendship and co-operation throughout our future lives as a live alumni body for all time to come. Your permanent executive is willing to work for you. Write to them about your ideas about any information you require or just for old time's sake. They will always welcome it and be tickled to reply. They will keep in touch with you by personal correspondence, our own publications and the University of Toronto Monthly.

We ask you to co-operate with us and with the University Alumni itself to maintain the "Spirit of 3T9", and the spirit of the University as a whole.

The Executive wishes to keep a complete record of everyone. Your whereabouts, health and position are interesting to us all. When you supply the necessary data the Secretary-Treasurer, Cyril Read, will keep all the information complete and up-to-date in his files.

Dentistry

# To the Graduating Class of the Faculty of Dentistry

By Dean Arnold D. Mason, D.D.S.

HIS class enters the practice of Dentistry at a most opportune time. The graduates of the few preceding years have not been too numerous, and I am sure that the future is going to be very bright for you indeed. I feel that your services will be in demand by a public which has an increasing appreciation of dentistry. The field of dental science has broadened in its scope and

will ever keep you alert to new and improved treatment which is continuously developing. Your judgment will be tried to the utmost of your ability, so that the patient may receive the best known treatment for the requirements of the case. You leave college halls grounded in the fundamentals of your calling and well equipped by training and experience to commence your professional career.

The lives of leaders in our profession who have passed on should always be a source of inspiration to you and you should ever be mindful of the heritage which has been built on their efforts and sacrifices.

You are taking your place in community life at a time when conditions demand a greater community spirit than ever before in the history of the world. It is not possible to live to oneself. The hermit is far out of date. Seclusion

is impossible. You must take an interest in your fellow-citizens, and even though retiring by nature, must take your place in organized dentistry.

You must not strive for selfish gain, but to so act as to ennoble your profession that it may receive the highest respect in your community. Jealousy, envy and hatred have no place in the lives of professional men. These qualities build up a disagreeable personality. Friendships do not thrive in such an unpleasant atmosphere. Meditate on the effect of your thoughts and actions on others and build a loyalty to your profession on solid foundations.

May I congratulate you on having reached the milestone of graduation. It is an outstanding day in your life, marking a change in your activities and opening up a new outlook. Face your problems with courage and faith, and I am sure that your hopes will be fulfilled.

You are now an alumnus of the University of Toronto. May you always think of her with grateful thoughts and of your teachers on the Faculty with favour. The Faculty wish you all advancement and happiness in your life work.

Wycliffe College

# To the Graduating Class of Wycliffe College

By the Rev. Canon R. B. McElheran, M.A., D.D.

N behalf of the Faculty and the Board of Trustees, may I congratulate all of you on the completion of your undergraduate course.

As you are well aware, the next few years will be the most difficult of your lives. The world is perilously near war. Great and devastating social changes may soon take place. Economic security is in jeopardy. All around us we see evidences of trouble and distress, of poverty and wretchedness. Cynicism and disbelief are rampant.

This is the world into which you are now going. Will you accept the challenge it offers? Are you, by your precept and example, going to help restore the mental equilibrium of mankind, or are you just going to stand by and look on? Now is the time for clear thinking and swift action, and for staunch adherence to the principles in which you believe

I feel sure that you are ready to face the issues, and I pray that God's grace may constantly guide and comfort you in your careers.

Knox College

# To the Graduating Class of Knox College

By the Rev. Principal Thomas Eakin, M.A., Ph.D., D.D.

OU are going out to pursue your vocation in one of the most critical and distracting periods in the history of the world, a period which seems to be epoch-making for good or ill. Seldom, if ever before, has there been such a need for sane leadership and it is for you to make your contribution in this respect. In these chaotic and dangerous conditions the statesmen has his part to play, so has the economist; but more vital and more fundamental is the work of the evangelist and the moralist. There is little hope for the world unless spiritual values receive the prime emphasis, and supreme loyalties the first adherence.

Hartley K. Caslor Inglewood, Ont.

Graduated in Philosophy from U.C. Resided in Knox. Dislikes the Hebrew language. Played on Knox Hockey Teams I, II, and played Lacrosse III.

Emmanuel College

# To the Graduating Class of Emmanuel College

By Reverend Principal R. Davidson, M.A., Ph.D., D.D.

HE primary aim of your training for the ministry has been to make Christian men of you: to harden the sinews of the mind; to tighten the strings of conscience that they may give forth pure tones; to quicken the heart's sense of hearing that the cry of human need may not be missed; to get the whole life rooted in the purpose and potencies of the Unseen World.

Three years of study and play together, of living and praying together, have knit you and your professors in an intimate friendship, a friendship of confidence and high hope. We are sorry to see you go from us. But we look for the day of rejoicing when you have proved yourselves true preachers of the Word, true priests of the temple, true shepherds of the flock.

#### George A. Affleck Lanark, Ont.

Graduated from Victoria in Philosophy (English or History) in 1935. Was Vice-President E.C.S.S. II and President House Committee III. Managed Hockey Team I, II and played on Volley Ball Team III. Forestry

## To the Graduating Class of Forestry

By Dean C. D. Howe, B.A., M.S., Ph.D.

HE chief satisfaction of a teacher lies in the fact that he has helped to prepare his students for good citizenship, a thing that should be the ultimate object of all publicly supported education. The attainment of good citizenship comes through a mind eager for knowledge with the capacity to draw logical conclusions from the knowledge acquired and with the ability

to withstand appeals to passion. Some countries once honoured and respected for high achievement have sunk to mere brutality through succumbing to the appeal of mass hysteria. We are not without danger in this respect in our own country. Henceforth it will be your chief work, and that of thousands of other university trained young men, to help overcome the disintegrating influences in our national life. The people of a country usually allow themselves to fall under the power of various "isms" because of a feeling of frustration; a conviction that opportunities for a fuller life and particularly for greater material prosperity, have not been fully developed by those from whom they have a right to expect leadership. The best way, then, to prevent these ideas from becoming dominant is for you and other educated men to throw yourselves whole-heartedly into the business of improving con-

ditions, eventually to such an extent that doctrines of despair have no force.

You who have been trained in a particular field of endeavor will see at once an illustration of neglected opportunity in the public's careless and indifferent treatment of the Crownland forests. Upon these forests depends to a large extent the country's prosperity, yet the processes of use and wastage, the latter mostly due to human carelessness, surpass those of recuperation. It will be your work to help restore the balance and at the same time to help persuade the public of its necessity. Thus you will justify your title to good citizenship.

George Henry Bayly ( $\Phi K\Pi$ ) Toronto, Ont.

Came to us from North Toronto High School. Had varied summer occupations, from canoeing instructor at a camp in New Hampshire to timber cruising at Lake of the Woods and then on to the Rockies for a summer.

Came to Varsity from McGill University. Treasurer, Foresters' Club I, Secretary II. Played Interfaculty, Rugby, Lacrosse, Basketball, Baseball. Summers spent in Northern Ontario and Quebec. Future plans: vague, but include "God's country and the woman".

#### W. Ross Grinnell Toronto, Ont.

Came to University from Riverdale Collegiate. Spent summers in the bush of Northern Ontario and Quebec. On Hart House Music Committee II, III, IV; Publications' Commissioner S.A.C. III, S.A.C. Rep. IV; Treasurer II, Vice-President III, President IV of the Foresters' Club. Played Interfaculty Rugby, Lacrosse, Hockey and Basketball.

#### Frederick Shelley Hick Toronto, Ont.

Product of Riverdale. Spent a year between third and fourth year timber cruising at Ft. William and on the north shore of Superior. Forestry Club Vice-President III, S.A.C. Representative III. Played Interfaculty Rugby, Basketball and Baseball I, II, III.

#### Gordon H. Murchison Stouffville, Ont.

Born in Woodville, Ont. Came to Varsity from Stouffville High School. Spent one summer with the Frontier College in Quebec and another with the Dominion Forest Service in Northern Saskatchewan. Played Interfaculty Rugby I-III, and was mainstay of our Hockey Team I-III.

#### Charles Ross Silversides Toronto, Ont.

Came to Varsity from Winnipeg. Matriculated at University of Manitoba. Spent undergraduate years in Northern Manitoba and Saskatchewan with Dominion Forest Service. On Hart House Hall Committee II, House Committee III, IV, Board of Stewards IV.

Ontario Veterinary College

# To the Graduating Class of Ontario Veterinary College

By Principal C. D. McGilvray, M.D.V., D.V.Sc.

T this time when you are approaching your future life work may I extend to you the sincere hope and wish that you may enjoy both happiness and success. While wishing you prosperity I would, nevertheless, urge you to be guided by the impulses of a generous and robust character. By so doing your outlook on life will be enriched, your influence strengthened, and your opportunities enlarged. The old saying is still true, that we cannot continue doing wrong to others intentionally without suffering wrong ourselves. Likewise, nothing can be gained or expected from others if we receive a hundred favours and render nothing in return. A wise man always extends these simple truths to his every day life.

In charting one's career in life there is, generally speaking, no short cut to success. We should expect to meet and strive to overcome discouragement and disappointment. It is becoming increasingly noticeable that a large measure of consistent application, combined with stability of purpose, is necessary in making for success. Sooner or later recognition and advancement are most apt to come to those who are most diligent and work the hardest.

May I conclude this brief message with hearty greetings, and to wish you "a calm sea and a prosperous voyage" throughout life.

#### Norman Anderson Winnipeg, Man.

Norm came out of the West and devoted his time to the Anatomy Lab., S.C.M., and the small animal clinic. A good student and a boxer of note. We wish him all success.

The Nebraska wildcat was taken from our fond embrace while yet in his junior year, and since then has contended that Ziegfield was rightblondes are preferable and continues to think so, to the evident satisfaction of both of them. Blessings, my children, we were young once ourselves.

#### John H. Ballantyne St. Paul's, Ont.

John's dignified bearing and unruffled calm have been a splendid counterweight and flywheel to the gang and has often used the prism of his nature to develop a soft spectrum from the harsh glare of some of our red meetings. A dependable friend with "charity towards all and malice towards none".

#### Leighton Bannister $(\Omega T \Sigma)$ Collingwood, Ont.

A top-ranking student, President of the Science Association and an embryo parasitologist. Banny will no doubt catch bigger and better bugs as the years roll by. Best of luck,

#### George Bishop $(\Omega T \Sigma)$ Lawrencetown, N.S.

George supplies the bulldog determination for us. He is always ready to espouse, fight for and sign any bill of rights or wrongs that is drawn up. When he sets out for a germ, he will get it. Genial and handsome-but he means business.

#### Nathan Budgell Toronto, Ont.

Bud is a product of Newfoundland and for that reason probably is rarely on time for lectures. In 1935 he left the effeminate island for the land 'where men are men-and roll their own". Bud has been a hard and consistent worker. More power to you, son.

#### Harold Bunde Cedarburg, Wis.

Four years ago Harold humorously entered the O.V.C., and after years of sleep, play and the tuck shop, has finally managed to kid the Alma Mater into giving him his degree. Harold stoutly maintains that a western story is an evening's entertainment.

To clear a six-foot stone wall atop an Irish hunter is Alec's greatest ambition. A large horse practice will no doubt be his ultimate destiny and we are sure he will achieve it.

#### Lorne Campbell Alliston, Ont.

Lorne, our perfect dreamer. Honest, he's not lazy, he is just dreaming. Does a beautiful minuet while playing ping pong. Repeats the prof's question when asked, and climaxes it with "oh". Lorne is sincere, however, and will never say

Big Matt hails from Watertown, Minn., which he claims to be the "Golden Buckle" of the dairy belt. Being the next thing to wild fire, he has had bestowed upon him the honour of being fourth driver of the Watertown Fire Co. "Matty Dear" will be sorely missed by the gang.

#### William Carlyle N. Edmonton, Alta.

The Aggie from Alberta arrived quietly in our midst in the second year; quickly proved himself an authority on livestock, and we will be sorry to see him return to his native steppes.

#### **Marcel Carpenter** Norfolk, Va.

Our pride of the South. Modest, kind, neat and handsome. It has been said that he has quite a way with the fairer ones-back in Dixie. His ambitions are high, and now he has them focused on a great contribution to science: Manual on Heart Worms".

Frederick Carter Guelph, Ont.

A product of Guelph and appears to be proud of the fact. Quiet and reserved, yet is sometimes seen in unexpected places. We'll miss Fred, and wish him all the luck in the world.

Gerardo Cueva Lima, Peru.

An ardent bull-fighting fan; will bet his shirt on a cock-fight. Always willing to swap his native language for ours. Intends to return to his native land and knows that he has our best wishes wherever he goes.

Carman Davey Cobourg, Ont.

Carmen came to us from Cobourg and brought with him plenty of practical experience and a fertile mind. He spent the last summer taking care of a large animal practice and will be welcomed to the large animal field.

Laurie Davidson  $(\Omega T \Sigma)$ Detroit, Mich.

Laurie chose Detroit for his first birthday party. Thinks every flower is claviceps purpurea. Kicked his way to fame on the Aggie Soccer Team. Specializes in the mechanism of the large animal operating table and in small animal practice.

Wilson Ford  $(\Omega T \Sigma)$  Millbrook, Ont.

Wils gave his parents their first serious disappointment twenty-two years ago in Millbrook, Ont. He pounds the pillow or the piano with equal facility, and is a skilled man with the ladies. A good student, a gallant gentleman and a good head. Here's to Wils.

Donald Gamble Russell, Ont.

"Speed" is skipper of the A.A. and possibly the best known man on the campus with his free and ingenuous laugh, his Irish wit and his red hair. Hooks a mean hockey-stick. Don will long be remembered by those with whom he came in contact.

Sanborn Gaw St. Lambert, Que.

Sandy should have been named the Sphinx; he always keeps his own council and smokes a pipe. He will return, no doubt, to spread the light of veterinary science in his native province of Quebec.

Walter Giesbrecht Lorette, Man.

Strong and silent, Walter has been a well-liked member of the class. He intends to return to Manitoba and establish a mixed practice, in which, we have no doubt, he will be successful.

John Gilman Somerset, Eng.

An inveterate wanderer that we expect will enter the British Colonial Service and, in his typical, easy-going, nonchalant way, carry on its best traditions in some far-away part of the Empire.

Stanley Gray Sprague, Man.

Stan was first placed on the market in Sprague. Finding Manitoba a cold place to live in, he migrated to Guelph with a B.S.A. degree. With so much to build on, Stan cannot help but be successful.

Grant Heslop  $(\Omega T \Sigma)$  Freeman, Ont.

Grant, alias Bud, travelled from Freeman, Ont., to better his outlook on life, both educationally and otherwise. The "Mighty Atom" has been a favourite with all of us. Blessings on "ye olde practitioner".

Robert Ingham  $(\Omega T \Sigma)$ Niagara Falls, Ont.

The "Mighty Atom" from the Niagara Peninsula. After four long years, he has still retained his school-girl complexion, wit and sparkling versatility. We are all proud to have known Bob and trust he will succeed in his profession as he has done in college.

#### James Frederick Julian Fenwick, Ont.

Jimmie hails from Fenwick, Ont., but he gets there just the same. He never believed in approaching life too seriously. Though he may not make friends quickly, when they are made, the friendship is lasting and genuine.

Elmer hails from Minnesota, and insists he is going back. He has an aversion for Mac Hall, but exhibits a choice collection of photos. Is spiritual adviser at Edgehill, a writer of odes and a charter member of the W.C.T.U. Ambition: to some day be in charge of the Schells' Brewing Co.

# Theodore Andrew Kragness Chicago, Ill.

Ted is a product of Chicago, and appears to be proud of the fact. A clear thinker, a sound business man, be it enough to say that he will be sorely missed by the student body. His dry wit and his knowledge of football and baseball have all helped to enlighten our trials and tribulations.

#### Edwin W. Krueger Cedarburg, Wis.

Ed. expresses his Western origin in his wild, laughing gazoo and madly dashing activity. His specialty being feminine pulchritude, we judge the life of science a gay one. Ed. is principally noted for his constant good humour, even pathology failing to arouse his wrath.

#### Nicholas Labzoffsky Toronto, Ont.

Nick spent his youth in the realm of the Bolshevik and is strictly communistic when it comes to borrowing cigarettes. Most fittingly described in one short sentence. "The force of his own merit makes his way—A gift that heaven sent to him."

#### John Leslie

Hamilton, Ont.

Jack's combined geniality and earnestness of spirit have won him a host of friends. As skipper of the senior year he has led us smoothly over the troubled waters and has made himself almost indispensable to all of us. He is an ardent devotee of the common room and believes:

"A woman is only a woman, But a good cigar is a smoke."

#### Norman McAninch Guelph, Ont.

**Albert Lewis**

Local boy makes good. Yes sir, it's Mac. A true practitioner at heart and has already spent a successful summer practising veterinary medicine. A good sport and always willing to lend a helping hand to those in need.

#### Don McDole ( $\Omega T \Sigma$ ) Compton, Calif.

Don's speciality was tobogganing, skiing and skating. Divided his junior year between the O.V.C. and the General Hospital and is a favourite in both institutions. A small animal man of no mean merit we know he will go far in his chosen profession.

#### James McKague Teeswater, Ont.

Whose finger on the door bell of Mac Hall has many times thrilled a maiden's heart? Whose geniality, sportsmanship and generosity has won him many friends? Jim, we predict for you a large general practice, a host of friends, and a brunette.

#### Eugene Manning Burlington, Ont.

Gene hails from Burlington, Ont., and seems to be continually hitch-hiking one way or the other. Quiet, reserved and dignified, yet has been known as a singer of ballads and as a tap-dancer. One of our good students whose interest lies in the small animal field.

#### Elery Jay Meyer Waupaca, Wis.

Although born in Wisconsin he has no questionable characteristics. Every one who has had any connection with him admires his good qualities which no one doubts will some day make him a man outstanding in the field he has so aptly chosen.

Louis Meyer Waupaca, Wis.

We are anxious to see Waupaca, somewhere in Wisconsin, because that is Louie's home. Cool and assured, he will tackle anything and has brains enough to spare to finish it successfully.

Lister Moore Guelph, Ont.

We all feel a little diffident in "Whips'" presence because we are afraid of the insight he has gained while in St. Joseph's Hospital. He is a man of diversified tastes and of ability that should carry him far.

William Morgan  $(\Omega T \Sigma)$ Shelbourne, Ont.

Bill claims Shelbourne as a birth place. They should be proud—we are—for Bill is one of the living examples of how high a man may rise in four short years. A generous and firm supporter of his friends and will be missed.

Stewart Morrison Lindsay, Ont.

Stew. hails from Lindsay and likes to go duck-hunting in nearby districts. Stew. is a good student, a real friend and will be an asset to the profession.

Alan Morrow  $(\Omega T \Sigma)$ Winnipeg, Man.

Homo ferae naturae. Born in Winnipeg, a hamlet in the wildest regions of the Manitoba steppes. Al's interests at the O.V.C. are keen and varied and in his senior year he has even shown an inclination for the nursing profession, particularly nocturnal sessions.

Robert Morrow Winnipeg, Man.

For four years he has been one of the lads. As a frosh he led a rebellion against sophomore tyranny and sacrificed his ambrosial locks on the altar of freedom. Bob will be an intelligent and active asset to our profession.

#### Gerald P. Mullen Walkerton, Ont.

In the early morning when first sniffing the air Moon detected therein the aromatic odour of carbolic acid and olive oil. The subconscious idea was brought to consciousness by a process of association. A vein of droll humour and a rich mine of genuineness which makes for lasting friendship.

William O'Connor Guelph, Ont.

Bill is a deadly combination of youthful ambition, inexhaustable energy, outstanding ability and sincere goodfellowship. As a hockey player, a golfer and a feegetter he shows his versatility. However, in spite of this we hope to see Bill as president of the O.V.M.A. some day.

Eric Pallister  $(\Omega T \Sigma)$  Ottawa, Ont.

Eric will put his wholehearted and generous enthusiasm behind anything from a sleigh ride to a class binge. No one equals Eric in giving practical inspiration to any project, in loyalty to the gang and in maintaining our prestige with

Frank Read London, Ont.

the fair ones.

Can't you just picture frail, wonderful china? Yes? Well that's Frank. A nice boy, a real good boy, and one who always thinks, yea, knows that Mac Hall is God's little gift to the Vets. Main disability—an insurmountable desire to smoke in his sleep. Emits laughter on no provocation.

Jean Rumney Victoria Harbour, Ont.

Jean is a living proof that a woman's height does not measure her worth. Large hearted, she lends a helping hand to every friend in need. The result is natural—a collection of friends who love and respect her. She is a girl four-square, a delightful friend and a witty companion.

Norman Schmidt Floradale, Ont.

Norm first saw the light in Floradale, Ont., and has been the shining light of that metropolis ever since. His interests tend towards a certain one in Kitchener, hockey and a large animal practice. A good sport, a good head and a real friend.

Robert Schultz Silver Creek, N.Y.

Bob came to Guelph with a record of four car accidents and other tit-bits which go to make an eventful youth. In college he has been a good student, combining his work and play with an easy going philosophy of life.

Norman Scollard London, Eng.

Norm. paddled across the pond to enable him to better his education and get a broader view of life. Neither has been neglected since he has been a good student and a lasting friend. His interests are in taking hikes towards Aberfovle.

Guy Shultz ( $\Omega T \Sigma$ ) Carlisle, Penna.

If good stuff is done up in small packages Guy is O.K. Neat, dapper, smiling, Guy is a Vetto be seriously considered because he knows his business. Guy will carve his little niche in the Hall of Fame and it will be a little higher and his light a little brighter than the most.

Roy Sinclair Fort William, Ont.

Roy attended O.A.C. but saw the error of his ways and was welcomed to our institution. His love of stars led him to take a course in Astronomy—now he studies the heavenly bodies. A true friend who will be missed.

Harold Victor Skelding  $(\Omega T \Sigma)$  Wingham, Ont.

Alert—when Mac Hall is out. Serious—when facing the profs. Mockery—when the profs. are out. Laughing—before the joke is complete. Success—Harold will ride the crest.

E. L. Symington  $(\Omega T \Sigma)$ San Antonio, Tex.

"Boots" from semi-tropical San Antonio has a pet aversion for sub-zero weather. He was weaned away from a motor cycle to unassumingly head his class both academically and as a "Prince of Good Fellows". As a large animal practitioner he has the best wishes of his class.

Downey Thompson Mt. Bridges, Ont.

The good die young but here's hoping that Downey will live to a ripe old age. An industrious worker, who has gained the respect of every member of the class. Has a passion for automobiles, and an aversion for the opposite sex.

William Tower, Jr. Leominster, Mass.

Gloomier than Hamlet. Cooler than one of Ash Temple's heatless stones. Reminds us of Al. Jolson—he's so different. Is a singer of ballads—at times. We may see Bill as head of the B.A.I. some day.

George Woodrow Tyrrell Litchfield, Conn.  $(\Omega T \Sigma)$ 

Woody is a conscientious student who takes his work seriously. Ever ready to lend a helping hand, Woody will long be remembered by the most of us. His interest lies in the large animal field.

Leslie Vercoe London, Eng.

Les. has wended his merry way through Christs' Hospital, Aggie College and the O.V.C. unruffled and unworried by any adversity. Having lived down his English birth and schooling Les considers himself a full-fledged Canadian and a pillar of strength in the C.O.T.C.

Jack Warren London, Ont.

Jack has the laurels as class cartoonist and often delighted us with his art. While sincere in his work he is full of pep and good fellowship and has the best wishes of the class wherever he may go.

Robert Woolner Ayr, Ont.

Bob has been one of our outstanding members for four years. Plays parlour rugby and hockey, will take a drink but prefers to leave it alone, has an extreme partiality towards pretty brunettes. His qualities prophesy success.

John Wrightman St. Thomas, Ont.

John has a quiet, reserved and dignified manner yet bubbles over on occasions. He likes the girls but seems to get along without them. He is a Lieutenant in the C.O.T.C. and a gentleman. John will be liked wherever he goes,

Glenn Zinn Minden Mines, Mo.

The "Missouri Missionary" is a veritable mountain of philosophy. There is a depth of character behind his calm and placid appearance that is only realized on acquaintance with him. He has laurels as raconteur of the class.

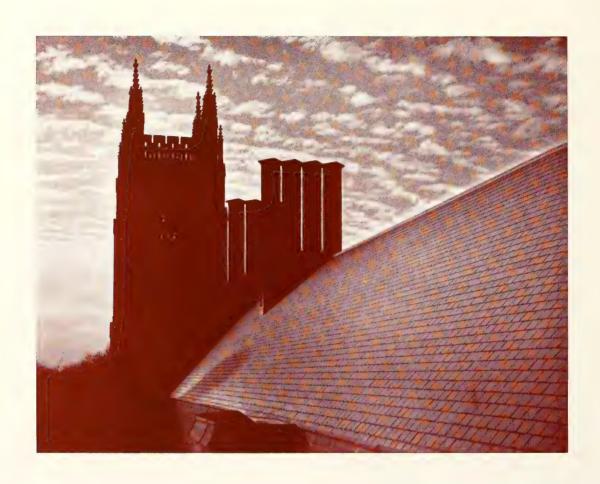

Pharmacy

# To the Graduating Class of The Ontario College of Pharmacy

By R. O. Hurst, Dean

N behalf of the faculty of the College I wish to express to the graduating class of the Ontario College of Pharmacy our hearty congratulations and best wishes for success.

I will avoid saying farewell because I do not wish my message to imply that we may not see you often. We wish you to come back and visit us as often as you are near the College.

During your sojourn at the College we have come to know you well and would appreciate it if you helped to keep up the continuity of that acquaint-anceship. We shall always be interested in you and your successes. You have formed many new friendships with your fellow students and you will find these ties important factors in moulding your future.

We trust that you will go to your chosen task with confidence, and that you will acquit yourselves in such a way as to reflect credit on your College. The manifestation of a loyalty to your College and your profession is an incumbency which rests upon you to a greater extent than heretofore.

We ask you to accept every opportunity where you can put your profession to the fore. We ask you to give leadership to any thought or movement which will help to place your calling on the highest plane.

# Class History of 3T9

HE class of 3T9 was the first class to complete its undergraduate course entirely under the new Dean. This is a distinction we are proud of. We were dubbed "Dean Hurst's Babies" at the beginning of our freshman year and the name stayed with us. Throughout the terms there has been a real sense of comradeship and loyalty which will always be remembered.

We have been a class of accomplishments. Many new ideas and ideals were set up. During our Junior Year the social event of the season was our Class Dance, held at the Royal York Hotel, and it was one to be remembered. This year's Graduation Ball, which was in the Eaton Auditorium, was one of the finest affairs of the entire University season. During our Junior Year there was organized a new Athletic Association. This Executive of the senior class were relieved of much work by the Association, and it has proven to be a really "live" organization. The first "Splash Night" was held last year and this year it was repeated. It proved to be one of the best "all-round good times" and a get-together for the entire College. In athletics, the class has been very active, the Lacrosse, Baseball, and Hockey Team winning their groups in intramural competition.

We leave College now, feeling our education has only begun, and may we strive to learn more and more, so that we may be worthy of our chosen profession.

Donald St. Clair Archer Toronto, Ont.

Don absorbed his training from F. L. Hooper, in Napanee. Quite an ingenious guy and distinctly clever; do not know what Don intends to do, but whatever it is, it will be well done. The school's mad chemist.

Edward Norman Armstrong Sault Ste. Marie, Ont.

Learned about life with J. W. Wilson, Sault Ste. Marie. A keenly intelligent lad—and would give you his shirt. Chief ambition indicates a strain of Mormon or Turkish blood away back. Played soccer and hockey for the boys.

Sydney Samuel Bederman Toronto, Ont.

Syd put in his three-year period with the Star Pharmacy of Toronto. Interested in basketball, volleyball and squash. Hopes to get into the manufacturing end of drugs.

J. Gerald Bedford Waterloo, Ont.

Gerry worked with his brother, W. H. Bedford, Waterloo, Ont. Must be a big store because Gerry is a big boy. Got a glint in his eye that predicts a lot of fun—also has a girl up in Guelph. Hopes to make a million and remain honest.

Gordon Hodges Benson London, Ont.

Flashed his attractive grin for three years in Bicknell's Drug Store, London. Future plans definitely formed regarding propagation of his race. Good guy—Gord. Likes canoeing, golfing and Dusten.

Leslie Edwin Blight Jarvis, Ont.

Les worked with L. L. Mc-Bride of Jarvis. Built rather massively and can knock off a darn good speech. Busied himself with C.O.T.C. down here—looks well in uniform.

Rodolphe Boileau Sturgeon Falls, Ont.

Good old Rod worked for H. Maranda in Sturgeon Falls. Rod is big and cheery with an attractive French accent. Spent the summer as tower man for the Forestry Dept.; has an able grasp of political affairs.

Thomas Albert Brandon Forest, Ont.

Pharmaceutical career began with W. D. MacKenzie, Forest. An authority on diverse subjects, Tom was always a willing aid to help his less fortunate mates. The sea of matrimony made him both quiet and dependable. Is a billiard shark and walking encyclopedia.

Frederick J. Broadfoot Guelph, Ont.

Fred worked with A. H. Kennedy of Guelph. Still has interests there. Has also had quite a bit of military training. Should make a very conscientious druggist — no fiddling around. He means business.

Garnet Carlyle Brown Chatham, Ont.

Preparation for O.C.P. with E. S. Paxton, Chatham. Chief constituent—a cheery smile. Interests: tennis, dancing, week ends out of town. Plans to own his own store—likely where he spends those week ends.

J. Alfred Bruder Mildmay, Ont.

Al worked with J. P. Phelan, Mildmay. Short and stocky; won distinction as a battler during his initiation. His hobbies run to dancing and social activities. Interested in Northern Ontario. Very unselfish—will share his girl friend.

Stanley Raymond Bruton Orono, Ont.

Stan peddled stock tonics and such for J. J. Gilfillan in Orono. Rather quiet but a darn nice guy. Likes skating, badminton and the odd game of pool.

Austin H. Burch Waterloo, Ont.

A. B. Learn gave him his big start there. We wonder who's going to stop him. Aus was class vice-president and an asset to any school. Chief constituent: cheerfulness. Interest: Burch Pharmacy.

V. Gordon Cuthbertson Goderich. Ont.

Gord worked with J. H. Lauder of Goderich. Holds the swimming trophy presented by Urna Troup. Very handsome chap with an engaging man-ner. Likes a little work and a lot of fun-chiefly raising the blood pressure of any girl handy.

Ralph Burke Toronto, Ont.

Ralph put in his three years with P. W. Goldman, Toronto. Good student and will do alright for himself; good tabletennis player.

Francis Aloysius Doran Windsor, Ont.

Preceptor - W. C. Willson. Walkerville. Interests—swimming, tennis, gardening. Future hope-marriage, and that sort of thing.

#### Ella Maye Chapman Pembroke, Ont.

Maye got into drugs with W. L. Mulvihill of Pembroke. Blonde and popular with every one. Knows the answers pharmaceutically and socially. Likes golf and swimming-and will get along very well.

Marie Alberta Dorris Peterborough, Ont.

Marie efficiently wielded pes-tles for A. G. Harris, Peter-borough. Darkly attractive this picture really doesn't do her credit. Presents a combination of personality and quite evident brilliance that should go over.

#### Alan D. Christmas Blenheim, Ont.

Al worked with Dad in Blenheim. First time vou meet Al you like him—after that you love him; one of nature's finest. Future fairly securewomen go for him. Member of Executive I, II. Played hockey. Good looking devil.

#### Tom Robert MacIntyre Duncan Thornbury, Ont.

Tom apprenticed with Liggett's in Toronto. With typical Scottish reserve, gives no hint of future plans, whatsoever they may be they will be well-thought out. Somehow we don't see Tom doing anything but well.

#### Douglas Owen Clark Owen Sound, Ont.

Doug served his apprenticeship with R. J. Conley in Owen Sound. Interested in sports, drugs, and women. In the reverse order.

#### William James Albert Dunn Alliston, Ont.

Ab hailed from J. M. Patton's store of Alliston. Has an enviable eye for female pulchritude; would just as soon use my towel as his own. Tootles a trumpet with the best of them; pretty fair guy all round.

#### **Charles Grant Cornell** Brantford, Ont.

Grant started with T. G. Heard, Toronto. This guy was our president both years; also actively participated in hockey, soccer and volleyball. Plenty of personality here, along with a likeable, democratic spirit.

**Donald Taylor Dusten** Dresden, Ont.

Don worked with his Dad, R. R. Dusten of Dresden, and inherits his father's happy disposition. Fond of sports, participating in baseball, lacrosse and hockey. Gord Benson and Don got on together very well.

George Hubert Dyer Toronto, Ont.

George acquired his professional manner with V. R. Garnham of Long Branch. Takes a lot of abuse from Judd, and lets it roll off. Plenty clever, and as member of House Committee, materially furthered our interests at Hart House.

Murray M. Freedman Toronto, Ont.

Murray was taught to distinguish copper from bluestone by S. Lyons, Toronto. Intends to be a fireman after his two-year interval at pharmacy. Hobbies are fishing and sleeping.

Philip Eisner Toronto, Ont.

Phil lugged packing boxes for W. Isaacson, Toronto. Claims that his heart isn't in drugs but you know that line. Likes photography, woodwork and reading.

Roy Ronald Gazen ( $P\Pi\Phi$ ) Toronto, Ont.

Roy worked his apprenticeship out with Leonard Mehr, Toronto. Does not disclose his ambitions but very probably they will involve a drug store. Roy was also reporter on *The Varsity*, I, II.

James Edward Evans Leamington, Ont.

Good old Jim was Rexallized under the capable direction of W. H. Willson, Leamington. About 200 pounds of brawny, basso profundo and emulates Kreisler. He and Dunn usually perpetrated their woo pitching together.

Homer Duncan Geddes Powassan, Ont.

Homer put in three years with O. E. A. Elliot at Willowdale, Ont. Pretty genial sort—but rather evasive as to future plans; according to his own story, intends to "serve sour milk shakes".

Earl Allan Farber  $(P \Pi \Phi)$ Toronto, Ont.

Earl worked with M. O. Peterman, Toronto. Strongly in favour of Lambeth Walk; also engaged in basketball, volleyball and baseball for the boys down here.

Jack Albert Gibbins Toronto, Ont.

Jack was admitted to the mysteries of the apothecary by V. S. Lynch of Toronto. Expects to have to work a little. Played soccer and volleyball. Other activities carried on after dark.

Franklin Ewing Forsyth Orangeville, Ont.

Frank worked with R. A. Marshall of Orangeville, before taking Toronto by storm. Regular whirlwind at lacrosse and baseball. Serving ably in furthering pharmacy's efforts in these departments; captain of the lacrosse team. Favours more botany for pharmacy.

Aaron Gordon ( $P\Pi\Phi$ ) Toronto, Ont.

Aaron worked his time out with Vic Himmelfarb, Toronto. His ambition indicates a leaning towards dancing and amatory pursuits. Is also a pingpong virtuoso. Desires to be a Master Pharmaceutical Chemist.

Constance Radcliffe Francis Swastika, Ont.

Connie wrestled miners up in Timmins for S. B. Scobell. Has plenty of brains below those tresses, and is a strong defender of the North. Could almost write her own ticket in the drug trade—may grab off a medal.

Ivan Robert Griffith Gore Bay, Ont.

Ivan served his apprenticeship with Geo. R. McRae, Gore Bay. Curly, red-headed chap; always cheery. Ivan has a clearly defined system with ladies—loves 'em and leaves 'em; also a disciple of the terpsichord.

Donald Burton Harding Gananoque, Ont.

Don strode the decks for W. E. Austin of Gananoque. Pretty handy man with the lacrosse stick and in the swimming pool. Served on Athletic Committee. Pharmacy's Mutt and Jeff—Blight and Harding.

Weldon B. Inch Weston, Ont.

Weldon received sound instruction from his father, Dr. Inch of Weston. Sports a car we all coveted. Indicates a liking for R.C.A.F. as well as drugs.

Harold Harley Galt, Ont.

Harold served his apprenticeship with H. F. Cant in Galt. Seems to be a pretty handy guy. Will dig ditches and mix mortar with the best of them. Hopes to raise a family to carry on his drug business. Harold has also taken military training.

Donald John Locke Jackson Cardinal, Ont.

Acquired professional manner with D. E. Balrer, Cardinal, Ont. Endowed with considerable pulchritude—could cut a swath if he wanted to. May take up flying. Very likeable chap is Don.

Donald Hubert Harmer Ottawa, Ont.

Preceptor—J. N. Harmer, Ottawa. Secretary of Senior Class. Specialty—the correct answer. Winner of First Junior Scholarship. Will make some lucky company an A1 analytical chemist.

William F. Jones Brampton, Ont.

Bill enlisted with V. R. Dale of Brampton. What with volleyball, basketball, lacrosse, badminton, in addition to getting around socially, Bill's time has been pretty well taken up. Was also our official reporter for one of the drug journals.

Richard Grant Henderson Drayton, Ont.

Grant is a chip off the old block as far as occupation is concerned. Incompatibility work. His future is certain and we wish him the best of luck. Grant tries to give all girls an even break. Member of Executive I, II. Sports—ping pong.

Dalton E. Joynt Laurentian View, Ont.

Scrubbed the floor for J. B. Garrison, Ottawa. "Dalt" very capably managed Pharmacy Volleyball Team II. Plans to see the world on a bicycle.

Kenneth Bruce Hogle Odessa, Ont.

Weaned on a pestle by W. J. Hunter, Odessa. Incompatibility—wakefulness. The O.C.P. Lochinvar who tells the little girls the answers. Future plan—to marry into money.

Leo Ross Joynt Seaforth, Ont.

Leo put in three years with Chas. Aberhart, Seaforth. This guy can absorb more notes in one night than anyone else in the college; could take the medal if he wanted to—maybe he will.

Roger T. Holroyd Galt, Ont.

Roger put in his three years with Geo. Dando of Galt. Was our college editor for *Drug Merchandising*. Also a photography enthusiast associated with Toronto Camera Club and Hart House Camera Club.

Coulson B. Judd St. Thomas, Ont.

Coulson was held in restraint for three years by his Dad, F. W. Judd, St. Thomas. Big, husky chap—constantly kidding. Ably represented the class to S.A.C. and member of Executive II. No one more popular down here. Chief delight was teasing Lamb.

Sister St. Kyran Toronto, Ont. Served apprenticeship in St. Michael's Hospital, Toronto. Expects to utilize Phm.B. in hospital work.

Barrie, Ont.
Ray started his drug career with P. A. Knechtel of Haileybury. Good company and clever student. Another one of these guys who prefers not to discuss future plans—maybe a good idea, too.

Ray Price Livingston

Donald Colin Lamb
Toronto, Ont.
Acquired knowledge of symmetry with Frank Jones,
Guelph. Likes to sketch and
is darn good at it. Loves all
girls—from a distance. Don
has immortalized the expression, "Isn't that awful?" Very
cheery little gent—we like him.

Toronto, Ont.
Precepted with S. H. Andrews,
Toronto. Constituents—a variable mixture of fun, sports and
pharmacy. Ed is a real worker
in every way, aiding the soccer
and lacrosse teams, and well
on the way to a captaincy in
the army. Future plans depend on Hitler.

William Edward McAleese

Eugene Tait Lamont Glencoe, Ont. Gene went to London to work for C. L. Martin there. Really fine looking chap—has brown eyes that women go for. Worked in Toronto during the summer. Should make a smart druggist.

William Bartholomew McCann Gravenhurst, Ont. Preceptor—C. J. Parritt, Gravenhurst. Bill is another of those real boys. Compatibility—women. Soluble—1-1 of 90% alcohol. Future—a little Mc-Cann.

David Layefsky  $(P\Pi\Phi)$  Toronto, Ont. Dave worked with M. Haberman of Toronto. Hobby is electrical work and photography. Unlike Achilles, Dave's tender spot is the back of the neck.

William T. McCarten
Waterford, Ont.
Bill apprenticed with L. A.
Sovereign, Waterford. Great
guy to have at a party—sings
tenor like a Caruso; served
efficiently on the Banquet
Committee II. Bill is rather
reticent about future plans,
but he'll do all right.

John Charles Lee Toronto, Ont.
Jack worked with A. C. Lochead, London, who must have had something on the ball. Doesn't disclose any future plans but will probably stick to drugs, which he knows darn well. Was a member of the C.O.T.C. and the U. of T. Rifle Association.

Jack R. McGaffey Windsor, Ont. Washed bottles for E. W. Augustine, Windsor. Fraternity— Shag Brothers. Interests shagging, marriage, D.P.W.

Haileybury, Ont. Ed served his apprenticeship with A. P. Knechtel of Haileybury. Still prefers the North to civilization—probably with good reason. Naturally is proficient at winter sports—skating and skiing.

**Edward Charles Liscumb** 

Alvin Vernon McKnight
Toronto, Ont.
Alvin put three years in with
H. Waisberg, Toronto. According to his own story, is affiliaated with Rho Dammit, Rho
Fraternity and captained the
college parlor rugby team.

William Howard McLachlan Virden, Man.

Howard worked his time out with J. F. Ross of Toronto. Very elongated gent with a constant cheerfulness. Admits a liking for travel, golf and shooting, in addition to drugs.

Harry Merrett St. Catharines, Ont.

Met the spatula at St. Catharines. Introduced by R. J. Magness. Activities — Pharm. Committee I, II. Incompatibilities—early rising, dish-washing. Interested in lacrosse and basketball. Serenades his new brunette with a saxaphone.

Louis Simon McLean Ottawa, Ont.

Louis served his three-year period with Geo. Aiken of Ottawa. Likes photography in addition to being a clever student. Definitely expresses his intention of owning his own store.

Murray J. Morrison Hamilton Beach, Ont.

Murray kept C. R. McBride of Hamilton at his wits end for three years. Likes to whoop it up occasionally in a genteel way. Any community that gets Murray for the local druggist will find it interesting constantly.

Neil Irvine McLennan St. Marys, Ont.

Neil passed up an Arts Course in favour of the mortar and pestle, serving under W. R. Watson, Georgetown. Doesn't commit himself on future plans, but we can't see Neil doing anything but well.

Charles Albert Morton Beamsville, Ont.

Bert was initiated into the drug realm by F. J. Thomson, Beamsville, Ont. Plenty of grey matter here—extremely well-read. Was associated down here with C.O.T.C., Hart House Glee Club, and Hart House Library Committee.

Stanley Francis McVey Fort Frances, Ont.

Stan served his apprenticeship with G. G. Backer, Fort Frances. This lad holds the Senior Stick I, II. Blessed with broad shoulders he is pretty handy at any sport. Associated with soccer, basketball teams; also Athletic Representative. Intends to stick to the North.

George B. Noble Wellington, Ont.

George put in his three years with L. P. Keane of Wellington, Ont. This chap is a pretty husky gent—plays a good game of hockey and baseball, having helped the old school in both departments, being Captain of the Hockey Team II

Ross Edward McWilliam Thamesford, Ont.

Ross looked them over from behind P. H. Wray's counter, Toronto. Very clean-cut chap with agreeable personality. Has visions of making his pile and retiring early.

Michael John Notte North Bay, Ont.

Mike hails from McDivitts store in North Bay. This chap is our number one piano virtuoso—what a touch. Carried this talent in the school's interest on the Hart House Music Committee. He is no slouch at drugs either.

Jean Emile Major Ottawa, Ont.

Jack is one of our French-Canadians. Served his threeyear period with A. F. Astley, Ottawa. This chap really means business. Hopes to continue his academic studies in Europe. Member of Newman Club. Best of luck to you, Jack.

Elizabeth M. Palmer Port Arthur, Ont.

"Betty" sat for three years on the lap of J. T. Stocks, Port Arthur. This Pride of the North just loves keeping house and cooking — or just loves. Compatibility — dates, parties. Known to all as a "Great Guy".

Fred. S. Park Windsor, Ont.

Fred put in three years with R. F. Goodbrand of Riverside, Ont. A very likeable chap is Fred—good student and cheery. He and McGaffey team up to play "cherchez la femme"—also very proficient bowler.

Helyn Elizabeth Rayfield Huntsville, Ont.

Helyn spent most of her life in Huntsville and worked out her apprenticeship there with R. J. Gilchrist. Very jolly sort and plenty clever. Helyn has future ambitions, but with feminine prerogative does not voice them.

Beatrice Edna Partridge Burk's Falls, Ont.

Materially increased number of male customers for A. W. Partridge, Burk's Falls. Has very attractive smile. Likes skating, dancing and tennis. Has designs on the senior stick.

John Norman Redpath Nottawa, Ont.

Norm, jerked sodas with gusto for J. S. Wolfe, Toronto. Was a member of the Tappa-Nu-Keg Fraternity. Plans to marry into money—no widows. We wonder how he'll do it.

John Waters Peacock Oshawa, Ont.

Jack was reared pharmaceutically by Jury and Lovell of Oshawa—must have good boarding houses there. No slouch at the piano, classics and ballads rather than swing. Admits that his future is in the hands of the gods.

J. Edward Rose London, Ont.

Ed was tutored by R. Magee of London. Leans strongly toward sport. Played a lot of hockey in London as well as for Pharmacy. Member of Class Executive II.

William R. Perkins London, Ont.

Bill is another London product coming from Cairneross. Not a forward chap in any way; but really good-natured and goodhearted. Prefers that future plans be not published.

Mervyn Grant Rychman Hensall, Ont.

Pharmaceutical start—Cairncross Drugs, London. Merve has the makings of a real druggist and plans to place his personality and skill in the hands of the public. Good luck, Mr. Rychman! Also has a mysterious connection with the "G-Men".

Paschel Albert Pigeon Stratford, Ont.

Pat put in his three years with H. M. Harwood, Stratford, Ont. Tall, fine-looking chap with an enviable head of hair; rather quiet, but genuinely friendly. Plays no favourites with sports—likes them all.

John V. Schaffter Brantford, Ont.

Jack ogled them for three years at Brantford with H. S. Tapscott. Not a very big gent, but his ambitions cover a lot of territory; enjoys fondling the pasteboards; likes tennis and sports. Hopes to get a five-hour day for druggists.

George Pitcher Ayr, Ont.

George received instruction under W. E. Love of Ayr. An authority on aquatic sports and instruction in life-saving; also managed our Hockey Team. Ought to be and is clever. Roomed with Harmer. Really fine guy is George.

Virgil Flock Schier Dunnville, Ont.

Virg put his time in with J. W. Nodwell of Dunnville; put in the summer with Liggett's in Hamilton. Has a hankering for aviation, although expects to stick to drugs.

#### Jack Charles Schuyler Woodstock, Ont.

Sold toothpastes and peanuts for F. Hyde, Woodstock. Was the ideal student and is going to be a pride of O.P.C. Intends to go to England *via* cattleboat.

### Harvey Schumacker Toronto, Ont.

Broke his first graduate with C. Rapport, Toronto. We expect Harvey to go a "long" way in the drug business. Incompatibilities — short pants, 9 o'clock lectures. Future plans — social parasite. Activities — reader of sports page.

#### Harry Wesley Seager St. Catharines, Ont.

Harry practiced chromatic scales on his trombone in J. W. Ford's back-shop in St. Catharines. Member of the deadliest quartette of the year—if only that apartment could talk. Managed the Lacrosse Team capably—also captained B Basketball Team. They don't come better than Harry.

#### Gerald Victor Simmons Bloomfield, Ont.

Gerry worked with C. D. Sills, Napanee, between band practices. Plays slide trombone in Varsity Band, also C.O.T.C. Band. Expresses a very commendable ambition, "To get the most out of life." No snob about Gerry—always a regular

#### Anna Shaw Toronto, Ont.

Anna lent charm to M. Fromkin's store here in Toronto. Pretty solidly wrapped in drugs, but mentions dancing as an enjoyable pastime. Plans to conduct a modern apothecary shop.

#### William Charles Snelgrove Port Hope, Ont.

Charlie served his apprenticeship with Geo. Watson, Port Hope. Hopes to get along with minimum amount of work, which requires brains—and he's got 'em. Fond of bowling, bridge, also Nimrod and Isaak Walton disciple.

#### Gilbert A. Shaw Mimico, Ont.

Gib worked his three years with A. Podolsky out in Mimico. Quite a joker is Gib. His red head was generally prominent in our little escapades. Doesn't give any information as to future plans.

## Charles Edward Snowdon Toronto, Ont.

Ted worked with H. S. Cheesman, Toronto. One of Pharmacy's Robert Taylors; drives a car much to the appreciation of the rest of the boys. Don't know what Ted intends to do, but wherever he locates, he ought to pull plenty of business from the ladies.

## Donald Gibson Shepard Windsor, Ont.

Don put in his time with G. McKinley, Walkerville. With admirable impartiality he divided his time equally between the Casino, skating, sleeping and homework. Hopes to obtain financial security via the altar.

#### John Clinton Spence Waterdown, Ont.

A Westerner who came East. Worked for F. G. Niebel, Toronto. Rather a quiet chap, but a thinker, as evidenced by his primary ambition expressed tersely and ascetically—"Be a daddy". Played basketball for the troops.

#### Louis X. Sherman Toronto, Ont.

Put in apprenticeship with J. S. Charkoff, Toronto. Hopes to operate a drug store without "Kik"—hope he does. Pretty handy with the ping-pong bat.

## William James Stubberfield Chatham, Ont.

Bill strung along with C. J. Porter, Chatham. Took the silver medal in first year and may have further plans in the same direction again. Bill is pretty well posted on photography; claims to have personally known "Uncle Tom".

David Joseph Sutherland Hamilton, Ont.

Dave removed fly-specks from W. J. Best's show cases for three years. Felt so good last summer that he became a Benedict-our heartiest, Dave. Has visions of becoming Patriarch of a big clan. Participated in soccer, hockey and baseball.

Lloyd Clayton Van Duzen Grimsby, Ont.

Lloyd is a product of T. L. Dymont of Grimsby, who did a good job. One of our married men and with this associated responsibility, applied himself almost entirely to acquiring his Phm.B. Lloyd is sincere, clever and a good guy.

David Burgess Taylor Hamilton, Ont.

Dave came from T. W. Thomson's store of Hamilton, Extremely attractive and personality to burn. Shows up very well on the platform or stage. Dave his his eye on a manufacturing job. Was our Treasurer II and played soccer.

Social Science

## To the Graduating Class of Social Science

By Professor A. E. Grauer, B.A., Ph.D.

HE graduates of the Class of 1939 have seen extensions of the curriculum in Social Science that reflect the growing importance of the field of welfare in all its aspects, whether in the form of private effort, public legislation or industrial relations. It is more and more realized that nothing can more effectively strengthen our weakening social fabric than a constructive

attack on the problems of human welfare. This growing realization occurs at a time when, partly because of inability to cope with social problems, governments have been faced with a series of unbalanced budgets. Competitive armament-building is increasing the pressure on governmental budgets. It is possible therefore that less rather than more money will be forthcoming for a constructive attack on social problems, important as they are. This prospect makes the quality, perseverance and vision of those entering the field of social welfare all the more vital. It is easy to make progress when funds are plentiful. It is an entirely different proposition when appropriations for welfare are being curtailed. The Report of the Royal Commission on Penitentiaries shows how pressing are the problems in one sector of the field of

welfare. The whole field cries for leadership. Whatever kind of work in welfare you may do, therefore, make sure that despite present difficulties you do not lose sight of the standards to which you are striving. It will be easy to give up the struggle and fall into a rut. It will be hard to continue fighting against apathy, ignorance and obstruction, especially from quarters where you have every right to expect support. But the latter course holds its own rewards. It is the way not only of social but of personal salvation.

## Eleanor Dorothy Albright Winnipeg, Man.

Has a B.A. in psychology from University of Manitoba. Interests include dramatics, girls' clubs, and men in top hats and tails. Spends summers enjoying life and catching up on sleep lost during winters. Dislikes rainy weather and being quiet.

Was graduated from Victoria College, 1938, having, unknown to himself, absorbed a few fragments of Sociology. Is trying to balance a resultant warped outlook on life with graduate work in Psychology. Looks bleakly at pseudo-facetious morons who ask: "What is Social Science?"

Frances Fenwick Ball  $(\Gamma \Phi B)$  Cedar Springs, Ont.

Graduated in English and French from the University of Western Ontario. Final year President of Social Science and S.A.C. Representative. Main ambition to supply official speech thankers for all occasions.

Born in Coldwater, Ont. Taught school in Port Arthur and Sault Ste. Marie, Ont.

Was graduated in Sociology from Victoria College, in 1937. Received M.A. in 1938.

Ruth Eileen Bond (A $\Gamma\Delta$ ) Toronto, Ont.

Matriculated from Moulton College, Toronto. Graduate in Household Science, University of Toronto.

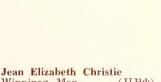

Esther Bull Toronto, Ont.

Absorbed early education in London, Eng. Later shunned books in favour of excursions to Europe and volunteer social work in the east end of London. Is impressed by Canada's scenery and the unconsciousness of most of her inhabitants.

Attended Trinity College and graduated in Modern History in 1936. Spent one summer organizing playgrounds out of children and enthusiasm; but appears to spend most of her time sitting on the fence.

Jean Elizabeth Christie Winnipeg, Man. (ΠΒΦ) Matriculated from Gordon Bell High School, Winnipeg, and graduated in Arts from the University of Manitoba. In residence at Wymilwood while at Varsity.

Was graduated in Sociology from Mount Holyoke College in Massachusetts, class of 1938. Having discovered all Canadians do not live in igloos is slowly developing an international outlook.

Reuben Goldstein Toronto, Ont.

Came to Varsity from Harbord Collegiate. Graduated from University College in 1936. Outside interests include study groups in social problems and the organization of boys' clubs. Camp counselling takes up his summers. Future plans—group work or personnel administration.

Doris Evelyn Johnson Toronto, Ont. Graduated in Sociology, University College, 1938.

Gertrude Ruberta MacKay Maxville, Ont.

Edith Gertrude McGruder

Graduated in Pass Arts, University College 3T7. Secretary and member of Social Science

Executive in first year. Future:

hopes to travel around the

Toronto, Ont.

world eventually.

Graduate of Queen's University (B.A. '37). Summer occupations have included volunteer leader at fresh air camp, waitress at Highland Inn, Algonquin Park, and governess at Murray Bay, Que. In addition to professional aims she admits an ambition to learn figure skating and to play a mandolin.

Karl Dwight Kayler Cooksville, Ont. Born in Kingston, Ont. Matriculated from Humberside C.I., Toronto.

Jessie Gertrude MacKay Saskatoon, Sask.

Graduate in Arts, University of Saskatchewan, 1937. Blown east by the drought, and is now burnt up about the whole country. En route to becoming a social worker, spent spare time in settlement, Bolton Camp, S.C.M. National Executive work and sports.

Charles Norman Knight Toronto, Ont.

Born in Margate, England, exported to Canada at a tender age, and has been going various places ever since, including Varsity (Vic. '34) and Vancouver and back by freight car. Net result—a prospective social worker with ambitions to own an airplane.

Helen Leeming McMaster, B.A. Westmount, P.Q.

Came to Toronto from Montreal in search of free speech and a diploma. Still can't see anything the matter with Old McGill. On Scholarships Committee of the Canadian Student Assembly. Member of Social Problems Club. Supporter of "causes".

Edith Margaret Lewis Ottawa, Ont.

Graduated from Victoria College, University of Toronto, in 1937.

Marion Finch Menzies Toronto, Ont.

Born in North China and matriculated from the Canadian Academy, Kobe, Japan. Graduated from Victoria College in 1936, then took two years' post-graduate work in Theology at Emmanuel College. A member of the "Studentes Emeritae Victoriae" Club, S.C.M. and Student Volunteer Movement.

#### Margaret Ellspeth Messenger Bridgetown, N.S.

Took her B.A. at Mt. Allison University. During a year at Varsity on an Exchange Scholarship made the Varsity De-bating and Vic. Hockey and Baseball Girls' Teams. Hopes to get into phychiatric social work and also to travel around the world.

Graduate of Wesley College, Manitoba University. Member of the English Club, and De-bating Society. Interested in sports, and roars herself hoarse at hockey games. Intends to become a social worker. Has a bit of Irish wit and hopes to see Ireland at some future date.

Nursing

# To the Graduating Class of the School of Nursing

By Miss E. K. Russell, B.A., B. Paed.

OUR school has a message of congratulations and good wishes to offer to you as you approach graduation. In looking forward to the vicissitudes of life in this world of 1939, you know, already, that no smooth road lies ahead, but better than such easy promise is the hope that you are equipped for happy travel no matter what comes. In spite of all that obtains in world conditions, in spite of all fears and forebodings, my belief is that you have as much reason for optimism, as much promise of happiness as any young people have ever had; and certainly there has never been greater need for all that you have to offer of trained and disciplined service. Thus in its deepest values the future is in your own hands. All members of the staff join in sincerest wishes for your good fortune throughout life.

Elizabeth Hope Adams Toronto, Ont.

Hart House

## Hart House

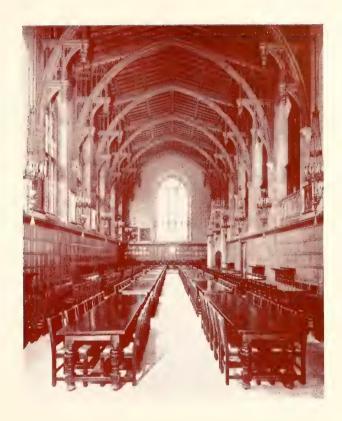

#### THE FOUNDERS' PRAYER

"The Prayer of the Founders is that Hart House, under the guidance of its Warden, may serve in the generations to come the highest interests of this University by drawing into a common fellowship the members of the several Colleges and Faculties, and by gathering into a true society the teacher and the student, the graduate and the undergraduate; further, that the members of Hart House may discover within its walls the true education that is to be found in good fellowship, in friendly disputation and debate, in the conversation of wise and earnest men, in music, pictures and the play, in the casual book, in sports and games and the mastery of the body; and lastly, that just as in the days of war this House was devoted to the training in arms of the young soldier, so in the time of peace its halls may be dedicated to the task of arming youth with strength and suppleness of limb, with clarity of mind and depth of understanding, and with a spirit of true religion and high endeavour."

Hart House is so called in memory of the late Hart Massey. Begun in 1911, it was completed in 1919 and presented, fully equipped, to the University of Toronto by the Trustees of the Massey Foundation. To the Hon. Vincent Massey, Vice-Chairman of the Massey Foundation, is due the idea of Hart House, as well as the form it assumed under his personal supervision. From the autumn of 1914 until November, 1918, it was used for military purposes and within its walls thousands of men were trained for service overseas. On the first anniversary of the Armistice (11th November, 1919) Hart House was formally opened by His Excellency the Duke of Devonshire, who was at that time the Governor-General of Canada. Mr. Henry Sproatt and Mr. Ernest Rolph were the architects of the building which comes as near to meeting the requirements of the ideal house for student activities as any on this continent or perhaps in the world.

In its widest interpretation Hart House, which is for the use of men only and is non-residential, seeks to provide for all the activities of the undergraduate's life which lie outside the actual lecture rooms. Architecturally of great beauty and built round a quadrangle, Hart House is unique in that it houses under one roof a finely proportioned hall, common-rooms of every description, a library, debates room, music room, a small chapel together with rooms for the use of the Student Christian Movement, an art gallery, a print room and an arts and crafts room, photographic rooms, a billiard room, squash racquets courts, an indoor rifle range, senior common-rooms for both faculty and graduate members, a few bedrooms for guests, offices of the Comptroller's department, the office and private rooms of the Warden and in the athletic wing an upper and lower gymnasium both admirably equipped, separate rooms for boxing, wrestling and fencing, an indoor running track, a room for rowing practice, a large swimming pool and the offices of the Financial Secretary of the Athletic Association, the Director of Athletics and the Director of Medical Services for men students. Below the quadrangle is a fully equipped theatre with foyer, green room, dressing rooms, wardrobe and the office of the Director of the Theatre. Every male undergraduate of the University is required to be a member of Hart House towards the upkeep of which he pays an annual fee of twelve dollars. The House has no endowment and these fees are its chief source of revenue.

The gymnasia, swimming pool and locker rooms are under the control and direction of the Athletic Directorate through Mr. T. A. Reed, Financial Secretary of the Athletic Association.

The care of Hart House and its welfare have to a large extent been entrusted to the undergraduates themselves. There are a number of Standing and Special Committees, the personnel and duties of which, subject to the authority of the Board of Stewards, are as follows:

#### HOUSE COMMITTEE

The House Committee is the senior of the standing committees with supervision over the activities of the House and general control of the Great Hall, the kitchens and the tuck shop. The billiard room and barber shop are under its care and it is also responsible to the Board of Stewards for seeing that the structure and equipment of the House are kept in good repair. The annual elections of the committees of Hart House are also under the management of this committee.

The members of the House Committee for 1938-1939 are: Professor W. J. T. Wright, Chairman, the Warden, Professor T. M. C. Taylor, Mr. W. H. Bilbrough, graduate representative, the Comptroller, the Assistant Comptroller, E. W. Wallace, Jr., Ontario College of Education representative, D. W. Morison, Athletic Association representative, F. Deacon, G. H. Dyer, J. J. Fitzpatrick, B. H. B. Hallam, H. E. L. McLaughlin, F. A. O'Dea, H. G. Ronson, J. O. S. Smith, C. S. Wright and C. R. Silversides, Secretary.

#### LIBRARY COMMITTEE

The library in Hart House is recognized as one of the most beautiful rooms in the whole building.

In accordance with the idea of the Founders, the Library Committee has for the past ten years been engaged in the building up of a collection of books such as might be found in a good private library and the room has always been a popular resort for all who like to spend their leisure hours reading the casual book.

At present there are about five thousand volumes on the shelves about half of which are fiction, while the rest are composed chiefly of biography, history, languages and general literature. Additions to the library are made at regular intervals and the activities of the committee are mainly centred around the selection of new books for purchase. This year two library evenings were held at which the speakers were Bertram Brooker, well-known artist and author and Gilbert Norwood, professor of Classics at University College.

The Library Committee is also responsible for the selection of periodicals for use in the reading-room and in this department of the House a wide range of weekly journals may be found.

The members of the Library Committee for 1938-1939 are: Professor C. Lewis, Chairman, the Warden, Professor N. J. Endicott, Mr. D. C. Wells, graduate representative, R. A. J. Phillips, curator, H. L. Aboud, W. W. Barrett, W. T. Boddy, G. A. Delhomme, D. B. Hicks, R. E. F. Jones, C. A. Morton, J. L. Orr, R. L. Whitelaw, W. B. Wood, and S. McClatchie, Secretary.

#### MUSIC COMMITTEE

The Sunday Evening Concerts this year were given by the following artists: The Hart House String Quartet; J. Samaloff, pianist; George Lambert, baritone, and Dr. Frederick Sylvester, organist; Norman Wilks, pianist; Emmy Heim, mezzo-soprano; Margaret Brown, pianist; the Hart House Glee Club with George Lambert, baritone, and the Pipes Group; and Viggo Kihl, pianist.

The usual series of Friday Afternoon Recitals took place from October to the end of February. Songsters were again held on certain Sunday evenings during the year in the music room and were directed by J. Campbell-McInnes.

The Friday midday sing songs continued to be as popular as in other years under the able leadership of G. Ross Workman. On these occasions men gather after lunch in the east common-room to sing under Mr. Workman's direction.

An interesting development this year in the musical life of the House has been the formation of the Pipes Group. During the academic year 1937-1938 Professor H. R. Kemp instructed a number of undergraduates interested in the making of reed pipes which instruction he resumed in November, 1938, organizing classes in the evening. Mr. Weldon Kilburn was appointed conductor and the first rehearsal of this group took place in the music room on Thursday, 12th January, 1939, with twenty men present. At the Sunday Evening Concert given by the Glee Club, on 26th February, the Pipes Group gave two short items on the programme.

The members of the Music Committee for 1938-1939 are: Professor M. D. C. Tait, The Warden, Dr. A. M. Wynne, Sir Ernest MacMillan, Mr. F. R. MacKelcan, graduate representative, T. K. Cragg, M. Fleming, R. A. Greig, W. R. Grinnell, C. H. Holmes, J. R. Maybee, M. J. Notte, R. L. Riddell, W. H. Simpson and G. J. Millar, Secretary.

#### GLEE CLUB COMMITTEE

Under the enthusiastic direction of Dr. Charles Peaker the Glee Club had a most successful year. They assisted at the Armistice Day service, were present at an evening service at Deer Park Church, sang at the S.C.M. carol service in Knox College Chapel and gave a carol programme at lunch time in the Great Hall just before Christmas. This carol programme was heard by C.B.C. representatives and as a result the Glee Club went on the air the following day from 1.30 p.m. to 1.45 p.m. in a coast-to-coast broadcast. The C.B.C. announcer began by describing the Great Hall which at the time was full of undergraduates having lunch, the programme thus being given in a setting characteristic of Hart House. The Glee Club also gave a Sunday Evening Concert and were invited by the Alumni Federation to sing at Alumni Night in the Great Hall, providing a most satisfactory close to the year's activities.

The members of the Glee Club Committee for 1938-1939 are: Professor H. R. Kemp, Chairman, the Warden, Mr. E. A. Ricker, graduate representative, Dr. Charles Peaker, Conductor, the Secretary of Hart House, G. J. Millar, N. J. Abbott, J. C. Bain, K. R. Cowan, W. G. Weare and A. E. A. Ongley, Secretary.

#### ART COMMITTEE

The activities of the Art Committee include the holding of exhibitions in the gallery and the print room, the administration of the arts and crafts room, the management of art classes and the occasional purchase of pictures. The Graduating Year of 1939 presented "Ice Harvest" by Henri Masson to the collection of Canadian pictures owned by Hart House.

The exhibitions during 1938-1939 have included the work of Lawren Harris, Jr., Charles Goldhamer, Clarence Chong, Lemoine Fitzgerald, Professor M. S. Osborne, Goodridge Roberts, Kathleen Daly and George Pepper, photographs by Andrew McDougall as well as the annua! exhibition of photographs arranged by the Camera Committee, the work of undergraduate members, the work of senior members and members of the faculty and an exhibition in April consisting entirely of work carried out at the art classes through the winter. On several occasions noon hour reviews of exhibitions were given by the artists concerned. Mr. Charles Comfort gave an interesting criticism of the display by undergraduate members of Hart House.

This year for the first time the art classes and the work in the arts and crafts room have been combined under one instructor. Mr. Gordon Webber, whose skill and enthusiasm as an art teacher are well-known in Toronto, acted in this capacity.

Eleven pictures from the Hart House collection were lent for the "Century of Canadian Art" exhibition which took place in the Tate Gallery in London and was opened by H.R.H. the Duke of Kent, on 15th October.

The Toronto Art Gallery and Hart House were the third largest exhibitors at this important all Canadian exhibition which is in itself a tribute to the good judgment and skill of those who in the past have purchased pictures for Hart House. Three other pictures owned by Hart House were sent on loan to the California World's Fair.

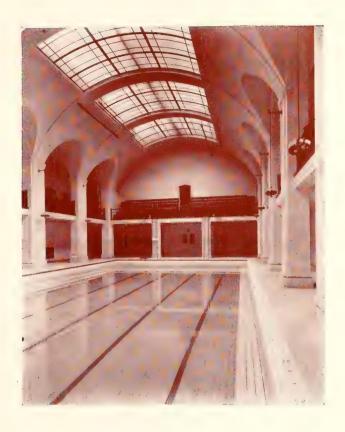

The members of the Art Committee for 1938-1939 are: Professor H. R. MacCallum, Chairman, the Warden, Mr. R. G. Riddell, Dr. D. M. Tanner, graduate representative, D. J. Van Wyck, Keeper of the Prints, W. W. Armstrong, W. B. Burwell, T. C. Daly, J. F. Freeman, R. S. Harris, F. J. Hinds, J. L. McFarland, G. A. Northgrave, D. R. Warren and J. W. Barnes, Secretary.

#### **CAMERA COMMITTEE**

The Camera Committee, which is a special committee of Hart House, is responsible for the management of the dark rooms, the care of photographic equipment and the general encouragement of photography among the members of the House. The annual exhibition of photographic work by members of the House, arranged by this committee, took place in January, when ninety-five prints were hung and nearly double that number submitted. Each year the committee selects from its annual exhibition a few outstanding prints for a permanent collection owned by Hart House.

Each fall the committee makes an effort to encourage beginners in the use of club equipment and instruction classes are given by various members. The interest in photography has increased from year to year and the Committee were forced this fall to give serious attention to the accommodation in the camera rooms.

The members of the Camera Committee for 1938-1939 are: Professor A. F. Coventry, the Warden, Mr. B. C. Matson, graduate representative, the Assistant Comptroller, M. A. Ashworth, Q. R. Ball, E. S. W. Belyea, J. J. Brown, M. McMurray, A. J. L. Solway and L. M. Hampson, Secretary.

#### SQUASH RACQUETS COMMITTEE

The Squash Racquets Committee, near the close of the present academic year, became a standing committee of Hart House by authority of the Board of Stewards. This committee is responsible for the general control of the squash courts and the arrangement of tournaments with outside clubs. In addition to the two tournaments for members—the Inter-Faculty and the Individual—Hart House was represented in the Canadian Squash Racquets Championship at Ottawa, in February, and in the Ontario Squash Racquets Championship at Hamilton, in March. In the course of the year team matches were played with the Carlton Club, the Buffalo Downtown Y.M.C.A., the Hamilton Squash Club and the Hamilton Thistle Club.

The classes for beginners and the team practices were continued this year and have resulted in great enthusiasm for the game and a continued high standard of play.

The members of the Squash Racquets Committee for 1938-1939 are: Mr. A. B. Fennell, Chairman, the Warden, R. Richmond, graduate representative, J. R. Kirkwood, C. S. Lazier, H. S. Wainberg, M. A. Wilson, C. J. Seagram and J. A. Mullin, Secretary.

#### **DEBATES COMMITTEE**

On 31st January, 1924, the first debate ever held in Hart House took place. This debate was on the open parliamentary system, special Rules of Procedure being drawn up by the committee. The debates room in Hart House was arranged as far as possible similar to the Provincial or Federal House. After the four speakers "on the paper" had finished their speeches the debate was open to any member who having caught the Speaker's eye might then rise and address the House. At 10.30 p.m. the House divided on the motion. The aim of Hart House debates is to encourage real debating in contrast to the competitive system by which speeches are carefully prepared for weeks beforehand and also to encourage among undergraduates an interest in public affairs.

Resolutions discussed during the past year were "That this House has confidence in Mr. Chamberlain's foreign policy", "That in the opinion of this House the maintenance of the British Empire is a barrier to progress", "That in the opinion of this House fraternities are a bad thing", "That this House has confidence in the present administration of the City of Toronto" and "That in the opinion of this House an expansion of federal powers over social services by amendment of the British North America Act will advance the cause of Canadian unity".

Among visitors who have spoken "on the paper" or from the floor of the House are the Hon. E. C. Drury, G. S. Ewart, K.C., the Rt. Hon. W. L. Mackenzie King, the Hon. J. W. Nickle, K.C., the Hon. Hugh Guthrie, the Hon. Manning Doherty, the Hon. G. Howard Ferguson, Miss Agnes Macphail, M.P., E. J. Garland, M.P., the Hon. G. S. Henry, the Hon. Ernest Lapointe, J. S. Woodsworth, M.P., the Rt. Hon. R. B. Bennett, the Hon. H. H. Stevens, Professor Stephen Leacock, the Hon Major C. G. Power and the Hon. Norman McL. Rogers.

The members of the Debates Committee for 1938-1939 are: Professor C. A. Ashley, Chairman, the Warden, Professor V. F. Coe, Mr. G. A. McGillivray and Mr. J. L. Stewart, graduate representatives, H. J. Beveridge, J. George, P. Gorman, F. N. A. Rowell, C. G. Sanderson, J. A. Seed, G. W. W. Stoddart and R. G. Allen, Secretary.

#### **GRADUATE COMMITTEE**

The Graduate Committee which is a Special Committee of Hart House is responsible for the activities of the senior members. Dinners held at certain intervals throughout the year and the Graduates Ball which takes place on New Year's Eve are organized by this committee. It has a general supervision over the graduate athletic activities as well as the graduate dining-room and sitting-room. The committee is elected at the annual meeting of senior members of Hart House in March of each year.

Not only has the senior membership steadily increased this year but there has been a far wider interest in the athletic programme planned by the committee. A very large number of members have regularly attended the exercise classes and the basketball and baseball games. The golf classes have also attracted a steady attendance and the Revolver Club, in its third year, has developed an enthusiastic membership.

The members of the Graduate Committee for 1938-1939 are: Mr. A. M. Bell, Chairman, the Warden, A. E. S. Bolton, A. S. Burton, J. L. Grogan, R. H. Hillery, J. A. McLaren, E. L. Medcalf, C. H. Vinnels, the Comptroller, the Assistant Secretary and H. J. Sissons, Secretary.

#### **BOARD OF STEWARDS**

The Board of Stewards is the governing body of Hart House and is so constituted as to include among its numbers the secretaries of the Standing Committees and representatives of the chief organizations in Hart House. Subject to the superior authority of the Board of Governors of the University the direction, management and administration of Hart House, including matters of discipline, are entrusted to the Board of Stewards. The Board is assisted by a Finance Committee which makes recommendations with regard to financial matters. The general supervision of the whole House is entrusted to the Warden who is appointed by the Board of Governors of the University and is ex-officio chairman of the Board of Stewards. He is assisted by the Comptroller of Hart House, J. R. Gilley, S.P.S. '21, the Assistant Comptroller, W. R. Cowan, S.P.S. '24, the Secretary of Hart House, H. J. Sissons, Victoria '37, and the Assistant Secretary, E. A. Wilkinson, Victoria '38.

The members of the Board of Stewards for 1938-1939 are: The Warden, Chairman ex-officio, the Rev. Dr. H. J. Cody, the Hon. Vincent Massey, representative of the Board of Governors, Professor H. Wasteneys and Professor K. B. Jackson, representatives of the President, Mr. T. A. Reed, Financial Secretary of the Athletic Association, A. G. Burns, Faculty Union, A. M. Bell, Graduate Committee, A. J. Coleman, Student Christian Movement, J. P. N. Holden, Athletic Directorate, L. N. Earl, Students' Administrative Council, C. R. Silversides, House Committee, S. McClatchie, Library Committee, G. J. Millar, Music Committee, J. W. Barnes, Art Committee, R. G. Allen, Debates Committee and J. R. Gilley the Comptroller, Secretary.

#### THE STUDENT CHRISTIAN MOVEMENT

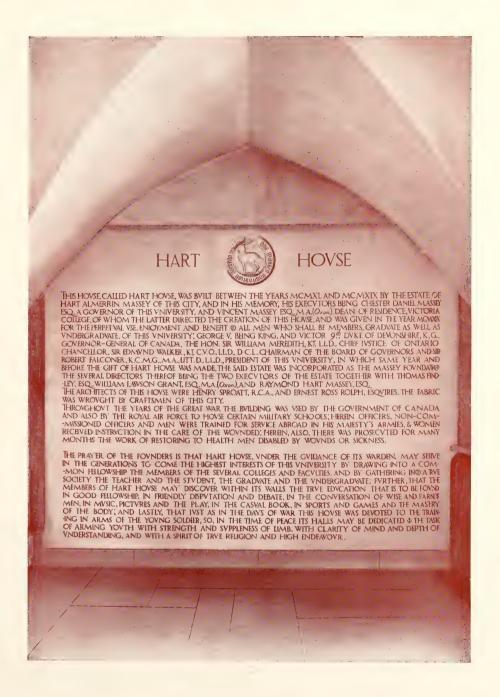

The religious life of Hart House is under the guidance of the men's Secretary of the Student Christian Movement, the Rev. Dr. Wilfred Lockhart, who has his offices in Hart House. The Chapel is always open for private prayer and meditation and there are weekly services during term and a monthly celebration of Holy Communion.

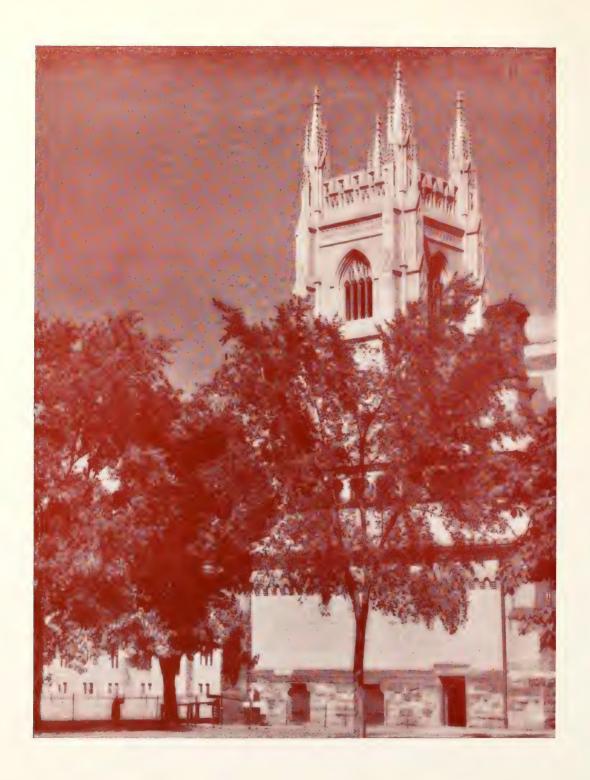

A series of addresses are arranged in the music room after lunch and this year the speakers were the Rev. J. D. Parks, Mr. H. Y. Chang, Dr. R. C. Wallace, Mr. K. R. Wilson, the Rev. F. H. Cosgrave, Dr. James Parkes, G. Raymond Booth, the Rev. George Fallis, Mr. J. B. Bickersteth, the Rev. John Frank, Dr. Harold Young, Sir Robert Falconer, Professor John Dow and Dr. J. R. B. Sclater.

Under the auspices of the S.C.M. a number of visitors have given addresses in the University including Lyman Hoover, Conrad Hoffman, Gregory Vlastos, and three delegates from the Madras Conference held in India.

The outstanding event of the year was "The Religion and Life Week", in March, when Dr. Howard Thurman of Howard University, Washington, D.C., was present in the University for a week and conducted what amounted to a University "mission". The week opened with a special service in Convocation Hall on Sunday, 5th March, and during the following five days Dr. Thurman spoke in Wycliffe College Hall, which was packed with undergraduates to hear him. He also addressed many other special meetings in the colleges and faculties and also in Hart House. It is too early to estimate the result of this admirable effort of the S.C.M. to present the Christian challenge to undergraduates but there can be little doubt that it will be found to have stimulated the religious life of the University as a whole.

#### The Students' Administrative Council

HE Students' Administrative Council reports another year of satisfactory accomplishment and amicable conduct of undergraduate affairs. Mr. Alex Rankin, U.C. '38, was elected President at the first meeting in October, and his energy and enthusiasm have contributed largely to the success of the year. Professors Chant and Cockburn have continued to act as invaluable counsellors. The Vice-Presidencies were most capably filled by Mr. W. M. Bowlen and Miss Margaret Hume.

The Publications Committee with Mr. E. P. Hartford as commissioner enjoyed a year of quiet progress, among other things inaugurating a weekly broadcast on University affairs, titled "The Varsity Speaks". The Finance Committee, under the commissioner, Mr. P. C. Anderson, was responsible for an inspection of the student service departments of several American universities made by Professor Chant and Mr. E. A. Macdonald. It is hoped that the information obtained will be of value in further organizing this work at Toronto. A new Committee on Student Service was set up under Mr. Hartford's commissionership to deal with this very important phase of the Council's activities. Mr. R. E. V. Anderson acted as Debates Commissioner. Due to the cancellation of the annual McGill series, the work of this committee was lightened, chiefly being concerned with arrangements for the visit of two Australian debaters in November. The Committee on Sporting Activities under Mr. C. C. Gray as commissioner functioned most satisfactorily, particularly making all arrangements for the band, cheerleaders, and football trips in the fall.

Dr. and Mrs. Cody most generously entertained the Council members at dinner in the Women's Union, in October, an event which was one of the year's highlights. In addition to the Australian debaters, hospitality was offered by the Council to a group of visiting South African Students at the New Year, and a dinner was given in honor of the Varsity masthead. The Council also represented the student body at the Memorial Tower service on Remembrance Day.

The Council once more sponsored the University Symphony Orchestra and the Band, and two Convocation Garden Parties in June were financed and organized by the Council and are being planned for the current year.

The various services maintained by the Council in the interests of the student body are steadily gaining in importance. An additional \$3,500 was this year added to the Loan Fund, and loans of over \$5,000 were made to students. The Rooming Service, particularly the provision of room and board in exchange for service, again proved of the greatest help to many undergraduates. The Women's Book Exchange was also of value to a large number of women. The Employment Bureau has grown to such proportions that it is almost impossible for the present staff to cope with it. In addition to these specific services, the Council offices have afforded a clearing house for many other activities, and the student body has benefited by practical assistance and theoretical counsel in many forms. The increased accommodation in the Hart House offices, so generously provided by the Board of Governors last June, has greatly increased the efficiency of the work done in the office.

# The University of Toronto Band

NOTHER successful year has been completed by the band. In the fall about thirty new men joined, and these had to be trained to march. This was quietly accomplished without much difficulty under the expert guidance of Captain John Slatter—Canada's senior bandmaster—and the band made its first appearance of the season at the Richardson Stadium in Kingston.

Trips were later made to the rugby games at London and Montreal, where the band was again well received and helped the cheering section in its support of the team. The trip to Montreal was voted the best yet, the new schedule permitting of a good sleep in Montreal, Friday night, rather than sitting up all night on the train as in former years.

After the rugby season, the band appeared at the regular C.O.T.C. parades and in February played at the McGill Varsity and Queen's Varsity hockey games.

The annual dinner was held in February at Hart House, with Major Watson, Major Wilson, Captain Carswell, Captain Slatter and Mr. E. A. Macdonald as guests. We regretted the absence of President Cody at this dinner, due to illness, and hope that his recovery will be complete and lasting.

We wish to thank the Students' Administrative Council for their interest in and financial support of the band and to particularly thank Mr. E. A. Macdonald, whose untiring efforts have made the band an established University organization.

Those of us who are not graduating are already looking forward with keen anticipation to the rugby season next fall, when another chapter will be added to Captain John Slatter's memoirs.

Officers for the year were: Bandmaster—Captain John Slatter. Drum-Major—B. Laski. President—J. E. Richmond. Secretary—W. B. Smeaton.

## The University of Toronto Symphony Orchestra

HE University of Toronto Symphony Orchestra has enjoyed another successful season. The organization is sponsored by the Students' Administrative Council, and was founded five years ago by Jack Weinzweig, who conducted it for three years. Brock McElheran has held the conductorship for the past two seasons.

This January, the orchestra gave a concert at the Ontario Agricultural College in Guelph. This is the first time in the orchestra's history that it has played out-of-town. About seven hundred people attended and were very enthusiastic. A reception was given for the orchestra afterwards by the members of the Faculty and their wives.

The next week, the local concert took place in Convocation Hall, before nearly a thousand people. The featured work was Haydn's little-known *Bear* Symphony. It is believed that this was the first time that the work has been performed in Toronto.

The orchestra gave the world's premiere of *Piece for Orchestra*, a work written especially for them by Lou Applebaum, the gifted young composer, who is a student in the Faculty of Music. Other shorter works completed the programme.

The orchestra is deeply indebted to the S.A.C., the Women's Union, and *The Varsity* for the whole-hearted support which they have so kindly given.

#### TORONTONENSIS STAFF

Third Row: E. A. Macdonald, insert; Joseph Bennett, Jim Maxwell, Tom Brandon, Norah Costello, Jean Leeson, Marion Kent, O. W. Oughtred, Doug Fleming, Norm Knight, Edward Wing.

Second Row: William Bowlen, Winnifred Halpin, Nell Roy, Helen Burnham, Betty Holloway, Jean Steele, Nora Robinson, Ruth Brownlee, Jean Loblaw, Ivor Nixon, Ivan Smith.

First Row: Clarence Thompson, Sam Lipin, Jack Brown, John Henry, Ralph Ireland, Albert Mallon, Charles Wilson, Ken MacMillan, Ross Silversides.

#### Torontonensis

If the Editor of this year's *Torontonensis* should attempt to claim that he had radically departed from the standard set up by his predecessors, he would be hitting far from the mark. Nevertheless, the trend of the times has manifested its influence on this volume in various ways. Due to the insistence of the Photographic Editor, action has been made the theme of all title pages,

a far cry from the sketches which were used but a few years ago. The kind of ink used in this edition of *Torontonensis* is distinctly an experiment, which may be a relief from the blue of past years. In the biography section, however, it is felt that the greatest advance has been made. In this department a new arrangement has been inaugurated, which will make biography and picture a more personal thing than it has been.

Once again the Faculty and College representatives skilfully handled their manifold duties with a promptness which brought joy to the Editor's heart. They also edited all biographies, and copy wherever necessary.

The members of the Board of Editors, for the most part novices in this type of work, fell to their various jobs with the utmost diligence. They lightened the Editor's task by their assistance in any problem whatever, especially in the all-important matter of proof-reading. The photographic art work—title pages and Campus Life—was admirably handled by Jack Brown, a newcomer to this department of *Torontonensis*. To the Business Manager, Mr. E. A. Macdonald, goes the sincere thanks of the Editor for his helpful aid and advice.

THE VARSITY STAFF

Third Row: LLOYD G. McDonald, Reuven Frank, Ed Goodman, John Rooke.

Second Row: Frank Shuster, Herbert Cowan, Irma Thomson, Alan Harvey, Fran Barbour, Lois Bradley, Campbell McLean.

First Row: Lou Weingarten, Win Flanagan, E. A. Macdonald, Betty Kirk, Al Forrest, Betty Jane Gardiner, Seaborn Albright.

### The Varsity

URING a year of grave international crises, *The Varsity* found difficulty in giving first place to events of purely student interest. But although considerable editorial space was devoted to European affairs, there was a genuine attempt to treat such matters quite academically.

Within the University, the paper attempted to fill the unique office which

it has reached and held during the past several years. It endeavoured to develop a stronger university spirit, by endorsing all U. of T. activities and avoiding such issues as would give rise to sectionalism within the bounds of the University. The University Honour Society was organized by the Students' Administrative Council on the suggestion of *The Varsity*.

The biggest feature of the year was the famous "Sadie Hawkins" week, introduced by *The Varsity* feature department and later emulated by many of Canada's Universities.

On the recommendation of the staff, Seaborn Albright was chosen to succeed A. C. Forrest as editor for the following year by the S.A.C., which had given the editors fullest co-operation and support during the year.

#### UNIVERSITY OF TORONTO COMMERCE CLUB

Second Row: C. W. Blackall, First Year Representative; D. G. Tyndall, Third Year Representative; W. W. Small, Third Year Representative; P. W. Rankin, Second Year Representative; B. C. Steele, First Year Representative.

First Row: R. W. Stevens, Treasurer; W. W. White, Secretary; G. R. Gardiner, President; C. A. Ashley, B. Com. Supervisor of Studies; F. Deacon, Vice-President; P. D. Isbister, Second Year Representative.

#### The Commerce Club

HE year 1938-39 marks the Eighteenth Anniversary of the founding of the Commerce Club. This Club is the official organization of undergraduates in the Commerce and Finance Course. Its objects are: To discuss current political, financial and economic trends with those who are in close contact with world affairs; and to serve as a unifying influence between undergraduates, graduates and staff.

To do this, a series of smokers were held with prominent men as guest speakers. Many interesting topics were dealt with, and among those we had the privilege of hearing were Mr. C. Lewis of Trinity College, Mr. W. H. Griffin of Southam Press, and Mr. J. G. Johnson of Citizens' Group for Railway Action.

The Annual Banquet was held in Hart House on December 8th, 1938, at which Mr. J. S. McLean, President of Canada Packers, addressed a gathering of nearly 200 guests, graduates, faculty members and students.

A very successful Commerce "At Home" was held this year at the Royal York Hotel. This dance has become an annual feature and is always well attended.

The Club, as usual, was well represented in all branches of sport. The Crocombe Cup, emblematic of the Club Squash Championship, was won this year, after a hard-fought battle by M. C. Murray of Fourth Year. It is of interest to note that faculty members, as well as students, take part in this competition.

The Commerce Journal this year makes its seventh annual appearance. Contributions are obtained from faculty members and students, and once more we have maintained the high standard of this publication. This journal serves as an important link between the course and outside commercial organizations.

THE UNIVERSITY OF TORONTO CHEMICAL CLUB

Second Row: R. Hunter, Second Year Representative; F. M. Kennedy, Secretary-Treasurer.

First Row: F. G. C. Wayman, President; Prof. W. S. Funnel, Honorary President; H. E. Gunning, Vice-President.

## The University of Toronto Chemical Club

HE University Chemical Club dates back to the erection of the new chemical building in 1895. For some years after its incipience, the membership of the Club was confined exclusively to graduates. However in 1919, adopting a more democratic attitude, it opened its membership to both graduates and undergraduates. Since that time the executive has been elected entirely from the undergraduate members.

The main function of the University Chemical Club is to supplement the members' scientific training with a knowledge of the industrial applications of Science. This end is usually accomplished by means of organized tours through various important industrial concerns, and by bringing speakers to the club who are usually scientists with long experience in industrial chemistry. The Club this year visited the Kaufman Rubber Co. at Kitchener, Seagram's Distilleries, The Neilson Co., and Canada Packers. It was very fortunate in obtaining as speakers such distinguished chemists as Mr. C. W. Henry of the Ontario Research Foundation, Prof. Bain of the Department of Chemical Engineering, and Dr. Ellworthy, President of the Canadian Institute of Chemistry.

Breaking precedent, this year the Club added a more modern touch to the traditional banquet and sketch by holding a banquet and dance at the Boulevard Club; where the members also entertained by a streamlined sketch, written and performed by themselves. The celebration was well attended by the Staff, former graduates, and the members, with their wives and friends.

#### MATHEMATICS AND PHYSICS SOCIETY

Second Row: F. M. Kelly, Fourth Year Representative; S. H. Collins, Second Year Representative; J. F. C. Dixon, First Year Representative.

First Row: C. L. Wilson, Treasurer; Miss L. C. Brandon, Secretary; Dr. H. J. C. Ireton, Honorary President; J. A. Conway, President; J. W. Dale, Vice-President.

## The Mathematics and Physics Society

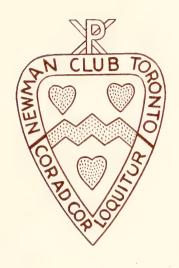

HE Mathematics and Physics Society of the University of Toronto was formed for the purpose of bringing to the students of this course varied information related to the broad field of Science and Mathematics.

Meetings were held bi-monthly during the academic year at which addresses were presented by a guest speaker and a student. We were most fortunate in having among our guest speakers Dr. Synge, Head of the Applied Mathematics Department, and Mr. Beatty, Actuary of the Canada Life Assurance Company.

Dr. Beatty, Dean of the Faculty of Arts, spoke on January 19th, and presented medals to Mr. I. Kaplansky, B.A.; Mr. John Coleman, IV Year, and Mr. N. Mendelssohn, IV Year, who brought great honour to the University by meriting the highest standing in mathematical exams, set by the American Matahematical Society, and open to students throughout America.

The social activities of the club consisted of a hike at the beginning of the fall term and two informal dances in collaboration with the Honour Science Club, on December 2nd and March 3rd, which proved to be great successes.

The Society feels that the year has achieved its purpose in offering to its members addresses by authorities on various aspects of the course.

# University German Club

HERE are few opportunities in Toronto for undergraduates studying German to hear or speak the language except during German lectures. It is the purpose of the University of Toronto German Club to remedy this lack in as entertaining a way as possible.

The programmes offered so far this year are typical of the means by which the Club tries to carry out this aim. At the opening meeting in October, Dr. R. K. Arnold of Victoria College gave an interesting address on his student years in Prague. The feature of the second meeting in November was a talk on Germany by the German exchange student, Walter Kanzau. This was followed by a quiz game conducted in German by one of the club members in the role of Professor Quiz. This proved to be so popular that the Professor played a return engagement at the next meeting in January. An amusing German version of "Snow White and the Seven Dwarfs" and piano recitals, mainly of well-known German compositions, were the highlights of this evening. Each of these programmes was brought to an end by the serving of German refreshments, always a very popular feature of every meeting, followed by a short period of dancing.

By presenting a variety of programmes such as these, the German Club hopes to provide its members with many profitable and enjoyable hours that will help to lighten the task of mastering the German language.

ITALIAN-SPANISH CLUB

Second Row: Ed. Thow, James McNamara.

First Row: Ida Cullotta, Victor De Bonis, Julio Molinaro, Victoria Longo.

## Italian-Spanish Club

HE Italian-Spanish Club enjoyed a very successful year and, due to the co-operation of various guest members, did much to achieve their ideal of inculcating the spirit of Latin culture within the group.

Don Guido Colonna, Italian vice consul in Toronto, favored the club members with an address on history and exploration, with special reference to the voyage of Christopher Columbus.

Dr. Willinski, noted amateur photographer, presented his travelogue in technicolor, "Mediterranean Meanderings".

Professor Goggio, of the Italian-Spanish department, delivered several addresses in the two languages studied by the members of the club.

The Executive of the club is grateful to these guests for the assistance they lent in carrying out its ambition to better understand the culture and history of the Italian and Spanish speaking countries.

#### WOMEN'S INTERFACULTY DEBATING UNION

Second Row: Catherine Rous, Gretta Riddell, Betty Hunter, Joy Wookie.

First Row: Betty Blair, Treasurer; Katherine Bryce; Vice-President; Dr. Mueller, Honorary-President; Genevieve Taylor, President; Marion Cowper, Secretary.

## Women's Interfaculty Debating Union

HE Varsity Women's Interfaculty Debating Union is composed of representatives from each of the four arts colleges, and is a part of the Women's Intercollegiate Debating Union, which is at present composed of Toronto, Queen's, and McMaster. Plans were made for the inclusion of McGill and Western universities, and were carried to completion at the intercollegiate executive meeting held at Queen's, on February 25th. Activities this year were enlarged to include a debate with the University of Toledo in the spring term.

Varsity was successful at Queen's in the intercollegiate debate in November, but was defeated at home by McMaster, who won the intercollegiate trophy for '38-'39.

The union holds three interfaculty debates during the year to decide the interfaculty champion. This year Victoria defeated St. Michael's on a current political issue and Trinity gave way to University College on the question of the advisability of a university education for women. Both debates were keenly contested, and the final between University College and Victoria showed the high standards set by the others.

The Debating Union gives all Varsity women the opportunity of expressing themselves on questions of primary concern to them, and also provides practical training and experience in the art of debating and public speaking. In addition, it is a link not only between the various colleges on our campus, but between this and other universities—a link that we feel is very valuable and profitable to all concerned.

#### THE TEACHERS' COURSE ASSOCIATION

Second Row: Mrs. J. C. McIntyre, B.A., Graduate Representative; H. H. Monkman, Secretary - Treasurer; Earl Terry, Editor Campus Comment; Miss J. Trott, Assistant Secretary.

First Row: Miss Bertha Dick, B.A., Past-President; I. E. Davey, President; W. J. Dunlop, B.A., B.Paed., Director of University Extension; J. H. Aitchison, B.A., B.Ed. (Sask.), B.Sc. (Econ.) London, Staff Representative, Economics Department; Miss Gladys Cowall, Vice-President.

Absent: E. LAUGHLIN, B.A., B.PAED., Graduate Representative.

#### Teachers' Course Association

EGINNING in July, the Association conducted social activities for the students attending the Summer Course. A reception tea and dance was held in Hart House Quadrangle and Great Hall. Other activities of the summer included a Moonlight Excursion, Golf Tournament, Softball League, and a dance at Hanlan's Point.

The winter activities began in October with the election of form representatives and the Reception Dance and Annual Meeting at the Ontario College of Education. Informal dances in December, January and February were held at O.C.E. and were quite popular functions. Badminton facilities were provided weekly during the winter at North Toronto Collegiate. The ladies held a Fashion Display and Tea at Wymilwood in March which proved very popular. At the King Edward Hotel in March the Dinner Dance was held. Guests were entertained during dinner by the Saxophone Quintette under Sam Ketchison with variety numbers. The President, Dr. Goldring, and Mr. Dunlop gave brief messages. Dancing followed, with prizes, balloons and novelties, to the music of Stan St. John's Orchestra.

During the winter session the Association renewed the campaign to build up a scholarship fund worthy of the Course, and enlarged the idea to include a loan fund for educational purposes. A hearty response indicates the success of the plan in the near future.

THE STUDENT CHRISTIAN MOVEMENT

Third Row: Al Jousse Medical Representative; John Hayward, President of the S.V.M.U.; David Scott, Associate President, University College; John Scott, President, Medicine; Leslie Shemilt, President, S.P.S.; Tom Dale, Grad School Representative.

Second Row: Gwen Lane, United Church Training School; BILL Fennell, President, Victoria; Muriel Struthers, U.C. Representative; Margaret Easto, Associate President, Victoria; Norman Kelly, Victoria Representative; Katharine Bryce, University College.

First Row: Clare Brown, Women's Secretary; Stanley Best, Treasurer of the Council; Amy Schauffler, Associate President of the Council; John Coleman, President of the Council; Edna May Quentin, Secretary of the Council; Dr. W. C. Lockhart, Men's Secretary.

Absent: Ming Chong, Medicine; Jim George, Trinity; Charels Cochrane, Knox; Isabel Deeth, School of Nursing; Ted Despard, S.P.S.

### Student Christian Movement

HE Student Christian Movement is a fellowship of students based on the conviction that unity in individual personality and community in human relationships is only possible through allegiance to Jesus Christ, who is the supreme revelation of God.

The Student Christian Movement in the University of Toronto is part of the Student Christian Movement of Canada and of the World's Student Christian Federation. It includes the Theological College Union, and the Student Volunteer Movement, in the University.

In the University of Toronto the Movement seeks to include in its fellowship the students of all colleges and faculties who are concerned to face the fundamental problems of life, and to know the relevancy of Jesus Christ to their lives and their world. This involves a programme of study groups, lectures, conferences, worship services, and other gatherings planned and directed by student executives who are invaluably aided by two full-time secretaries.

During the year the S.C.M. has conducted the popular weekly noon-hour addresses in Hart House and the Women's Union. Among the many outstanding visitors it has brought to the University are: Lyman Hoover, China; J. D. Parkes, London, England; Conrad Hoffmann, New York; Yusuf Ali, India; Dr. Yuasa, Japan; Dr. and Mrs. Manikam, India; Miss Soga, Africa.

The work of the year, however, was concentrated in the Religion and Life Week of March 5th to 12th, when Dr. Howard Thurman of Washington was the main leader.

# The Varsity Christian Fellowship

HE Varsity Christian Fellowship is a branch of the Inter-Varsity Christian Fellowship which originated in the Universities of Great Britain in 1877. The organization now embraces groups of Christian students throughout the world. Closely affiliated with the I.V.C.F. in Canada is the Inter-School Christian Fellowship with branches in many of the secondary schools.

The Fellowship is founded on the conviction that personal relationship with God is realized only through faith in Jesus Christ, His Son. Its aim is to deepen and strengthen the spiritual lives of its members and to seek to lead others to a personal faith in Him, that they may share the life abundant which He gives to those who commit their lives entirely into His hands.

The activities of the group fall into two divisions. The study groups, dealing with important phases of Christianity, are designed to establish Christians in the faith. The Open Meetings aim to interest those who have not identified themselves with Jesus Christ. Prayer Meetings are held daily from 1.40 to 2.00 p.m. in Room 38, University College, and in Jackson Hall, Victoria College.

Many students are finding that the programme of the Fellowship fills a need in their lives, and we trust that in the coming years God may be pleased to increase further effectiveness for Him.

### East House

HE fall of 1938 ushered in another year of pleasure and activity to East House. Thirteen freshmen entered its corridors to learn in the ensuing year the joys and sorrows of residence life. A rigorous training season under the sophomores' guidance helped them gain victory in the hard fought bed race when they coupled brains and brawn to nose out their opponents in the home stretch.

East House has been fortunate in having an enthusiastic band of would-be athletes. For the first time since the days of Annis they won the interhouse rugby in a smashing 25 to 0 victory over North House. At the time of writing the "wise men from the East" lead in the race for the Athletic Shield.

Social functions of the year were well attended with enthusiasm paralleling that in sports. The banquet, dances, and house meetings took their place among the important events of the year, nor should one forget Sunday evenings with the Housemaster, and philosophy seminars with the Padre and General Scott. Special mention should be made of the contribution of the latter to the monthly drama festivals.

Graduation takes its annual toll of house members. Memories of their stay here will not be forgotten for many a day and stand as a proof that the years spent at university are among the happiest in our span of life. Their only regret is that they cannot stay longer; their only hope that those who follow in their steps may find the same joy that they themselves experienced.

### North House

HE fall of 1938 saw the usual influx of bewildered freshmen, rowdy sophomores, sedate juniors, lackadaisical seniors, and a sprinkling of sophisticated graduates.

Amusing highlights in the lives of North House men during the 1938-39 session were numerous. There was the annual bed-race in which the Frosh, after a brilliant start, seemed to lose all ambition as Falconer House came into view. Then there was the famous "Arkansas Address" of our resident from the Land of Liberty—the unforgettable speech of a certain witty professor at the House Dinner—and finally, the contribution of "The Great J. R." in the field of dramatic endeavor.

Following a grand old tradition, the men of North House finished second best in the race for the Athletic Shield, but were nonpareil in many sports unfortunately not yet included in Inter-House competition.

1939 graduates look back with extreme satisfaction on the days spent as residents of North House and, thanks to the intellectual and moral guidance of our Housemaster, Dr. Gilchrist, face the years which lie ahead with everything well in hand.

### South House

I is with sincere regret that we, the graduating members, terminate our pleasant years in South House. The traditions of the House and the spirit with which every member is imbued as soon as he enters the great oak door, is something that will never be forgotten. The years spent here have served to strengthen our attachment to South House and all the things it stands for. The social, athletic and academic activities form a recollection which we shall cherish in years to come.

It seems inevitable to announce that this has been a successful year. The House Committee has conducted affairs harmoniously from within, despite fluctuations in the state of the treasury. Regarding athletic activity, it need hardly be said that the House is favoured to retain the Athletic Shield, the symbol of inter-house prowess, which was won last year. To many of us, the Residence Dance remains the high light of the social season, while who can forget the good times had by all at Dr. Hoskin's midnight fiestas.

Our freshman days shall always remain clear in our minds. The initiations, tappings, shoe-blacking, running the Horn, house raids, snowball fights, setting-up exercises, and other indoor sports. Water especially was greatly in evidence and generally came from above our heads, disguised in paper bags and heralding the approach of spring.

We appreciate especially the kindly interest shown in us and our activities by our housemaster, Dr. Hoskin. It is difficult indeed to say farewell to the happy and profitable life of our residence.

### The Student Co-Operative Residence

NSPIRED by the visit to America three years ago of Dr. Kagawa, the Japanese Co-operator, a group of four Toronto students came together in April to plan the organization of a men's residence on Co-operative principles, for students whose funds would not permit their living in the ordinary residences.

The organization consists of an application of the three "Rochdale principles" of Consumers' Co-operation to this particular type of service. The residence is democratically controlled by the membership. Capital is supplied by the members, each contributing a small loan. Savings on operating expenses are paid back to them, not according to investment, but according to the amount each has paid in for services.

Each member contributes four hours of his time a week to house work, kitchen work, or bookkeeping. These and other economies have made possible the provision of wholesome meals and comfortable accommodation for less than \$6.00 weekly. During the last three years the Residence has been very successful, paying at least a 10% dividend to the members each year. Because of the growing demand for this type of residence the members hope to open a second Co-operative on the campus next fall.

The Residence has been in an exceptionally favourable position, due to the fact that Victoria University allowed the use of an unoccupied residence at a figure that would merely cover the cost of upkeep, without any margin of profit to Victoria. On commercial terms the cost would have been considerably higher.

Membership, according to Co-operative principles, is unrestricted on social, political, racial, or religious grounds.

### Modern History Club

HE aim of this Club is to promote interest in History and to encourage fellowship among the members of the Modern History course by such means as club meetings, club outings, speakers on matters of historical interest, reading of historical papers, historical discussions or other activities that will achieve the aim. All undergraduates of the Modern History course are members of the Modern History Club.

The organization, through its inaugural year, has received the whole-hearted support of students of history. Its activities began with a trip to Old Fort Niagara and there have been successive regular meetings with guest speakers such as Dr. Griffith Taylor and Professor Havelock. The programme of future activity in the Club is equally promising in its interest for enthusiastic historians.

Added to the academic side of the Club's activity is the social life which is also carefully planned. We climaxed our year of mutual interest and fellowship with an annual dance.

Campus Life

# University College Literary and Athletic Society

NDER the Honorary Presidency of Professor Louis MacKay the "Lit" has finished a year of which it can be proud. The main objective of the executive was more spirit in U.C. and it feels it has accomplished something. Professor Lewis of Trinity College and Professor Kemp of the Economics Department addressed two open meetings. As usual the joint meeting with the W.U.A. brought the largest attendance with a miniature Freshman Dance following, and the reciprocation in February brought the same crowd and their friends. At the nomination meeting the Robinette Trophy was won by Irving Sussman and William Wood of 3T9.

An interesting year for the Parliamentary Club and the excellent work of the Players' Guild added much to the life of the College. Sunday Evening Musicales were inaugurated this year. Under the capable editorship of Harry Tattersall, *The Undergraduate* rose to its arduous task of two issues, and the last one was acknowledged by all for size and content to be the best yet.

This year can be considered a turning point for U.C. athletics, with much of the credit going to the Athletic Director, Ken Stewart. More teams from this college than ever before competed in intramural sports, and the Jennings Cup was almost grasped. U.C.'s first Athletic Banquet was honoured by the presentation of the new Cody Trophy by our President.

Socially, too, it was a successful year. The "Follies" again proved beyond doubt to be "the best show on the campus". Its overwhelming triumph was due, among a host of others, to its producer, Tom Daly, its director, Lou Weingarten, and the Social Director, Phil Benson. A delightful cabaret dance in February showed the Arts Ball was swinging back into favour, and the Junior-Senior on election night gayly topped off the evening of an impressive graduation banquet.

Lastly, a joint meeting of the incoming and outgoing executives of the "Lit" and the W.U.A. for purposes of discussion augured well for next year.

# University College Women's Undergraduate Association

VERY woman registered in University College is a member of the Women's Undergraduate Association, the self-government organization of the women of University College. It supervises and finances the women's athletics, and looks after many other interests in the College.

This year the Senior Freshman House Party was held as usual at the opening of the fall term, and was a great success, due to the large attendance and enthusiasm of both seniors and freshies. This event was followed by the Freshman elections and initiation.

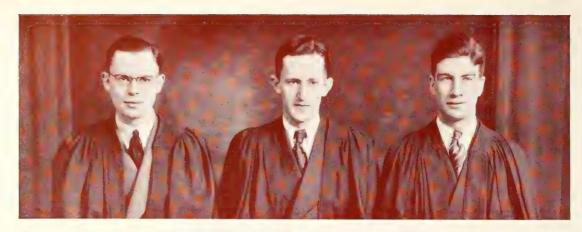

A popular feature of the fall term was a series of lectures entitled "Personality Hints," given by Dr. Edith Curtin, and supplemented by a fifth lecture given by Dr. Ford of the Biology Department.

The Social Service Committee was active in the annual campaign of the Federation for Community Service, and the objective was achieved.

Subsidies were given to the *Undergraduate Magazine*, the Student Christian Movement, the Players' Guild and the Debating Club.

The social program of the year included a series of concerts held in the Women's Union on Sunday evenings. This is a new undertaking, and the Men's Literary Society deserves much credit for taking the initial steps in making these concerts possible. Two joint meetings were held with the Men's Literary Society. A very enjoyable event was the Dean's Christmas Party, at which the Players' Guild presented a Chester Mystery.

Under the direction of George Lambert, the Women's Glee Club have had a most successful year, and gave a concert in the middle of March. With the Graduation Banquet, and the annual Open Meeting for the election of officers for the coming year, the activities of the Association were officially ended for this year.

# The University College Parliamentary Club

HE Parliamentary Club has concluded one of the most successful years in its history. The members throughout the whole session have maintained the dignity of the House, under the austere eye of the Speaker, and some very serious debating has been done.

The subjects discussed during the year have been: Resolved that the City of Toronto should make an annual grant to the University of Toronto, that this House approves of the policy of the C.B.C., that Provincial Governments should be abolished. Other subjects discussed were the Refugee Problem, the Anglo-American Trade Treaty, the King-Hepburn feud, and that present day advertising is a benefit to society.

For the first time in its history, two representatives of another University took part in a Parliamentary Club debate, when Messrs. Raymond Lesage, and Jacques Flynn of the University of Laval debated in the House, in January. Victoria and Trinity both sent debaters to the House on separate occasions. One of the most successful debates was when Prof. N. A. M. Mackenzie and Prof. G. de T. Glazebrook participated in the Annual Faculty Debate.

The New Year Honours List was again announced, and was favourably received.

Lord Bowlen of St. George and Davenport graciously acted as Governor-General throughout the session. The Rt. Hon. George W. Stoddart was the Speaker of the House, and the Rt. Hon. Albert Rose ably acted as Deputy-Speaker, as well as Press Agent of the Parliament. The Hon. Donald Blackley was Clerk, and the Hon. Robt. Barnes was Deputy-Clerk.

Prime Ministers during the year have been: The Rt. Hon. Miss Sally Macdonald, the first woman Prime Minister, and the Rt. Hon. Messrs. Irving Sussman, William Wood, and Harold Botnick.

UNIVERSITY COLLEGE PLAYERS' GUILD EXECUTIVE

CLIFFORD BLACKALL, ROBERT BURNS, MARGARET BURNETTE, FRANK WYNN, FRANCES HALPENNY, JOHN WATSON.

# University College Players' Guild

HIS year the University College Players' Guild produced an interesting series of plays, ranging all the way from German symbolism to Canadian comedy. The Guild opened the season with a performance of Ernest Toller's "Transfiguration," a powerful example of post-war German symbolic tragedy. Then followed productions of Chekov's rollicking comedy, "The Boor," Susan Glaspell's "Suppressed Desires," Galsworthy's "The First and the Last," and Merrill Denison's "Brothers in Arms."

During the Christmas season, Miss Noreen Mitchell directed a performance of "The Chester Mysteries" with choral accompaniment under the direction of Mr. George Lambert.

The spring term was inaugurated by a production of "The Valiant," whose gloomy atmosphere was relieved by the next play, a delightful farce, entitled "Grandma Pulls the Strings." The regular season closed with Philip Johnson's "The Spinsters of Lush."

On those days when no plays were presented, a series of "Workshops" was held, in which instruction was given in various aspects of the theatre.

The Guild's major production of the year was a performance in modern dress of Shakespeare's "Macbeth," staged in Hart House Theatre, with Mr. Robert Burns in the leading rôle.

For its contribution in the University Drama Festival, the Guild entered "All Anybody Can Do," a Canadian play by Mr. Louis MacKay of University College. The play was directed by the author.

# The Undergraduate Magazine

HIS year *The Undergraduate* continued the practice, inaugurated last year, of publishing two issues, one in the fall and one in the spring term. That this policy is justified has been eminently proven by both the quantity and the quality of contributions submitted. We feel that *The Undergraduate* fills a position of some importance in the life of the college, because it is the only medium of expression for those much-belittled souls who have a literary bent, and we hope that the time will come when the journal may be even more extensively used for this purpose.

Prizes were again issued for the best work submitted to the editors during the year, and we feel that this policy is both a stimulus to contributors and a reward to those who have worked so hard in an endeavour to find a suitable form of literary or artistic expression.

The Undergraduate is deeply appreciative of the support of the Women's Undergraduate Association, the Literary and Athletic Society, and the Alumni Association of University College, without whose active encouragement and material assistance the publication of this magazine would be impossible.

# University College Men's Residence

HE ancient rumour of a new University College residence for men has been revived in earnest.

The boys of "73" reading the hand-writing on the wall have determined to finish off our history in a blaze of glory. We have seldom seen a more active or successful year as far as participation in University activities is concerned. As well as a virtual strangle-hold on the major political organizations our embryo statesmen have taken over a fair share of the executive positions on the "Lit" and have representatives distributed far and wide in various other societies of the campus. The University seems to have come through the fray comparatively unscathed.

In the field of literary and intellectual endeavour we have our champions as well. The third floor of the residence is the proud home of the editor of the *Undergraduate* and the president of the very exclusive Historical Club.

Despite all this, however, the year is chiefly notable for the installation of our new telephone and the tragic spectacle of our chastened athletes.

Our former tutor, Mr. Plumptre, who left us to get married last spring, has returned, accompanied by his wife, to act as Dean in the absence of Professor Cochrane. Mr. Delury has become the new tutor. Profiting from last year's sad experience we shall try not to lose *him* so easily.

# The Victoria College Union

HE Victoria College Union has completed nine successful years of student government in Victoria. Formed in 1930 to combine the men's and women's executives, it now co-ordinates the administration of all federated societies. In this responsible position the V.C.U. executive acts as official representatives of the Victoria students to the College and University authorities.

The Union directly finances the Debating Parliament, the Women's Literary Society and *Acta Victoriana*, the official undergraduate publication. A given proportion of the compulsory fee is allotted to class executives to run their dances, hikes, etc. By a special arrangement of pooling surpluses at the end of the academic year, a fund has been set aside to pay any deficit which may be incurred by a federated or subsidiary society. Donations have also been made from this fund to a special scholarship and for a number of Windsor chairs for Alumni Hall with a view to improving the Hall's appearance.

The annual "Bob" was a fitting sequel to the freshman initiation ceremonies which began with a week-end of varied activities in the Burwash and Annesley residences under the direction of some twenty senior men students and all the graduating women.

# Annesley Student Government Association

HE Annesley Student Government Association is the result of a petition sent to the Senate of Victoria College in the year 1912. This petition expressed the feeling then prevalent among the students that it was highly advisable to assume individual and communal responsibility in the life and conduct of the Women's Residences. Such responsibility, it was thought, if given the student would make for the development of character and the promotion of loyalty to the best interests of the residences. It was founded upon an agreement between the authorities of Victoria College and the resident women students, which agreement entrusted to the latter the management of all non-academic matters pertaining to conduct while in residence. Annesley Hall was the first women's residence in Canada to adopt this system of self-government and with necessary modifications it has been functioning steadily since its introduction. Each woman student in the residences of Victoria College is subject to the legislation of the constitution of A.S.G.A. and is in consequence a member of the Association. Representation from each of the four years is a factor in realizing the individual responsibility which each girl owes to the party she herself has helped to elect. It is this spirit of active co-operation between executive and members which is one of the reasons for the 17 successes attained since the inauguration of these systems. The other cause is the sympathetic support given to the Association by Dean Jessie Macpherson and the Dons as a body and as individuals. With such assistance A.S.G.A. may hope to accomplish even more in the future and show itself a greater power in the life of Victoria College.

# The Sixty-Sixth Bob

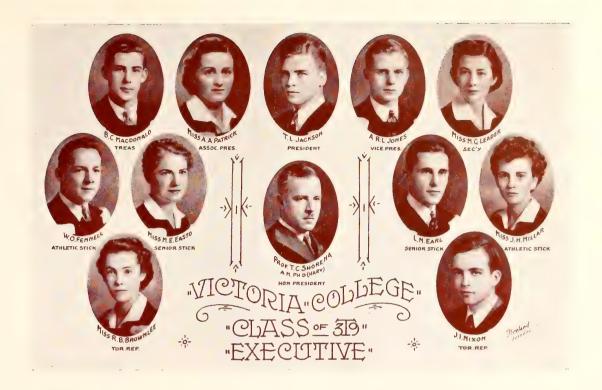

HE Bob, being (now) a sixty-five-year-old tradition of Victoria College, must needs be conducted in a traditional manner; preparations, presentation and aftermath, all must conform to accepted practice. This year's Bob was no exception; if anything, tradition was out-traditioned.

Preparations, in the Bob manner, must be rushed, frenzied, incompetent, and late. The director must be absolutely positive after dress-rehearsal that nothing but sack-cloth and ashes is in order. However, the show must go on. It does. It is immediately voted the best Bob ever.

In moving to Hart House Theatre this year, it was felt that an advance had been made. Results seem to substantiate this belief.

The faculty scene presented our esteemed professors as members of a new political cabinet and showed their attempts to bring about the millennium. The real Bobbing scene showed the freshmen in all their greenness and inappropriateness just as produced by a machine gone amuck. The last act, an historical sketch of the Bob as it has grown through the years, took us back to the first Bob party and introduced the venerable gentleman himself. The Bob Quartette presented their usual satire between acts.

This year's committee is proud to have been a bridge between the good Bobs of the past and the better Bobs of the future.

## Acta Victoriana

ILITANT intellectualism gave way this year to a more comfortable bourgeois attitude in *Acta Victoriana*. As a result, its reception was more complacent than usual, despite a biological scramble on the front cover and the odd startled nude in the magazine.

Changes this year have included the creation of a Science Editor, who Colossus-like bestrides the chasm between the *Acta* office and the McLennan Building, and the setting up of a new "humour" department, leaving *The Monocle* free for undergraduate criticism.

One of the chief objects of the Editors has been the stimulation of creative writing in the College, so that the policy of criticizing rejected MSS was instituted. The result has been a most cordial relationship between editors and contributors.

The Editor has been fortunate in having an exceptionally able and enthusiastic staff. To Isobel Routly and Jerry Buckley especially, are due the literary excellence of the magazine.

The increased burden of an expanded magazine has been borne with unfailing stoicism by the Business Manager.

# Victoria College Music Club

OR its fourteenth season, the Victoria College Music Club produced Gilbert and Sullivan's "H. M. S. Pinafore". This operetta, one in a long line of Gilbert and Sullivan successes, was produced by the Club in the season of 1932-33 and proved as popular this year as it did then. Under the efficient direction of Mr. T. J. Crawford, Mus.Bac., F.R.C.O., each season's performance, to quote Chancellor Wallace, "has been the best that the Club has done yet."

Besides the high standard of performance that each year's audiences enjoy the Executive and members feel that the real worth of the Music Club is to the members themselves. They not only enjoy the distinction of being in the production but learn to appreciate music that will be a common bond uniting each successive generation of Vic Music Club members. In this way the Club feels that it is playing an important role in the life of Victoria College.

# The Trinity College Board of Stewards

P until a few years ago, all matters concerning the male students of Trinity College were dealt with by an assembly of the whole student body, known as the College Meeting. But, as the result of the increase in both the amount and the complexity of the business with which the students were faced, it became apparent that some form of executive structure would be necessary for efficient administration. Accordingly, in the fall of 1935, the College Meeting created an executive body, known as the Board of Stewards.

The Board is composed of the Dean of Residence, the Head of College, the Trinity representative to the S.A.C., a representative from the Literary Institute, a representative from the Athletic Association, and a resident and a non-resident representative from each of the three senior years.

By its constitution, the Board must report to the College Meeting at least twice each term, thus affording the students an opportunity of discussing the problems with which the Board is faced.

In its brief history, the Board has proven itself to be one of the indispensable bodies in Trinity College as a whole.

# The Trinity College Literary Institute

OR eighty-six years the "Lit" has been one of the mainstays of the academic life of Trinity College. As its motto, "Feros Cultus Voce Formare" would suggest, its prime purpose is the encouraging, and hence the improving, of the faculty of public speaking among the students.

It is a parliamentary debating society, meeting every Friday night. Strict adherence to parliamentary order is observed, and the "Lit" also has its own constitution along parliamentary lines. The House is divided into the Government and the Opposition, which hold office at the pleasure of the electors, the male students of the College, and is presided over by the Speaker. Changes of government are necessarily fairly frequent, whether on grounds of motions of defeat before the House or want of confidence. The latter is generally connected with some form of laxness on the part of the Government in the pursuance of its duties as custodian of the reading matter and periodicals in the common rooms of the College and Trinity House.

Open meetings are frequently held and debates with other colleges from various parts of the world often take place.

In addition to these functions, the "Lit" is in charge of the Trinity College Conversazionne, one of the foremost of the annual dances on the campus.

The past year has shown sustained and ever-increased interest on the part of the student body, in this, one of the oldest of the institutions of Trinity College.

# The Trinity University Review

HIS year The Trinity University Review celebrated fifty years of publication by issuing a jubilee number. Originally the magazine was known as Rouge et Noir, a sobriquet derived from the College colours. The name was changed early in its career because prospective advertisers were wary of a title which reminded them of a gambling game, but the policy of The Review has remained constant throughout its existence. Its aim has been to provide a record of the "literature, thought and events" which constitute college life. To that end, it publishes accounts of the activities of such bodies as the Literary Institute and the Dramatic Society, together with articles and critical sketches pertinent to the contemporary worlds of politics and the arts. In addition, it preserves the personal reactions of those more sensitive souls who express themselves in poetry and fiction, not only that their response to this vale of tears may be more widely appreciated, but also that they may be encouraged to communicate their experiences again.

While very little is possible for a college magazine in the way of aggressive editorial policy, *The Review* has attempted to stimulate interest and possibly controversy on matters which are of particular concern to students. It has devoted considerable attention to the problem of college magazines and their role in undergraduate life, but whether or not this policy has provoked its readers out of their alleged lethargy is not known.

An attempt has been made this year to promote a greater reciprocity between the students and the faculty by persuading members of the latter to contribute to *The Review*. The success of this measure is manifest in corridor comment when the unsuspected literary pretensions of a don are discovered by his suffering pupils.

It is the secret hope of this year's Board of Management of *The Review* that, past generations having produced poets like Archibald Lampman, they will unearth embryonic artists who one day will carry on the tradition.

ST. HILDA'S HOUSE COMMITTEE

Second Row: Rosemary Annesley, Head of the Second Year; Louise Matthew, Head of the First Year.

First Row: Margaret Hume, Head of College; Mrs. Kirkwood, Dean of Women; Betty Lindsay, Head of the Third Year.

# St. Hilda's House Committee

HE House Committee of St. Hilda's College consists of Mrs. Kirkwood, the Dean of Women and Principal of the College, the Head of College and the Heads of the three lower years. It meets to discuss house rules and college discipline, set dates for student activities, and discuss the agenda for college meetings. It also acts as an executive for residence dances.

St. Hilda's is run on the year system. Each year is a distinct unit within the college, with its own duties and privileges. The Heads of the various societies are elected from the two senior years, and these years, the Fourth particularly, are responsible for the general discipline and management of the college. The Sophomore year trains the Freshies who have certain duties to perform.

College meetings are held regularly to deal with matters concerning the undergraduates as a whole. The Head of fourth year who is Head of College, is President, the Head of the third year, Secretary, the Head of the second year, Treasurer. The Heads of the years are chosen by the academic standing on which they enter college.

The Literary Society is active in promoting inter-year dramatics and debating, and brings interesting speakers to the college.

The Women's Auxiliary holds a yearly bazaar and tea the proceeds of which go for missions. It also sponsors a social service department.

Receptions are held periodically at St. Hilda's. Each year has a formal dance, and the second and third years give a dance for the graduating year. This year a Jubilee Ball was given in honour of the opening of the new residence.

Absent: Helen Worthington, Second Year Resident Representative.

# St. Hilda's Literary Society

HE Society has had a more successful term than ever this year, following its establishment in the new residence and acquisition of Cartwright Hall and the stage. A full programme kept them busy all year. Each year submitted a resident and non-resident play, many of which were excellently done. The inter-year debates award was won by the enterprising freshies; and other novelty programmes were presented. This year the Literary Society took over the sponsorship of the St. Hilda's Chronicle, the undergraduate magazine, and initiated what they hope will become a custom of the final literary banquet for the awarding of trophies and prizes.

# St. Hilda's Chronicle

HE incorporation of the St. Hilda's Chronicle in the St. Hilda's Literary Society this year in an innovation which, we hope, will prove in future of benefit to both these institutions, each working for the common aim of promoting an interest and active participation in literary expression. The results so far this year have been extremely satisfactory, and there seems to be every reason to prophesy that the quality and volume of contributions will improve as time goes on, and as the interest of the College is aroused in making this Canadian women's college magazine one of which St. Hilda's may be justly proud.

## The Medical Society

HE Medical Society has been active for the past forty-four years. During that time the original constitution and traditions have changed but little. As has been the custom in the past, a large percentage of the Society funds will be donated for the maintenance of bursaries.

The Society is composed of members from each of the six years. Representatives of the various medical committees, over which the Society has indirect control, are also members. These committees are the Medical Athletic Association, Medical Women's Undergraduate Association, Medical "At Home" Committee, Medical Journal, Daffydil Committee, Graduation Banquet, and also the committee of the dinner and dance at which the members of first year are formally welcomed.

Recently the Canadian Association of Medical Students and Internes has been formed. This organization is composed of Medical students across Canada. The importance of such a movement is realized, and the Medical Society is keenly interested in its development. Certain measures of student health have been carried out, and foundations of a more definite nature are now being laid.

The Society of this year extends best wishes of continued success to the Medical Society of the next year, and those of the years to come.

## Medical Women's Undergraduate Association

HE Medical Women's Undergraduate Association had a very active and satisfactory year. Meetings were held about once a month throughout the term. The October meeting was devoted to initiating the freshmen, and the December meeting was in the form of a Christmas party. In addition, addresses were given by Miss Lea, of the Children's Aid Society, and Dr. Jessie Gray. The Nabob Tea, at which the medical women entertain the Faculty and the women doctors of the city was held early in March. The last meeting of the year was a farewell party for the members of the graduating year.

This year, again, the M.W.U.A. has enjoyed full attendance at meetings, and spontaneous enthusiasm for all its projects. We are very proud of our organization, of which every undergraduate medical woman is an active member.

## University of Toronto Medical Journal

LTHOUGH it does not behoove the staff of the *Journal* to chant the merits of Volume XVI, it is necessary for the purposes of this record to review certain changes during the past year, which we trust may be listed under improvements. A persistent effort was made during the past year to arrange the articles in such a manner that each issue contained something of interest to the members of each undergraduate year. In order to promote an early habit of *Journal* reading, an attempt was made to obtain interesting and instructive articles written by members of the staff, as well as by undergraduates.

The Abstracts Section, which was inaugurated last year, was greatly improved in quality and quantity. The Feature Section, which in past volumes appeared only spasmodically, was represented by very readable material in each issue. The practice of including notes on medical events, athletic, social and administrative (Medical Society and C.A.M.S.I.) was especially appreciated by the student body.

Sixteen years ago, the U. of T. *Medical Journal* appeared as the first undergraduate medical publication on this continent. In the February issue of Volume XVI, the *Journal* featured an interesting article by its original editor, Dr. E. P. Scarlett, M.D., F.R.C.P. (Can.).

We regret to announce the loss of Professor Marrian from the Advisory Staff, who at Christmas accepted the chair of Chemistry in Relation to Medicine at the University of Edinburgh.

The staff hopes that the scarcity of written or vocal comments during the past year signifies the reader's approval of Volume XVI.

### Medical "At Home"

HROWN aside and soon forgotten were the scalpels and stethoscopes on January 26th. The night of nights had arrived as the annual "Medical At-Home," the party every co-ed on the campus dreams of attending, once more swung into action. It was on this occasion the medicos and their ladies, eleven hundred strong, really stepped out.

Once again the Royal York was the setting for this gala annual affair. Merriment and hilarity filled the whole convention floor, which the committee, under the able leadership of Bill McGill, had with great difficulty, been able to reserve. No other party would be interfering with the exclusiveness of the Medical "At Home" (schoolmen note).

Most pleasing arrangements of the hottest swing and the sweetest rhythms were sounded out by America's ace trumpeter, Bunny Berigan and his band. This popular young maestro entered into the spirit of the occasion to the fullest, playing an extra hour, the last half of which was devoted to the maddest and wildest jam session the campus has ever seen.

At midnight a sumptuous repast was served with Epistaxis resounding from the balconies.

Distinctly honoured were Meds under the distinguished patronage of Mrs. H. J. Cody, Mrs. W. E. Gallie, Mrs. Alan Brown, Mrs. Wm. Boyd, Mrs. Duncan Graham, Mrs. R. R. Graham, Mrs. J. C. B. Grant, Mrs. Wm. Scott, Mrs. R. F. Farquharson and Mrs. E. S. Ryerson.

Each year the Medical "At Home" leaves nothing to be desired. The highest pinnacles of success seem to have been reached, yet, to the amazement of other faculties, new ideas are incorporated again and again. Outstanding was the introduction of a caricature artist, who drew loud praise from the guests between dances. A novel checking system, which proved 100% foolproof, much to the chagrin of the Engineers, also received much favourable comment.

By tradition, the success of the party was assured. However, when the night was ended and the last note struck, the seeming impossible had occurred as the peaks of success were scaled to still higher levels. What of the future, Meds? All eyes are turned your way. More power to you!

## Daffydil

AFFYDIL Night, the annual medical Drama Festival, took place in Hart House Theatre, Wednesday, Thursday and Friday, February 22nd, 23rd and 24th. Under the capable direction of Mr. Willard Thompson an exceptional show was presented, which highly delighted the capacity audiences.

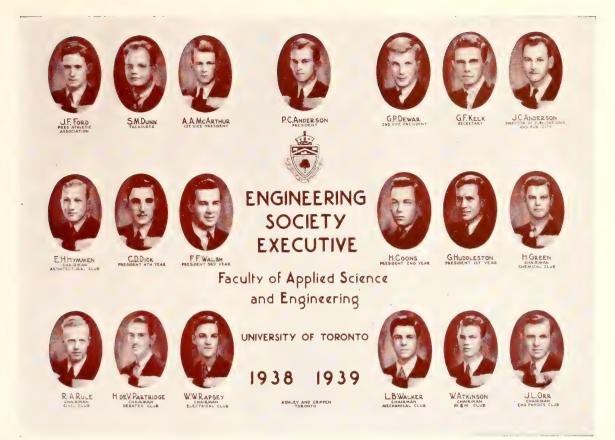

A skit presented by each year and the medettes liberally interspersed with inter-acts provided a new high in entertainment.

The Fourth year was adjudged the superior skit and the judgment was a most popular one. The Hutchinson Trophy emblematic of the best individual performance was awarded jointly to Mr. H. Bolley and (Miss) Dr. D. E. Redmond, as both received the same number of votes.

*Epistaxis*, the magazine and program associated with Daffydil, even surpassed the quality set by previous editions, and much praise is due the editor, Mr. I. Schiffer and his staff for the work on this publication.

Much credit for the unparalleled success of Daffydil this year is due to the fine work of the Daffydil Committee. The committee this year were more than beset by difficulties, especially when the Chairman, Dr. C. Sheard, became ill, necessitating an operation, just when the show began to shape up. However, the Vice-Chairman, Dr. J. C. Rathbun, ably assisted by Dr. B. Laski, promptly filled the breach. Much credit is also due to Dr. W. T. West, our genial musical director, who has toiled unceasingly for the past few years to make this show the success it has been.

On Saturday evening following the presentation of this extravaganza of medical wit, those who took active part in the proceedings, together with members of the staff, gathered at the King Edward Hotel for the Daffydil Banquet to celebrate another birthday of the annual medical show which was founded in 1897.

## **Engineering Society**

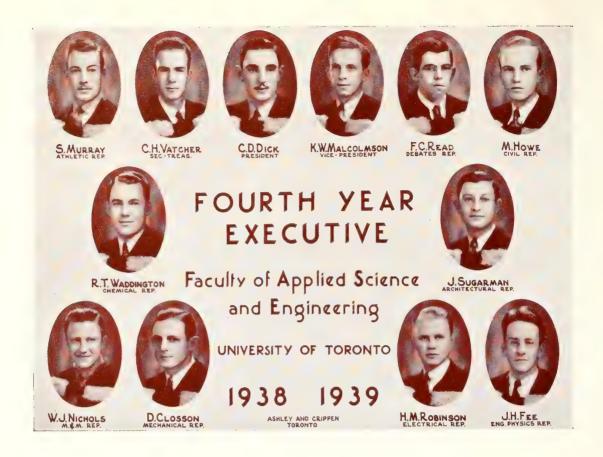

OUR years have sailed right by since 1935, and 1939, that seemingly fardistant year, has slipped upon us, making graduation a reality. It seems strange, but certainly those few short years have had an influence on all the members of this class, that will last their lifetime. The accumulation of knowledge, friends and experiences that each has gathered should do much towards furthering future private and public affairs.

The Class activities in every year have been ably administered and the good financial condition bestowed upon us by the Engineering Society at the date of birth has been carefully maintained. Fights, year parties, School "At Homes", all University functions, have combined with the knowledge-absorbing process, to make School days real days.

Despite a jinx on presidents, capable fellows have run for offices in every year, doing much toward making our year card money a worth-while investment. The Boulevard Club has seen a lot of us, and memories of those times should come in handy when mildew, aches and pains have set in.

The Engineering Society, with its parties, meetings and other activities, has played a big role in creating that general atmosphere around School that will be remembered when the lowly differential has passed into the dim mist of the forgotten. It is to be hoped that the efforts on its behalf by those graduating will be an assistance to following years.

May the hopes and ambitions of all the men of 3T9 be realized and may there be time in the future for many more good times together.

## S.P.S. Fourth Year

ND so we come to the end of our undergraduate days. But what an ending! The members of the Class of 3T9 were determined to make this last year the most colourful and active of the four, and they succeeded.

Although the individual members of 3T9 continued as in former years to dominate the athletic field, the spirit of the Class as a whole was best evidenced in its own social functions.

The Senior Fall Prom, held in the Boulevard Club, was an outstanding success; not because of the preparations made, but because of that underlying quality of good fellowship; a characteristic of any 3T9 gathering.

The major stag event took place in Hart House, where the graduate Engineers welcomed us into their midst with a splendid banquet. Such merriment and frivolity and nobody hurt!

And then came the inevitable explosion of the social whirl—the Graduation Ball, held in the Crystal Ballroom of the Royal York. This dance, which should have been sad, but wasn't, rang with high laughter until the early hours of the morning.

And now as we graduate, we raise our hats to the School which taught us, not only the principles of our profession, but also the fundamental rule of good living—to fight hard and play fair—and we enter the outside world with the firm resolve that the School will always be proud to call us her own.

## School "At Home"

HE much-heralded 1939 School "At Home"—party of parties"—took place on the Convention Floor of the Royal York Hotel, January 20th. Over twelve hundred Schoolmen and their ladies danced to the "Rhythmic Pyramids" of Richard Himber and his orchestra. Ably assisting him in the Crystal Ballroom was Toronto's own Trump Davidson.

The affair was conducted as an experiment to maintain the prestige of School "At Home", as the foremost social function of the University. Its success was due to the spontaneous enthusiasm of Schoolmen, both undergraduate and graduate. Indeed, it hardly could have ended in such a happy financial state without the support of the graduates.

The distinguished patronesses were: Mrs. H. J. Cody, Mrs. C. H. Mitchell, Mrs. C. R. Young, Mrs. C. G. Williams, Mrs. R. W. Angus, Mrs. H. M. Madill, Mrs. J. W. Bain, Mrs. H. W. Price, Mrs. G. A. Guess.

Among the guests were: Prof. and Mrs. W. J. T. Wright, Prof. and Mrs. W. J. Smither, Mr. A. E. Macdonald, Prof. and Mrs. C. F. Morrison, Mr. and Mrs. W. S. Wilson.

Contrary to the usual custom, a supper was not served, but the orchestras played continuously until three o'clock, so that everyone had ample opportunity to "swing it" with the music. At intervals throughou the evening, amusing caricatures of the guests were drawn by Mr. Hugh Forbes before an admiring throng. With a final medley ending in the One O'clock Jump, the very weary, but still joyful, crowd bade adieu to School "At Home" for nineteen hundred and thirty-nine. May it live forever.

### School Dinner

HE 49th Annual School Dinner, held in the Great Hall of Hart House, Thursday, November 24th, 1938, will long be remembered by School-"School" spirit was the keynote of the evening, and the well-chosen words of the President of the Engineering Society guided the many speakers skilfully through the varied program.

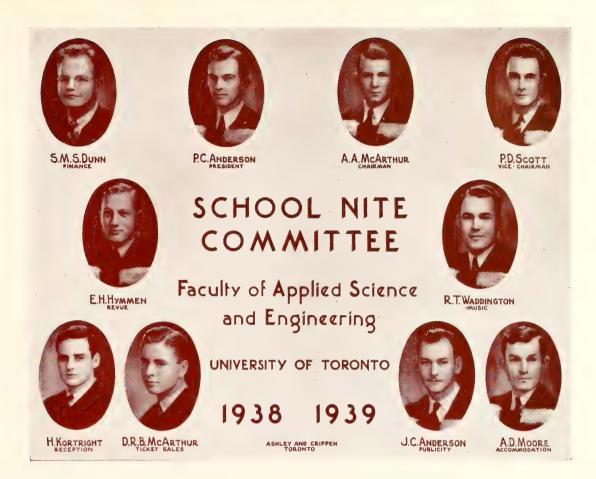

"The Status of An Engineer" was the subject chosen by the guest speakers, Dr. J. B. Challies, President of the E. I. C.; Austin Wright, General Secretary of the Institute, and Fred Newell, Chief Engineer of the Dominion Bridge Co. Each talked for a time on the different aspects of the engineering profession.

Dr. T. H. Hogg made the presentation of scholarships to the brighter lights of School and the Gold Keys to graduating members of the Engineering Society Executive Committee, and Athletic Association. One of the most prominent and popular of graduates, he was enthusiastically greeted and will always be assured of a warm welcome from Schoolmen.

Dr. Cody, the President of the University, in a brief but inspiring speech, left a message to engineers which will not be soon forgotten by those who were privileged to attend. In reply to the toast to the Faculty of Applied Science and Engineering, Dean Mitchell made one of his most successful addresses.

A short sing-song fellowed the bountiful meal of turkey, with all the trimmings. At intervals throughout the evening, musical entertainment was provided by The Three Strings and an exhibition of juggling and balancing held the audience spellbound.

With the booming echo of a resounding Toike Oike, the 49th Dinner came to an end-may the spirit which permeated all those present long flourish for the continued advancement and unification of the engineering profession in Canada.

## School Nite

CHOOL NITE, the annual informal frolic of the men from S.P.S., arrived eventually at Hart House, Friday, February 17th. "The Revue" was presented to about 1,500 eager guests in three shows at the theatre. Bob Shuttleworth played for dancing in the large gymnasium. Bill Fraser and his orchestra, the Modernaires, under Pat Kavanagh, and Norm Phemister and his orchestra, offered a variety of swing in the smaller rooms. For those inclined, old-time music, complete with caller, was available in the Debates Room.

In the pool, the Dolphinettes, under the direction of Dr. Duff, gave one of their most elaborate presentations. This was followed by an exhibition of canoe manipulation by Aubrey Ireland. The Varsity Gym team, under Mr. Charlie Zwygard's guidance, offered at intermission in the Gym a stirring display of gymnastics.

A welcome supper was served in the Great Hall, and activities continued to two o'clock.

An attempt was made to improve the ticket arrangements for seeing the Review—as always, there were more people desiring to see the show than there are available seats. We hope it proved satisfactory.

## Transactions and Year Book

HE undergraduate engineer's life is a full one. He is generally well known over the campus for his hard work and his hard play. One of the means of making him known is through the written word of his events in Transactions and Year Book.

In the magazine we try to give a broad cross section of our year's activities. The various topics discussed and studied by the students are published, varying from the engineering ingenuity required in the construction

> of dams, highways, mines, buildings and great industrial enterprises to the manufacture of tin cans, scented soap and buttonless spats for the medical students.

> Herein are contained the achievements of our athletes, the hobbies of our more gifted and the memories of dancing girls, words of wisdom and staggering banquets.

> To call our magazine a great literary work would be an exaggeration (I think). However, to describe it as a School Diary would be more correct. It is made possible through the fine work of our staff and associates to whom many words of thanks and appreciation are directed.

### Toike Oike

HE past year has witnessed the customary eight issues of *Toike Oike*. While making no pretensions to literary value, the paper attempts to provide a medium whereby schoolmen may be amused. At the same time some of the more pressing problems of the engineer are discussed and the usual club notices dispensed.

This year's staff have co-operated very well, to maintain and possibly surpass former efforts. Jack Orr, as assistant editor, has produced several

masterpieces in his column "Alley Cat". This section is the parent of the better known Champus Cat. Bill Jackson, Toronto's most popular deb escort, has managed the social news very ably, commenting expertly on S.P.S. functions. Jim Lundy, the "Sportoike" editor, Eric Bonham, Tom Cooke, Jack Fee and other members of the staff have contributed freely. Much credit is also due Mr. T. R. Loudon, Mr. J. C. Lazier, and especially Dean Mitchell, who have represented the staff.

We extend to our successors the best of luck and hope that they will improve the status of *Toike Oike* while retaining its traditional brand of humor.

## Architectural Club

RACED by the presence of four beautiful freshettes, the Architectural Club got off to a rather bewildering start.

While most of the activities seem to be confined to the drafting room, a great number of important events have happened outside our weathered walls, most of which there is not space enough to mention here.

The Gull Lake Camp, one of the highlights of the year, lived up to all expectations with Mother Nature doing her best for ideal weather conditions. A very fine group of paintings was stamped out and exhibited for the benefit of the University.

The Annual Dinner can be checked up as a success with Mr. Gladstone Evans as honorary chairman, lighting the match for a bombastic discussion that settled once and for all the question of good architecture. Some of those touching toasts will be remembered for a long time by those who were present.

Every year the club's climaxing event is the Mauvais Art Ball. Being well attended by the staff and students of the School of Architecture and their friends, this year's party was no exception. Much could be said but words hardly express adequately the Mauvais Art Ball.

## Civil Club

HE Civil Club has concluded another year's activity with pleasing success both in the social and educational realms. This success is due to the work of the executive, the co-operation of the members and the everhelpful assistance of the staff who turned out to all our functions and made each of them more enjoyable.

Mr. William Storrie, consulting engineer, from downtown, again favoured us by acting as our Honorary Chairman, and took a very keen interest in all the Club activities.

The new members, our freshmen, were initiated into the Club at our first meeting—a dinner at Hunt's on October 12th, 1938. Prof. Treadgold gave us a very instructive and sincere address.

The annual trip for the Third and Fourth years was on October 14th, 1938, when the Ontario and Queenston power plants were inspected.

The first smoker of the year was on Wednesday, November 30th, 1938. The speaker was one of our own graduates, Mr. J. M. Breen, of the Canada Cement Company, Ltd. He gave an extremely interesting talk on "Cement and Concrete" and showed us slides picturing the road construction programme in Germany.

An exuberant gang celebrated the Christmas exams, on January 5th, at the Royal York Supper Dance. This was held in conjunction with the M. & M. Club, which seems to be now a customary yearly. event.

Mr. W. C. Miller, City Engineer and Treasurer of St. Thomas, gave us an address on "Municipal Administration" at a luncheon in Hart House on Friday, January 27th, 1939.

The year's activities were brought to a close with a final get-together in March.

## Debates Club

HE S.P.S. Debates Club swung into action last fall, just before Initiations, in time to give the Frosh an opportunity to raise their voices in protest against that age-old rite. Speakers were from first and second years. The Sophomores successfully upheld their views and the ceremony was carried out with due solemnity.

"A horse of a different colour," namely Dictatorship vs. Democracy, provided the serious subject in the Fall Term. No world-smashing decision was arrived at although much lively discussion was evolved.

"Resolved that S.P.S. should not employ American talent for Social Functions" provided the vehicle for a fast moving and humorous discussion, punctuated with reminiscences and pleasant memories. The wisdom of the decision in favor of American Talent was amply demonstrated by the success of the School Formal.

A joint meeting of the Engineering Society and the Debates Club was held in January, at which papers on Engineering Subjects were presented and cash prizes awarded.

The annual inter-year debates for the Segsworth Trophy were marked with enthusiasm. The year's activities ended with the Impromptu Speaking Contest.

## Electrical Club

NOTHER School year has come and gone, leaving behind it for some fond memories of a University life now completed, while for others it means but a further stride toward this objective. We believe the Electrical Club has contributed a great deal to the enjoyment of our strenuous academic year by providing an opportunity for the men of all years to meet socially and to promote a greater fellowship among them.

To this end, the Club activities have taken a slightly different form from previous years. We were visitors at the A.I.E.E. meeting, which dealt with Toronto's shiny new I.E.C. street cars, and the talk and demonstration were most capably handled. Smokers featured Mr. Willson Woodside, with one of his intimate talks on the European situation, and Col. Joy, Inspector of Civil Aviation, who gave us a very interesting introduction to Radio Flight Control.

Mr. R. M. Thomas, of The Perfect Circle Piston Ring Co., gave a talk on "Don't Make the Mistakes I Made When I Left School", which was supplemented by the showing of two technical films by the C.G.E.

The grand finale took the form of a dinner at the Toronto Hydro-Electric Club, featuring a three-ring circus. Syl Apps brought us some interesting reminiscences of his meteoric sports career. Mr. Nichols Ignatieff, of the School Exploration Society, told us of his proposals for University men in the Society, and our own Al Gloyer brought us some talkie shorts as added entertainment to round out a real evening.

And so as we pass out of School, we wish those who follow all the pleasurable experiences that have been ours, and hope the Club continues to receive the active support of all its members. Our thanks for the co-operation received this year.

## Engineering Physics Club

N the second year of its existence, with a one hundred per cent, membership, the Engineering Physics Club is taking its part in the activities of the Engineering Society.

The annual banquet at which the freshmen were officially welcomed into the Club started the year off with a flourish (for the freshmen at least).

Among the several meetings held during the year, such subjects as "Tricycle Undercarriages For Aircraft", "Summer Jobs", "Dimensional Theory" and "The Electron Microscope" were very thoroughly discussed.

The annual dance was held in co-operation with the Mechanical Club after the January examinations, and the boys proved their versatility by "swinging with the best of them".

An innovation was the presentations of talks on their thesis subjects by members of the fourth year, thus acquainting the junior years with the work ahead of them and providing lecturing experience for the fourth year. In this manner, such topics as "Photo-Electric Cells", "The Cathode Ray Tube" "X-Rays and Their Application to Industry", "Metal Aircraft Construction", "Boundary Layer and Its Control", "Airplane Performance Calculations", and "Constant Speed Propellors", were discussed.

May the Club have continued success and may the graduating class always fly with "skies clear and ceiling unlimited".

## Industrial Chemical Club

OR thirty years the Industrial Chemical Club has played an active part in the life of Chemical Engineers. The prime function of the club is to bring the students into touch with chemical industry. Several features were introduced this year with this in view.

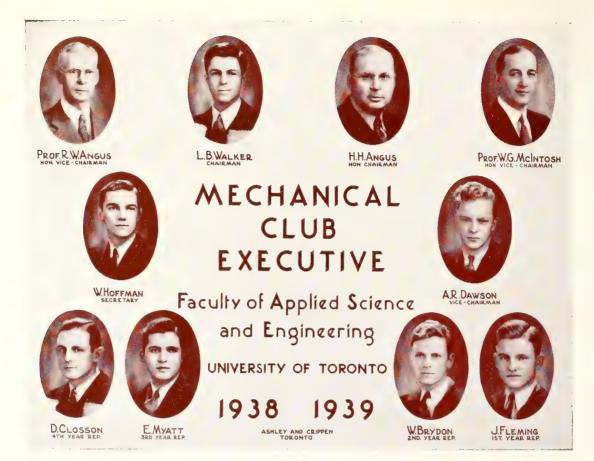

A special effort was made to have every member present at the opening meeting. This was a luncheon affair and the speaker was Mr. Leigh Glover, a graduate of 1934. Guests representing various industries were invited to this and subsequent meetings.

Each of the regular meetings started with a dinner at Hart House. This gave an informal and friendly atmosphere to the gatherings. Addresses were presented on subjects of current technical interest. The speakers included the Honorary Chairman, Mr. O. D. Johnston, Mr. J. C. Honey, Mr. Cyril Tasker, Dr. R. K. Stratford and Mr. N. C. Hobson.

An additional link with the industry was afforded the students by trips to chemical plants. In November the third and fourth years visited the Firestone plant at Hamilton and the Hydro-Electric Power plant at Chippawa, ending up in Buffalo. The Sophs and Frosh were permitted to visit a local soap factory in February.

A luncheon meeting at Hart House in March, with almost all members present brought the club year to a successful conclusion.

We hope that the incoming executive may have an even bigger and better club next year.

## Mechanical Club

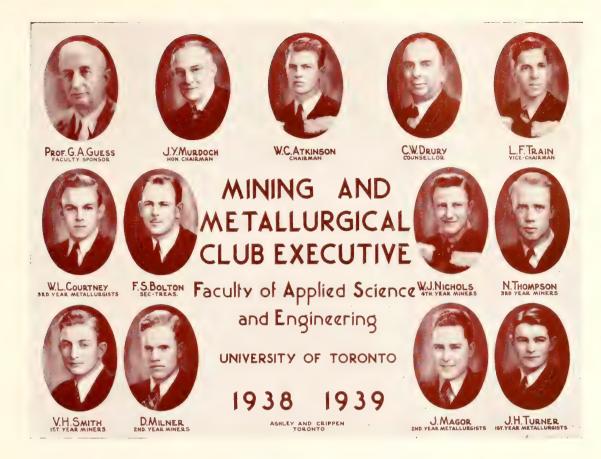

HE Mechanical Club began the fall term this year with a bumper crop of about 80 freshmen to swell its ranks.

The lordly group of fourth year men who grace the top of this page embarked on a bus for Niagara and Buffalo, to view power plants, on October 21st. Needless to say the next day was a dead loss. The same day, the third year were off to Hamilton, inspecting Westinghouse and the Steel Co. of Canada, so that school must have looked deserted. First and second year trips were arranged early in January, to Canadian General Electric and Massey-Harris, and to Canada Wire and Cable respectively.

The smokers were well attended, one of the highlights being the visit of Mr. H. Thomasson of Westinghouse, who taught us a great deal about welding. All who were there will remember the "Double Feature", when the Crane Co. presented a magnificent technical film and Mr. Ignatieff inspired us to be explorers.

A celebration was held after the Christmas exams, when about half the club in conjunction with the Engineering Physics Club turned up at the Embassy Hotel for a dance.

The year was ended by a trip to Bell Telephone and the Annual Dinner.

## Mining and Metallurgical Club

HIS year has been a very eventful one for the Mining and Metallurgical

Starting the year off we met with C. G. Williams, successor to H. E. T. Haultain, as Professor of Mining Engineering, and at this point the executive would like to express their thanks to him for his sincere interest and helpful guidance to the club.

We were very fortunate in having as our Honorary Chairman, Mr. J. Y. Murdoch, whose executive positions in the mining industry are too numerous to mention here. Our councillor, C. W. Drury of the Deloro Mining and Smelting Co. Ltd., has also taken a keen interest in the club.

Our activities this year included a Smoker at which the Freshmen were introduced to the club. The first Dinner was held at Hart House, on December 1st. Dr. Joliffe of the Department of Mines, Ottawa, gave an illustrated address on the Northwest Territories, with particular reference to the Yellow-knife, Canada's new mining field.

The second dinner, held at the Military Institute, was very outstanding. Mr. J. Y. Murdoch talked to the club and left us much to think about.

At the time of writing, future activities are rather indefinite. We plan a student program for the March meeting of the Toronto Branch of the C.I.M.M.E. We also hope to hold another dinner.

During the year, the fourth year were the guests of the Orillia Manufacturers, and also took a trip through the Canada Wire and Cable Co. plant at Leaside.

The Executive Committee wishes to thank everyone connected with the club for their co-operation.

### Dental Students' Parliament

HE Students' Parliament has a long history which dates from 1875. All undergraduates are members of the Students' Parliament and all student affairs are conducted by this body through an executive known as the Cabinet. The Cabinet is composed of a President, Secretary, Treasurer, Presidents of each year, and Chairmen of the different committees in charge of the varied student activities.

The constitution of the Students' Parliament has been amended at various times to conform to the growth and various changes which have taken place since the founding of the Royal College of Dental Surgeons in 1875 and its change to the Faculty of Dentistry in 1925.

The Students' Parliament provides representative administration of all undergraduate activities and provides an official contact between the student body and the faculty executive.

This year has been a very successful one, and it is hoped that many more like it are in store for succeeding parliaments.

First Row: Miss B. A. B. Swadron, First Year Representative; Dean A. D. Mason, Miss E. Winkler, Dental Nurses' Representative.

Absent: E. ROLLASTON, DR. D. TANNER.

## **Dental Dramatic Committee**

HE Dramatics Committee of the Faculty of Dentistry has for its primary primary object the production of the annual Dentantics Presentation in Hart House Theatre.

The committee are to be highly commended for their efforts in producing a very entertaining and profitable show this year.

The support and appreciation shown by the faculty and students this year augurs well for future Detantics Shows.

#### HYA YAKA EDITORIAL BOARD

First Row: Miss M. Nixon, Dental Nurses' Representative; Dean A. D. Mason, H. S. Grey, Editor.

## Hya Yaka

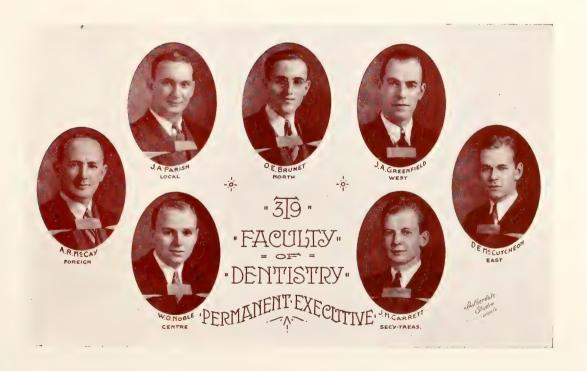

HE Hya Yaka, Year Book of the Faculty of Dentistry, made its appearance this year bigger and better than ever before.

This book contains articles by both staff and students' ranging from scientific treatises to student humour and athletics.

The staff hopes that it will be a source of inspiration to the undergraduate, and of fond memories to the graduates.

The Editor and staff wish to thank all those who helped to make the annual publication of this book possible, and hope that this year it will be even more successful than its predecessors have been.

## Wycliffe College Literary Society

HE success of any democratic government depends on its ability to rise expediently to the present demands made of it with an optimistic outlook toward the future needs of the body it represents.

The House is ruled by parliamentary procedure and consists of two parties; a government party under the leadership of W. H. Simpson, B.A., and the opposition under J. Newton-Smith, B.A. The Society aims to develop the administrative ability of its members, individual expression, and to serve the needs of the College. It rejoices in its responsibility and contribution to the life of the university as a Whole.

The year's program included parliamentary debates, an annual hike, open evenings, a sleigh ride, and the Formal Dinner. The Society entertained His Excellency, Lord Tweedsmuir, when he visited the College this year.

The Taylor Debating Trophy has helped greatly to stimulate an interest in debates.

The devotion and prayerful attitude of the S.C.M. has influenced the spiritual life of every member. Its program includes an annual Missionary Night, at which students relate their summer missionary experiences, and Saturday morning prayer meetings.

#### KNOX COLLEGE ASSOCIATION EXECUTIVE

Second Row: P. A. Ferguson, B.A., Worship Committee; R. D. MacDonald, B.A., Social Committee; R. C. Vincent, Athletic Committee; C. C. Cochrane, B.A., House Committee.

First Row: F. R. Cosford, B.A., Treasurer; J. S. Clarke, B.A., President; Professor J. D. Cunningham, M.A., D.D., Honorary President; T. A. M. Thompson, Vice-President; G. B. Mallion, Secretary.

## Knox College Association

HE Knox College Association is the official organization representative of the students residing within Knox College, and as a government it administers the affairs and directs the activities of the men.

The House Committee with the willing co-operation of all the members has succeeded in maintaining the position of Knox as one of the best residences on the Campus. The Worship Committee promotes and conducts religious worship in the residence with evening worship and morning chapel services. During the year communion service is held in the College chapel by the members of the faculty for all men in residence. The Athletic Committee promotes all inter-mural and inter-house athletics and has at all times ably represented Knox in University athletics. The fine facilities of Knox are very conducive to an active athletic spirit. The Social Committee conducts all the social activities of the College, providing an informal fall party, the annual Christmas dinner, and the formal Knox 'At Home' in the spring term.

The monthly meetings of the Association are parliamentary in form providing opportunities for debate and development in extemporaneous speaking. The constructive criticisms from the opposition benches not only enlivens the meetings, but make for proficiency on the part of the Government.

While representing the symbol of government, the Association holds as ideal, a democratic and genuine fellowship for the whole student body.

## Knox College Residence

NOX COLLEGE RESIDENCE, while mainly for those men who are preparing for the ministry of the Presbyterian Church in Canada, is also a university home for many students of other faculties. Almost every faculty of the University is represented in the Residence, as is almost every stage of college life, from the freshman to the post-graduate, and among her numbers Knox is proud to possess many men who have won high scholastic awards. Consequently, there dwell in the Residence varied interests, each of which does its part in contributing to the corporate life of the student body and at the same time tends to broaden the outlook of every man.

Student government prevails in the Residence, and without any severe measure of discipline it aims to provide a congenial atmosphere in which lasting friendships and pleasant memories will be cultivated. In this work there are many opportunities for administrative experience.

Knox College is one of the most beautiful buildings of its kind and it also provides the facilities required to satisfy all the needs, spiritual and physical, of those who enjoy its hospitality. The gymnasium is very conducive to intermural and inter-house athletics and Knox is unique among the university residences with its athletic facilities. Thus men leave it this year do so regretfully, but with them they will long carry treasured thoughts of old Knox.

#### EMMANUEL COLLEGE STUDENTS' SOCIETY

Second Row: R. J. Scott, B.A., Missionary Committee; N. F. Langford, M.A., President, Theological Society; G. A. Affleck, B.A., House Committee; M. G. Butler, B.A., Worship Committee; G. G. Smith, B.A., Secretary, Theological Society; J. C. Thompson, B.A., Athletic Commissioner.

First Row: D. J. Proctor, B.A., Treasurer; H. M. Bailey, B.A., President; Rev. J. Dow, M.A., D.D., Honorary President; F. H. Joblin, B.A., Vice-President; T. V. Rutherford, B.A., Secretary.

## Emmanuel College Students' Society

URING the past year there has been felt among staff and students a deep sense of fellowship and unity.

The student activities function through the Emmanuel College Students' Society which is organized into various committees made effective by the Society's Executive.

The Worship Committee, under the helpful guidance of its chairman and the staff, has helped to maintain and stimulate through a daily Chapel Service, evening prayers and a monthly Communion Service, the spiritual life of the members of the College.

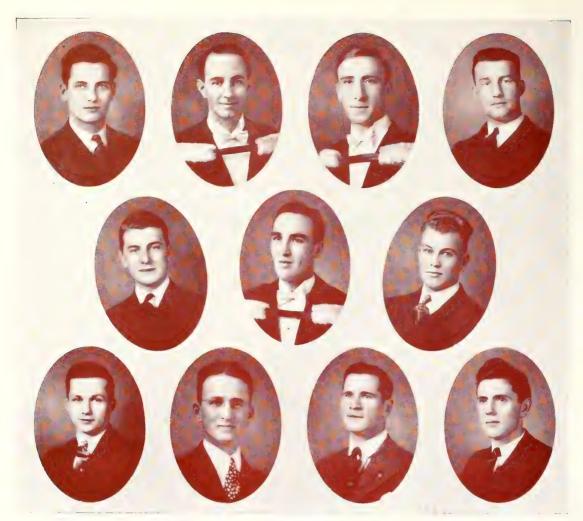

The Missionary Committee has kept the Missionary task of the Church and the College constantly before us, climaxing their work by a very stimulating Missionary Conference held in February.

The Vice-President's Committee has been active in strengthening and deepening the bonds of friendship between students in Theology and Church students in Arts.

The Athletic Committee has been responsible for aiding men to mix study and sports according to their taste and inclination. During the year a new Athletic Society has been formed. In the future this will function as a separate Society and not as a Committee.

The Residence Committee has sought to make the life of men in residence as congenial and mutually helpful as possible by fostering a friendly spirit between the three Houses. Musicales, sponsored by this committee, together with teas provided by the wives of the faculty, and functions arranged by the classes of each year, have been instrumental in broadening and enriching social fellowship.

The Theological Society has held four meetings at which there was a helpful discussion of pertinent matters pertaining to theology. As a member of the Theological College Union, it has co-operated with Knox, Trinity, and Wycliffe in the meetings held by that union.

VETERINARY STUDENTS' ADMINISTRATIVE COUNCIL

Third Row: G. Jones, Second Year President; E. L. Symington; J. Leslie, Fourth Year President; R. Gahagan, First Year President.

Second Row: W. D. Persson, Vice-President; E. Pallister, President; W. Parkhill, Secretary.

First Row: D. MacDonald, C. Phillips, W. Gay, Treasurer; D. A. Barnum.

## Veterinary Students' Administrative Council

HE Students' Administrative Council is composed of three seniors, three juniors, three sophomores, and two freshmen, making a total of eleven members elected by a majority vote.

The Student Council promotes student activities, oversees student functions, and acts as a means of communication between the faculty and the student body.

The Council gratefully acknowledge the co-operation given them by Dr. McGilvray, the faculty, the student body, and the Students' Council at Toronto.

#### UNDERGRADUATE ASSOCIATION OF OCCUPATIONAL THERAPY

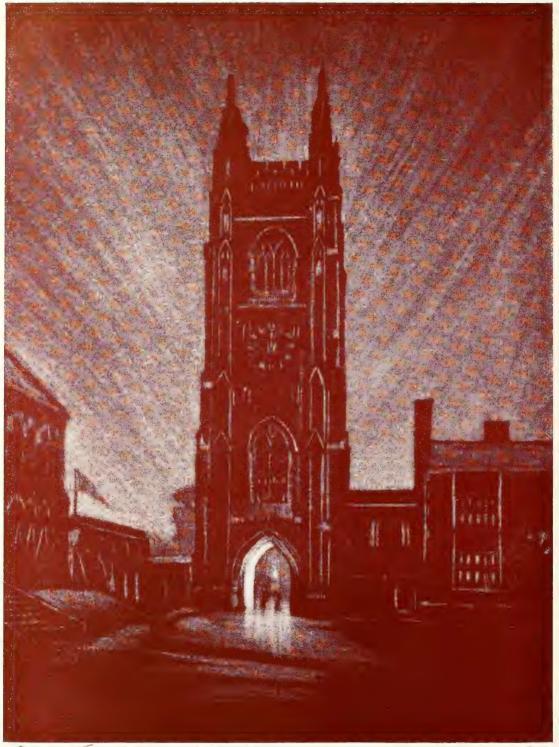

Second Row: Eula Theal, Second Year Representative; Yvonne Galt, First Year Representative; Elizabeth Campbell, Editorial Representative.

First Row: Patricia Carson, Treasurer; Isobel Robinson, President; Miss Helen P. LeVesconte, Honorary President; Pauline Tancock, Secretary.

## The Undergraduate Association of Occupational Therapy

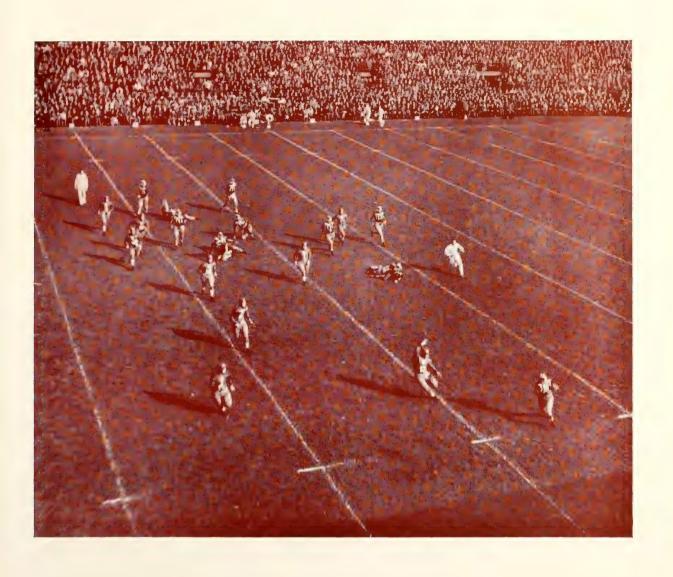

HE Undergraduate Association of Occupational Therapy was formed in November, 1938. The purpose of this Association is to promote fellowship between the students of the first and second years in the course of Occupational Therapy; to further such enterprises as might from time to time present themselves, making it possible for the Undergraduates to enjoy University life to its full; to aid financially, as far as possible, such enterprises of the Canadian Association of Occupational Therapy as may require assistance; and to elect one student to be a member of the editorial committee of the Canadian Journal of Occupational Therapy and Physiotherapy.

In 1918, Professor H. E. T. Haultain of the Faculty of Applied Science and Engineering was appointed Vocational Officer for Ontario under the Department of Soldiers' Civil Re-establishment and, with a committee made up of the members of the staff of the Faculty of Applied Science, established a six weeks' course in Occupational Therapy which was later extended to three months. The last of the military courses was given in September, 1919, within which time three hundred "aides" had been trained. At the suggestion of Dr. Goldwin W. Howland and the Canadian Association of Occupational Therapy, the University of Toronto, in 1926, established a two-year diploma course, the entrance requirements being in accordance with the standards of the Faculty of Arts. This is the only course given in Canada, and in a recent survey was listed as one of six courses which met the requirements of the American Medical Association.

## Intercollegiate Athletics

S we review the record of the wearers of the Blue and White during the past season of athletic activities, we find many exceptional performances. In both team and individual competition our representatives have worn the Blue of Varsity in an honorable and praiseworthy manner.

The sterling display of the Senior Track Team in defending their championship will live long in our memories. The meet was decided by the final relay with the closest score in years, 56-54.

Senior Soccer also enjoyed a prosperous year, being undefeated in nine games, winning the Western group and defeating R.M.C., Eastern group champions.

The Golf and Tennis squads won decisive victories in the annual championships by sweeping team and individual events in both sports. Bob Reid of Varsity winning the golf title and Bill Pigott winning the tennis crown. Bruce Hall and Bill Small also garnered the doubles title.

In English Rugby, Varsity men maintained their superiority over McGill by taking a close verdict in the annual championship game.

Probably the most surprising result was the failure of the Senior Football Team to make the play-offs. Pre-season favorites for the title the boys dropped two important games and thus were forced to watch McGill and Western battle it out for the title; an inspired Red Team rose to the heights to sweep the Mustangs aside for their first title in ten years. It was a grand victory for a great team.

In the remaining fall sports McGill was a dominant factor, decisively winning the Harrier race with Varsity third and O.A.C. second. In the Water Polo final, a game Blue team went down before the veteran McGill sextet 7-5.

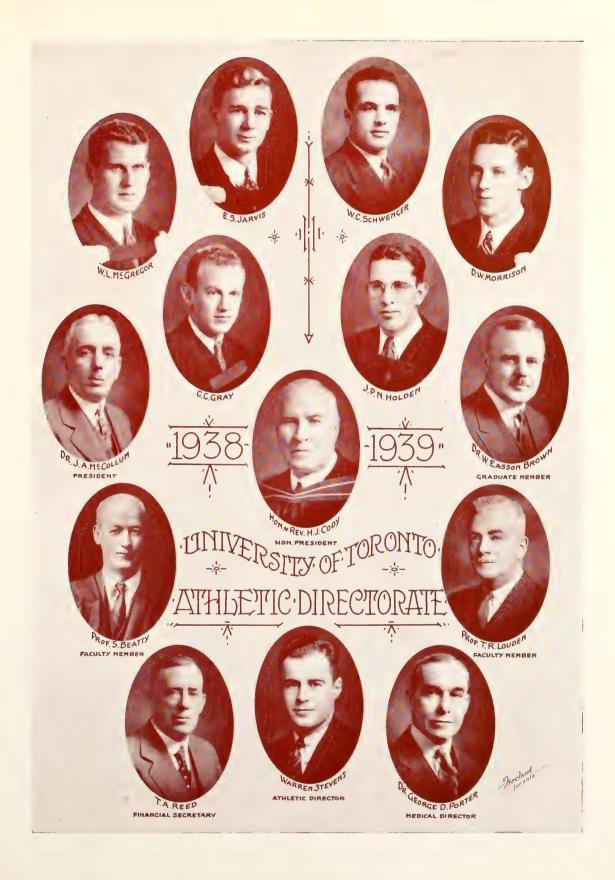

With the coming of the new year, all winter sports got under way and following a successful series of exhibition games the Senior Hockey and Basketball squads entered league competition. Both teams faltered as they entered the stretch and thus we find McGill again champions of the I.I.I.H.L. and the Basketball team forced to share first place with McGill and Western.

Varsity completely dominated all other winter sports, capturing 11 out of 16 bouts to retain the Boxing and Wrestling championships. In Fencing Al Garcia of Toronto again was individual Champion and Varsity also broke the McGill strangle-hold on the Walters Team Trophy.

The Swimming Team culminated their most successful season in years by retaining the Dougall Trophy, defeating McGill and McMaster easily; Captain Nels Earl winning the Neil Buckley Trophy awarded to the winner of the 100 yards free style.

The Gym team won their seventh consecutive title defeating McGill and Queen's, with Stew. Macdonald of Toronto again Individual Champion.

In Intermediate competition with O.AC., McMaster, and Western, Varsity athletes again gave a fine display, winning championships in Tennis, Golf, Harrier, and Basketball, with O.A.C. winning Rugby, Track, and B.W. & F., and Western capturing the swimming title.

# The Johnny Copp Memorial Trophy

HIS trophy, presented to the University of Toronto Athletic Association by graduates and undergraduates, is awarded annually to the member of the senior rugby team who, in that season, by his sportsmanship, character and playing ability is adjudged the most valuable member of the team.

One of Varsity's outstanding football players, Frank Sirdevan, S.P.S. I, is the winner of the Johnny Copp Trophy this year. Sincere, and modest, a great team player and a grand competitor, Frankie is indeed a worthy recipient of this high honor.

# Senior Intercollegiate Rugby

HE football season of 1938-39 was one which all Varsity supporters have since classified as upsetting. For the first time since 1932 the team failed to gain a playoff berth. Queen's, for five years their perennial playoff rivals, finished in last place without winning a game, to complete the upset.

This year the Senior Football Team was visited by extreme hard luck in the form of serious injuries to three of her most able and valuable players, and I think any fair-minded opponent will agree that this had some bearing on the final result

While the team was in training in Burwash Hall, prior to the opening of the season, appendicitis struck the group in the person of Don Mumford, who was being counted upon heavily for the coming season. Bad luck again struck in the second half of the City Series final with Balmy Beach, when Doug Turner was carried off the field with a badly wrenched knee. Toronto won the game and the city championship, but Doug's injury kept him on the sidelines for the balance of the season. The following Saturday Varsity invaded Kingston. For the first time in six years we managed to conquer the Tri-colour on their home grounds, but the victory was too costly, for Jim MacDonald broke his leg.

In the next game Varsity entertained McGill and the Redmen won 10-7. Western University of London were hosts to Toronto the following Saturday and, in a haphazard exhibition Varsity lost 3-2. Returning to Toronto a week later the same two teams played a highly exciting game, won by Toronto by a score of 8-7, also slightly haphazard. During this time McGill had been going merrily on her way without the loss of a game and consequently Varsity's visit to Montreal was of the "crucial" variety. With a sell-out crowd jamming the stadium, nearby trees and all available hospital verandahs, Varsity lost 23-2. The final game of the year was of the consolation variety, Queen's playing Varsity in Toronto. With nothing at stake it was a wide open affair, Varsity finally winning 13-10.

## Intermediate Intercollegiate Rugby

OACH Bill Bryers is probably still wondering what happened to his team last fall. The Intermediates were well coached by Bill, but somehow during games they only showed flashes of form. When this happened, they played well, and proved that the coach's work was not entirely in vain.

The games with Western were both very close and with better luck, we might have won them. The McMaster and O.A.C. games were all sad affairs. In these games Varsity usually started slowly and by the half-way mark, some remarkable scoring had been rolled up against them. However, during the second half, the team always came to life and played good sound football, doing some scoring themselves, and giving their opponents plenty to think about.

Unfortunately, the Intermediates were riddled with injuries throughout the season, and this made it hard to efficiently drill a squad with new men constantly trying out for positions. Our trainer, Frank Jackman, deserves to be mentioned here for his hard work in this connection, and also for his untiring efforts to rouse the spirits of the team.

The team was made up of the freshmen who turned out for pre-season training, and a great number of last year's Junior team. Despite their misfortunes, every member thoroughly enjoyed the season, and they are looking forward to next fall with renewed enthusiasm.

## Junior Rugby

HIS year Coach Don Graham turned out a better than average Varsity Junior team. All the men who turned out were enthusiastic, and this certainly helped Mr. Graham to mold them into a smoothly working team.

The Juniors started to practise the first day after school opened and continued until about the second week in November. There was no organized league in which they played this year, but Mr. Stevens managed to arrange two exhibition games with Western Juniors, one in London, on October 15th, and one in Toronto, on October 22nd. Varsity won the game in London by a wide margin but just managed to tie the game in Toronto one all. In addition to the games with Western, Mr. Graham arranged several exhibition games with St. Mike's freshman team. All were won by comfortable margins.

All together the Juniors had a very satisfactory season this year and we hope that they will provide some excellent material for the Intermediate and Seniors next year,

#### Senior Intercollegiate Track

HE 1938-39 Senior Intercollegiate Track Meet was held on Friday, October 21st, with McGill University being the host. After one of the closest and hardest fought meets in years, the University of Toronto squad came out on top to retain their championship crown, which they won last year in Toronto. The final score of the meet was Toronto 56 points, McGill 54 points, with Queen's and Western obtaining 34 and 20 points respectively. McMaster was unable to break into the scoring column. After all the events, except the relay, had been run off, Toronto was leading McGill by 53 points to 52, and thus the meet depended upon the outcome of the relay. Queen's, paced by Bill Fritz, actually won the event with plenty to spare, but the big duel was between Toronto and McGill for second place, with the Toronto team of McHenry, Delaney, H. Brown and Laidlaw coming out on top to win the meet.

Two records were broken during the afternoon, both by their previous holders, and one was tied. Courtright distanced his old javelin record of 181 ft. 9 in., and Wallace Brown of Toronto set a new mark of 23 ft. 23/4 in. in the broad jump, after Harold Brown had also broken the old record. Lloyd Cooke of McGill equalled Dave Crichton's time of 4 min. 30 6/10 secs. in the mile, easily outdistancing the field. The Brown boys scored 19 of Toronto's 56 points, Wallace scoring firsts in the discus and broad jump, and Harold seconds in the 100, broad jump and javelin. Bill Fritz of Queen's and H. Brown gave McHenry a close battle in the hundred, but Gord came out on top with Fritz ending up in third position. To Coach Hec Phillips we again extend congratulations for a well-coached and finely-conditioned squad.

## Intermediate Intercollegiate Track

HE Intermediate Intercollegiate Track Meet was held at the University of Western Ontario, on Wednesday, October 19th, 1938.

O.A.C. won the meet with a total of 80 points, winning eight events out of fifteen. University of Toronto was second with 45 points, while McMaster got 16 points and Western 13.

Cass won both the 120-yard and the 200-yard hurdles, and Hogg won the high jump. Piper was second in the half-mile, Loutitt second in the three-mile, and Moore second in the discus throw. The Relay Team ran second in the half-mile relay.

The weather was bad and no new records were established.

Absent: A. C. FORREST.

# Senior Intercollegiate Harrier

HE Senior Intercollegiate Harrier Meet was held at Toronto this year, on November 12th. The defending champions, McGill retained their title over the High Park course with a low score of 17 points. The O.A.C. team placed second with 27 points and Toronto third with 41 points, with the fourth entry, R.M.C. counting 65 points.

Lloyd Cooke paced McGill's team home in the time of 27 minutes 32.5 with team mates Todd in third place, Cowan in sixth place and Frankton in seventh place. Hogg, Toronto's first man home placed fourth, Forrest tenth, Goodwin twelfth and Phoenix fifteenth. Young and Eccles of O.A.C. took second and fifth places respectively.

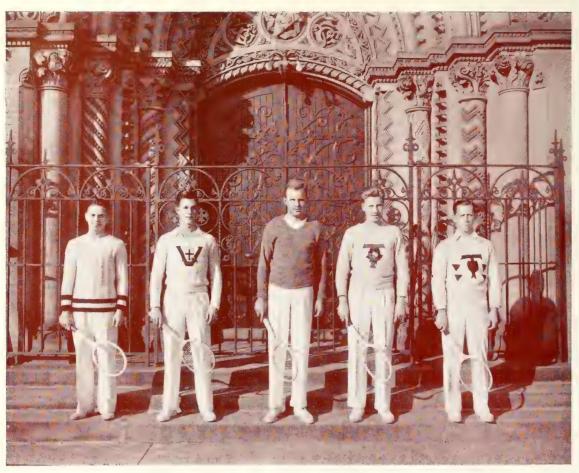

In addition to the senior championship Varsity met Alfred College and Buffalo State in two international meets. Losing to the former over the mountainous Alfred course and defeating Buffalo handily in a meet held in conjunction with the Senior Interfaculty at High Park. Toronto was again coached by Hec Phillips and trained by Abbie Foster.

#### Intermediate Intercollegiate Harrier

HE Intermediate Intercollegiate Harrier Race was held at the University of Western Ontario, on Saturday, November 12th, 1938.

Toronto defeated Western by a small margin to win the meet. O.A.C. came third and McMaster fourth.

The order of finish was Loutitt, second; Taylor, sixth; Hanna, eighth; Kaylor, sixteenth; and Macdonald, seventeenth.

UNIVERSITY OF TORONTO SENIOR TENNIS TEAM, CHAMPIONS G. SHORTER, W. W. SMALL, W. P. PIGOTT, B. HALL, P. E. SNYDER.

#### Senior Tennis

HIS year, McGill conducted the senior tennis tournament, and on the courts in Montreal, Varsity decisively swept aside all opposition to take the championship for the third successive year.

Winning 18 out of a possible 21 points, Toronto cinched the team championship early to lead McGill, University of Montreal, and Queen's, who finished in that order. In the play-offs for the singles' title, Pigott and Hall met in the finals, and this year Pigott reversed last year's final and decisively defeated Hall in straight sets. Hall and Small, however, were victorious in the doubles, defeating Dussault and Derome of the University of Montreal, who had previously defeated Varsity's number one team of Pigott and Snyder.

This year, a round robin system of team matches was introduced, and was very favourably received by all the teams. The Varsity team was composed of three last year's players, Bill Pigott, Bruce Hall and Paul Snyder, plus the addition of Bill Small and Gordon Shorter.

UNIVERSITY OF TORONTO TENNIS TEAM, INTERMEDIATE INTERCOLLEGIATE CHAMPIONS

C. J. SEAGRAM, R. D. NASH, R. CAMPBELL, R. M. YOUNG, H. A. PHILLIPS.

## Intermediate Intercollegiate Tennis

HIS year the Intermediate Intercollegiate Tennis Tournament was played at the London Tennis Club, our gracious hosts being the University of Western Ontario. For the first time in several years the players enjoyed perfect weather throughout the tournament. Varsity emerged the winner for the fourth consecutive year, it being an all Toronto final in the singles and doubles.

The team was captained by H. A. Phillips, who has played on the team for three years. The rest of the team was composed of C. J. Seagram and R. Campbell, two veterans, and R. Young and R. Nash, two newcomers. At the end of the first day's play, Varsity was in the lead with two singles players and both doubles teams still in the tournament.

R. Young won the singles title by defeating his team mate, C. J. Seagram, in five long hard-fought sets. Al Phillips and Charlie Seagram won the doubles title for the second time by defeating Ross Campbell and Bob Young, the other Varsity doubles team.

# Senior Intercollegiate Soccer

HIS year's Senior Soccer Team brought to the University for the first time the Blackwood Trophy, emblematic of the Intercollegiate Championship of the Western Division. Fielding the strongest team to wear Blue and White colours for many a year, this year's eleven went through the season undefeated and untied in regular competition. In doing so, they piled up the remarkable total of 31 goals scored and only four against. The first year men that made the team this year were the answer to a coach's prayer, and Mr. E. R. Slade made the most of his material; the newcomers were D. B. Baird, right-half; R. McDonald, forward; Alf. Dodds, centre; Jack Convey, Captain and centre-half; Geo. Powell, left-back; Geo. Fraser, inside-right; H. Ward was again in goal; Joe Muchan, right-back; Forbes Thomson, left-half and manager; forwards, Jack Mullet, Tommy Rutherford, Frank Sills and Jack Honeyman.

In a play-off game with R.M.C., Eastern Champions, the U. of T. took the game 9—0. On a visit to Buffalo State Teachers' College, the Varsity team were held to a 1—1 draw by a strong American team. With graduation taking only two of this year's squad, H. Ward and G. Powell, we are looking forward to another big season next fall.

# Intermediate Intercollegiate Soccer

ARSITY'S Intermediate Soccer Team came very close to making it two championships for the Blue and White Soccer Club, but they were nosed out on goal averages by O.A.C. Tied at the end of the season in points, O.A.C. were awarded the title because of a higher scoring average. This reversed the situation of last year when Varsity came out on top. In two years of competition neither college has been able to defeat the other. It is hoped that in the near future some more satisfactory way of deciding championships in this series will be worked out. Much credit must be given to the coach, Mr. E. R. Slade, for this team's good showing.

The Soccer Club Executive consisted of A. Menzies, *President*; J. Johnson, *Vice-President*; and E. L. Simmonds, *Secretary*.

# English Rugby

S usual the lack of competition marred an otherwise successful season. The club fielded a strong team, but without a definite schedule, interest was not up to its usual standard and towards the end of October declined visibly. In all, four matches were played, three against the Toronto Irish and the fourth against our old rivals, McGill. We secured three victories, losing one game to the Irish. The match against McGill was the best in many years of competition. Varsity played topnotch rugger and emerged with a 4-0 triumph. This is the more notable when it is remembered that McGill had already played six games to Varsity's two, and were, at that time, undefeated. This is the sixth successive intercollegiate title which the club has won.

The cosmopolitan personnel has persisted. The Maritimes, British Columbia, Australia, Japan and England all had representatives on the team. Many of these players will be graduating this year and the gaps will be hard to fill.

Finally, a word about our coach, "Dan" Coughlan. An old member of the team, Dan has taken over his arduous duties with his accustomed vim and vigour. He has proved a very capable successor to Jimmy Bowles and we all wish to take this opportunity of rendering our thanks for his hard work and the great interest he has shown.

UNIVERSITY OF TORONTO SENIOR GOLF TEAM, CHAMPIONS W. Laird, R. B. Spence, R. D. Reid, D. S. Morse, D. H. Stewart, C. A. Stephens.

## Intercollegiate Golf

HE York Downs Golf and Country Club, Toronto, was the venue of the 1938 Senior Intercollegiate Golf Championship. Competition for places on the Varsity team was very keen, and after the trials had been held, it was found that the team chosen to defend the Ruttan Trophy consisted of Bob Reid, Bill Laird and Sonny Morse of last year's team, while Clint Stephens, Dave Stewart and Bob Spence were the newcomers.

In the thirty-six hole, individual matches held on Friday, October 7th, Toronto obtained a goodly lead over McGill in the team match, while at the same time Bob Reid, with a total of 157, retained his Canadian Intercollegiate crown, D. S. Morse, also of Toronto, being runner-up, one stroke behind. In the two-ball foursome play, the following morning, Toronto again dominated the situation, and the final point scored found Toronto again in possession of the Ruttan Team Trophy by a margin of  $18\frac{1}{2}$  to  $8\frac{1}{2}$  for McGill.

This year, an Intermediate team was also formed and it succeeded in winning the Intermediate Intercollegiate Championship, besting teams from Western, O.A.C. and McMaster over the course of the London Hunt Club. The Intermediate team consisted of Jim Trow, Captain; Bill Belfry, Robin Harris, and Ralph Stuart.

Another innovation this year was the staging of an Interfaculty tournament at the Woodbine Club. Dents, S.P.S., Trinity and U.C. finished in that order, the winners being materially aided by Bob Reid's dazzling 70. This tournament was definitely a success and should be repeated on a more ambitious scale next year.

At the annual meeting of the University Golf Club, W. W. Laird was elected President and Team Captain in succession to R. D. Reid. C. A. Stephens was named as Secretary, succeeding J. S. Boeckh.

## Senior Intercollegiate Hockey

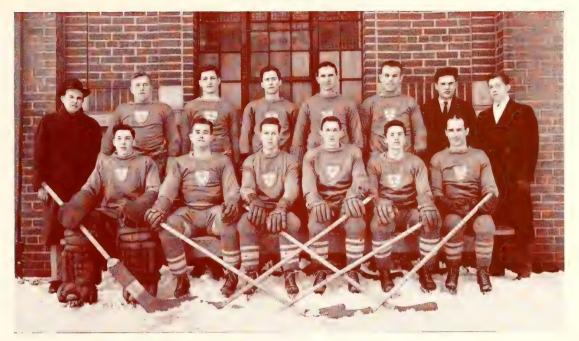

OACH "ACE" BAILEY'S pucksters warmed up for a long hockey season by winning three out of four exhibition tussles against senior O.H.A. clubs.

Just before the Christmas holidays, University of Southern California, on tour over the continent, paid us a visit, but were forced to leave with their unbeaten record marred. Not to be outdone by U.S.C., Director of Athletics Warren Stevens arranged for the Blues to do some touring. Between December 18th and January 10th they played ten games and travelled some 8,500 miles by rail and air. First out to the Pacific Coast where four games were played—and won—against Gonzaga University at Spokane, Washington, New Westminster Cubs at Vancouver, and two games against Loyola University at Los Angeles.

Regretfully leaving sunny California, we hopped across the continent to New York, where we immediately ran into McGill, St. Nicks, and University of Montreal. Off to Boston and the Blues took a game from the Olympics. A wonderful trip was touched off by I.I.I.H.L. victories at Harvard and Dartmouth, leaving a tour record of eight wins, a tie (St. Nicks) and a loss (McGill).

With the exception of a tie game with Clarkson University at Potsdam, N.Y., and a win over University of Michigan at Ann Arbor, I.I.I.H.L. games occupied the remainder of the season. In two thrilling games in Montreal and Toronto we broke even with McGill. But it was Queen's who put us out of the running by pulling surprise wins both at Kingston and Toronto. Victories in the remaining league games against Yale, Princeton and U. of Montreal (two) left Varsity in a second place tie with Queen's and Dartmouth, each winning seven and losing three.

McGill, after a hard fight, once again hold the International Intercollegiate hockey title. But the fortunate Blues hold the record of being the most travelled college team on the continent, in addition to which they won 22 out of 27 games played—a most commendable and successful season.

## Junior-Intermediate Hockey

HIS year, Varsity's entry in the O.H.A. Junior "A" Series was truly a hard-luck team, with the unhappy faculty of consistently adjusting itself to the quality of the opposing team and just as consistently coming off second best. In a fourteen-game schedule the Juniors lost eleven games, tied two with Guelph and finally concluded the series by defeating Lyons 4-3, but it is a well-known fact that this unimpressive looking story of defeats is not indicative of the "fight" and ability which Coach Jimmy MacPherson invariably instils into any team which falls under his able care

Early in February the Juniors entered a six-game schedule in the Intermediate Intercollegiate Series with Western, McMaster and O.A.C. The team was here augmented by several valuable players but at the same time greatly handicapped by the loss of what had been regarded as the best and hardesthitting defence in the whole Junior Series. To a lesser degree the Intermediates were dogged by the same hard-luck which had clung to the Juniors, and the result of the series was that the number of wins and losses were evenly split, decisive defeats being meted out twice to McMaster and once to Western in the final game. O.A.C. won the title with the loss of only one game. It is almost undisputed fact that the Intermediates would have retained the C.I.H.U. Cup which they won last year had it not been for the loss of the defence.

N February the 24th and 25th, at Toronto, the Boys in Blue tackled a job for which they had been preparing themselves since the beginning of December. They came out of this tussle, the Senior Intercollegiate Assault-At-Arms, with six titles in boxing, and five in wrestling, winning the championship and the Tom Gibson Trophy for the third successive year.

Boxing titles were won by Dillon, 118 lbs.; Hood, 125 lbs.; Parker, 135 lbs.; Ramore, 145 lbs.; De Wolfe, 155 lbs., and Pigott, 165 lbs. The winning wrestlers were Mustard, 125 lbs.; Dobson, 135 lbs.; Schwenger, 165 lbs.; Scott, 175 lbs.; and Phoenix, heavyweight. The Fencing Team won the Intercollegiate championship and Charles Walters Team Trophy with Garcia and Wilson, both of Toronto, leading in points and tied for first place. Garcia defeated Wilson to win the individual trophy.

The schedule for all three teams began on January 21st, when O.A.C. came to Toronto. On the 28th the wrestling team visited the Mechanics Institute in Rochester, on the same day in Hart House the boxers welcomed their friends from the U.S. Coast Guard Academy. A week later the wrestlers and fencers met the University of Buffalo in Buffalo and Queen's University sent its boxing team here. The fencing team travelled westwards on the 10th of February, defeating Western in London, and Wayne University and Lawrence Institute in Detroit. On the 11th the wrestling team visited St. Lawrence University. The return engagement with the University of Buffalo wrestling and fencing teams took place on February 18th. Toronto's senior wrestling and fencing schedule ended with the Intercollegiate Assault, but the boxers carried on, and on March 3rd, they hopped a train for Annapolis, where competition was renewed with the midshipmen at the U.S. Naval Academy.

On Saturday, March 4th, at Toronto, O.AC. won the Intermediate Intercollegiate Championship. Varsity won two titles: McAdam, 135 lbs. boxing, and Wachsmuth, 155 lbs. wrestling.

Heartiest congratulations are due Dr. Les Black, boxing coach; Cliff Chilcott, wrestling coach; and Mr. Charles Walters, our fencing coach, for their untiring efforts and boundless enthusiasm which alone makes such success possible.

## Senior Intercollegiate Swimming

LIMAXING a pre-season series of exhibition meets with American colleges, the University of Toronto Senior Swimming Team journeyed down to Montreal the last week-end in February, and decisively captured its third successive Intercollegiate title, amassing fifty-one points to McGill's eighteen and McMaster's eight. The meet was a triumphant indication of Coach Winston McCatty's coaching methods. The Blue swimmers captured a first place in every event but one. Ged Clawson, as had been expected, broke the 200-yard breast stroke record setting up a new time of 2 minutes, 36.6 seconds. Captain Nels Earl also distinguished himself in his last appearance on the Blue swimming team before graduation, by placing first in two events, the 50 and 100 yard free style as well as being on two winning relay teams.

In American competition Varsity natators found themselves up against much stiffer opposition. Against Rochester University in Rochester for the opening meet of the year Varsity piled up 37 points to the Kodak College's 38. Against Buffalo State, two weeks later, Varsity won by a 47-28 count. Meeting a strong team from Penn State the following week end the Blue swimmers bowed to a 51-24 tally but redeemed themselves the next week by taking the powerful Syracuse University splashers 44-31.

Altogether the season was a most successful one and saw the development of several swimmers who will undoubtedly aid in keeping the championship at Toronto for many years to come. Several outstanding members of the squad however, competed for the last time: Capt. Nels Earl, Doug Green, Lloyd Hampson, and Earl Backman climaxed useful point-garnering careers on the Blue team this year.

## Intermediate Intercollegiate Swimming

HIS year the Intermediate Intercollegiate Meet was held in the Hamilton Municipal Pool on March 4th with Western, O.A.C., Varsity and McMaster finishing in the order mentioned. The Blue team lost their title to Western by six points, needlessly as a matter of fact. However, for the sake of future competition and the maintenance of the Intermediate League, the fact that Western won the meet and O.A.C. came second was definitely a good thing. Both these colleges had very good teams considering their inadequate training facilities and their coaches are to be congratulated on the results of their work.

Cressy McCatty and Sam Lipin, who organized the Intermediate Team just one week after the Senior Intercollegiate Meet in Montreal, deserve credit for the manner in which their team did perform in the Meet. With only seven competing swimmers Toronto managed to win several events and Doug Hicks established a new record for the breast stroke event. Fred Rowell, pressed into service in the diving event at the last moment, also performed very creditably.

## Intercollegiate Gymnastic Team

HE Gymnastic Club closed another very successful season by winning the Intercollegiate Gymnastic Titles, both Team and Individual, for the seventh successive year.

E. S. Macdonald, Meds V, Bronze "T" holder, won the Werry Cup, emblematic of the individual championship, for the third time and thereby established one of the most enviable records in Intercollegiate Athletics. With an outstanding display he also won the Intercollegiate Horse Championship. L. A. Patterson, S.P.S. III, winner of the Don Barton Trophy last year was runner-up for the Individual Championship and won the Intercollegiate Tumbling and Parallel Bars Championships. W. J. Lester, S.P.S. III, who won the Don Barton Trophy two years ago and the Individual Championship last year stood third this year and took the High Bar Championship. Wilson Mark, S.P.S. III, known over the whole campus for his picturesque slow movement on the High Bar was runner-up on that piece of apparatus and stood fourth for the individual. D. S. Simpson of Sarnia and interscholastic fame, was fifth in individual standing. D. M. Coyle, Trin II, shows promise of future attainments. R. O. Brett, Dents II, was awarded the Don Barton Trophy as the most improved gymnast for the season.

The Gym Club boasts 50 members and competition for places on the team was very keen. Mr. Charles Zwyard, who is chiefly responsible for the prosperity of the club, is certainly to be commended and due to his efforts on such occasions as the U.C. Follies, School Nite, Alumni Night, etc., gymnastics is becoming one of the most talked of sports on the campus.

## Senior Intercollegiate Basketball

OR six thrill-packed week-ends the largest basketball crowds in Intercollegiate history watched their representatives battle for supremacy only to have the season end in a three-way deadlock.

The Blue and White Quintet won their first four games in convincing fashion beating McGill in Montreal, Queen's twice and taking a surprise victory from Western, last year's champions and pre-season favourites.

The championship seemed assured for Varsity when they gained a sevenpoint lead in the return game against Western with only seventy seconds of play remaining in a thrill-packed game. But history was made in those seventy seconds as Western scored nine points to Varsity's one to snatch a one point victory three seconds before the final whistle.

The championship was again within Varsity's reach when, on the following Friday, McGill eked out an unexpected one point win on the Western floor. The next night McGill played in Toronto and a win for the locals meant the championship. But McGill were not to be stopped. Shooting with uncanny ability they led the Toronto team throughout most of the game to emerge as winners and force a three-cornered tie. The Canadian Intercollegiate Athletic Union ruled that no play-offs be held, and for the first time since the formation of the league the championship is shared by three Universities.

The team engaged in thirteen games against Canadian teams, eleven of which were won. Seven games were played against American teams. Buffalo State was defeated for Toronto's only win. The team was captained by Walter MacGregor and managed by Robert Lambert.

## Intermediate Intercollegiate Basketball

APTAIN JIM CREGG, a veteran of last year's Quintet led his team to Varsity's sixth consecutive Intercollegiate championship with a record of six straight wins. This year's squad, a mixture of veterans and newcomers, showed that they ranked with the best of the championship teams of recent years and several of the regulars will undoubtedly make their place on next year's senior club.

A veteran and freshman forward line alternated in bearing the brunt of the attack. Eugene Humeniuk and Leo McLaughlin, regulars from last year, divided the duties with Bill Avery and Fran Mathews, newcomers to the squad. Capt. Jim Cregg played the centre position seeing service for forty minutes in the majority of the games.

After three games Bill Flaherty was moved to the senior squad, leaving Bill Beers and John Flynn to form the highest scoring rear guard in the league. Hugh Bailey and Don Ferguson saw considerable service throughout the year and should make regular positions on next year's team. Jim Winters, who graduates this spring, gave valuable service on both the defence and forward lines.

Leo McLaughlin and John Flynn are the only other members of the squad who receive their degree this year. Both have been regulars for three years on three Intercollegiate championship teams.

In the six Intercollegiate games the team ran up the impressive total of two hundred and forty-one points while the opposition was held to one hundred and fifty-nine. Cregg, Flaherty and Humeniuk contributed greatly to this total, with Cregg the most consistent, scoring a total of sixty-seven points.

The team was coached by John McCucheon and capably managed by Ken Spratt assisted by Gerry Anarella and Jack Ronayne.

## Intercollegiate Water Polo

N Saturday, December 10th, the McGill Senior Water Polo Team arrived in Toronto fresh from a victory over Queen's, and that night handed Varsity's championship aspirations a setback by taking the U. of T. Senior Team 7 goals to 5.

The Blue splashers had spent the two months previous to the Intercollegiate classic competing in the newly-formed Ontario Water Polo League. Needing only a win over Central "Y" to get into the Ontario play-offs and then into the Dominion finals, Varsity couldn't overcome a 2-2 deadlock with the "Y" team and the season ended with Central finishing on top of the league.

In the game with McGill, despite the Blue team's experience in local games, the Red and White poloists ran up four goals to Varsity's one in the first half chiefly due to the Blue team's nervousness over meeting the renowned and feared Redmen. In the second half, however, the Blue natators overcame their timidity and began to show Shragovitch Bourne and company what Varsity could do. Two goals by Mabee and one by Green made the three-quarter time score 6-4, Bourne and Shragovitch notching two counters to keep the Montreal team in the lead.

The last quarter saw Varsity striving desperately to tie the score. With only two minutes to go Mabee notched another counter to make the count 6-5. Playing every man up the Blue boys were pressing hard to tie the score. On a rebound from the goal posts McGill gained possession and Bourne added the final goal, making the score McGill 7, Varsity 5.

Next year, however, Coach McCatty has hopes that McGill's reign will end. With many good prospects coming up from the Interfaculty leagues it appears as if our hopes will not be in vain.

#### Rowing Club

E were again fortunate during the season of 1937-38 in obtaining the services of such a well-known coach as Dave Soper.

At his suggestion, classes were held at Hart House during the winter, and a good turn-out resulted. However, as so often happens, most of the men were out of the city during the summer. Despite this handicap, a four was selected and they worked hard for the Lachine Regatta, the Dominion Day Regatta and the Royal Canadian Henley at St. Catharines. In the Henley, competing against eight of the best crews in the country, they did very well, coming second in the first heat and third in the finals of the junior fours.

As a diversion during July, the boys bought a boat in Hamilton, and, being short of cash, rowed it to Toronto one moonlit night.

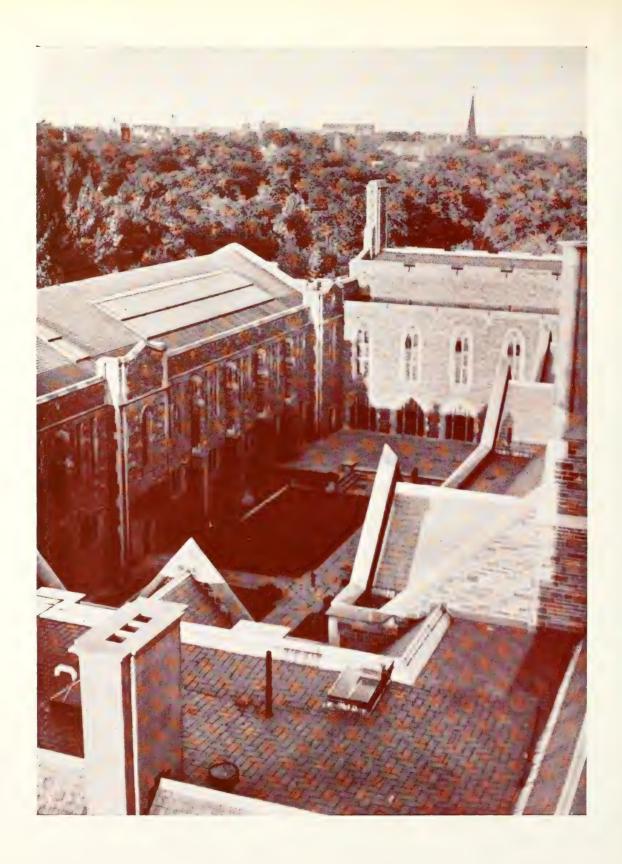

In October, the second Loudon Regatta and Dance was held. The interest shown by the faculties was most gratifying. Races for Interfaculty fours were held, the winners being the S.P.S. team. Singles races filled out the program and were run in four classes, according to weight. The regatta closed the activities for the year.

## University of Toronto Ski Club

HE University of Toronto Ski Club again had a very active and successful year. The Club grounds at Sir William Mulock's place was the site of activity and many improvements were made. The clubhouse was furnished a little more conveniently. Early in the fall volunteer workers started cutting new trails and constructing a jump which were completed in good time for winter use. The jump is of intermediate calibre and has a maximum distance of about 65 feet, while some of the trails tax the ability of the best. Excellent crowds frequented the grounds every week end. For the first time in the history of the Club Ladies' and Men's Interfaculty meets were held at the club which were given very enthusiastic support by both the male and female members. From the results of the Ladies' meet, a Ladies' Intercollegiate Team who chosen to represent the U. of T. at McGill and this team distinguished themselves by winning the International Intercollegiate Invitation Ladies' title, and we are very proud of them.

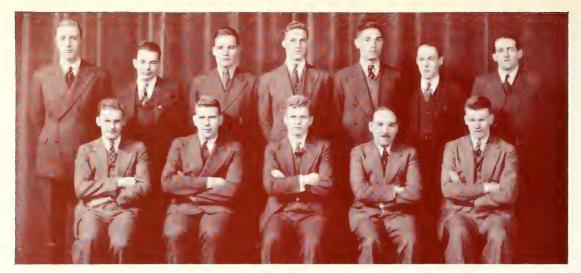

On two different week-ends the University reserved Limberlost Lodge for a week end of winter sports and both were very successful. It was a weekly feature of the club to have a movie night at which instructive and entertaining films were shown.

We are looking forward to a bigger and better year next year with the new, capable and enthusiastic executive.

#### Intramural Activities

LTHOUGH the final standing for the T. A. Reed Trophy, emblematic of all year Intramural supremacy, has not been posted at the time of going to press it is safe to assume that School of Practical Science will repeat last year's victory. With several championships still to be decided the Schoolmen have amassed a total of 4,052 points. Wycliffe and Knox are staging a close race for second position although their point totals are well back of the leader.

Evidence of the ever increasing interest in Intramural Athletics is best illustrated by the fact that the T. A. Reed Trophy was won last year with approximately 3,000 points while this year four faculties will probably be over that mark and School of Science will finish the race with about 4,500. Last season 3,000 participants took part in the programme. This year 3,500 registrations are expected.

Eight team sports are operated during the University year. Lacrosse, volleyball, soccer, and rugby are played during the fall term and indoor baseball, basketball, water polo and hockey are played in the spring term. This year 140 interfaculty teams played 464 games in these sports. This is an increase of 24 teams and 52 games over last year.

Various tournaments and meets are held throughout the year in the individual type sports and the programme is so arranged that instruction lasts through practically the whole University year. The list is a comprehensive one and includes boxing, wrestling, fencing, outdoor track, indoor track, swimming, gymnastics, tennis, badminton, golf, rowing, jiu-jitsu, and figure skating. As well as the interfaculty programme intramural sports were organized and operated for the fraternities and residences. Inter-year and inter-course tournaments were encouraged. Twenty-one fraternities were organized into an active Athletic Association and participated in a programme which included leagues in baseball, basketball, table tennis, etc. The programme was in charge of the Intramural Sports Committee which met weekly throughout the year. The Intramural Committee gave valuable assistance to the Athletic Directorate in recommending regulations and in formulating the policy of the department. Ken Stewart, U.C., was Chairman of the Committee, and John McCutcheon, Supervisor of Intramural Athletics, acted as Secretary.

# University of Toronto Jiu-Jitsu Club

OR the first year since the introduction of Jiu-Jitsu as part of the Physical Education programme of the University, the Club has been without the services of native Japanese instructors. Arthur Menzies, Vic. IV, a charter member of the club, was this year appointed Instructor and deserves great credit for the manner in which he conducted the affairs of the Club.

The Judo Club is the only one of its kind on any Canadian campus and is in fact the only active club in Eastern Canada. Affiliations have been established with the New York "Dojo", official headquarters for Eastern North America, and the University Club has been made an official Judo Branch. Art Menzies travelled to New York, where he passed his "Black Belt" examinations and qualified as an official Instructor.

Thirty enthusiasts work out three times weekly and tournaments are held monthly.

George Donaldson, Pat and Ray Cavanaugh have all been promoted to the first rank in the "Brown Belt" class. This is the highest ranking obtainable outside of New York City. Five others hold the second rank in the Brown Belt class. Special mention is merited by B. Kassirer and R. Mervynne, who were successful in winning their Brown Belt this year.

All awards held by members of the Club with the exception of Mr. Menzies' Black Belt have been gained through instruction offered at Toronto. The Club has a right to be proud of the record of its members. Eight men hold the Brown Belt, five the Green Belt and seventeen hold various ranks in the White Belt class.

As well as jiu-jitsu several of the senior members of the Club have learned the art of Japanese fencing. Popular interest in these Japanese sports is widened by the numerous displays which the members have been asked to give throughout the city and province.

## Trinity College Amateur Athletic Association

HIS Association is comprised of every undergraduate male student enrolled in Trinity College. Each year this body elects an executive committee to control its business, which includes management of finances, purchasing and recording equipment for teams, electing managers and coaches, interpreting the Constitution and By-Laws of the Association and convening General Meetings, in which the opinion of the members may be voiced.

Once again this year, our athletes are combining in their tireless effort to keep the position of our College high in the Intramural sports standing. At the present time it is not beyond the realm of possibility that they may be successful in repeating our victory of two seasons past and obtain the T. A. Reed Trophy for a second year. The executive joins me in congratulating each and every man in the Association who has participated during the last year on the field, in the gym., or in the tank, in Intramural or Intercollegiate circles, and has thus added further to the already enviable record established by our members of former years.

The Association as a whole would like to congratulate J. E. McCutcheon for the manner in which he has developed the intricate Intramural sports programme. His willingness to co-operate with the individual executives and his interest in the mediocre, as well as the distinguished, athlete have given rise to a high standard of sport within the University.

### Medical Athletic Association

HE Medical Athletic Association supervises the athletics of the faculty and comprises all the undergraduates of the faculty, the ladies excepted. Its controlling body, the Executive, includes the following: an Honorary President, chosen from the Faculty; a President, Vice-President and Secretary-Treasurer, from the 6th, 5th and 4th years respectively, and elected by all the undergraduates, and a representative elected from each of the first three years. The purchasing and preservation of equipment is the sole duty of a Quartermaster, who is chosen by the Executive on a basis of experience in this particular field.

This year, the faculty has been particularly successful in intramural sport, winning in the early part of the year both the Mulock Cup by the Senior Rugby Team, and the Arts Faculty Cup by the Soccer Team. The Volleyball, Basketball, Baseball and Waterpolo Teams also have been very fortunate in their encounters. Increased interest in interfaculty athletics was shown by the faculty, with the result that four more teams than usual were entered in competition. Within the faculty, the squash tournament for the Kinnear Trophy, donated last year, was repeated with much interest shown by the undergraduates. A tennis doubles tournament was also carried on, with medals donated by the Executive for the winners.

# S.P.S. Athletic Association

E are, we are, we are the Engineers — and we don't give a damn for any damn team that doesn't give a damn for us.

Once again School has shown its supremacy on the campus, when it comes to athletics.

After winning the "T. A. Reed" Trophy for intramural sport last year, S.P.S. started off with a "bang" this year, and appear to have it "clinched" again.

This year it is believed that more Schoolmen took part in sport than ever in history, due to more teams entered in "Mac MacCutcheon's Leagues". The Engineers have won the Harrier, Swimming, Rowing and Junior Assault events to date, put up a stern battle for others, and are still fighting for more.

Then School has given its share of men to intercollegiate teams, who have made their presence felt to no end.

# The Bronze "S"

CHOOLMEN of 3T9 take "hats off" to Bob Galway, who was declared their outstanding athlete about to graduate. Not only is Bob popular among his team mates but also with his other class mates whom he always greets with his flashy smile.

Bob graduated from Jarvis C.I. to take up engineering at S.P.S. with lots of sport thrown in. So in his first year, he played Interfaculty Rugby and Hockey with the Varsity Intermediates. In his second year he played Interfaculty Hockey and Rugby, moving up to the Varsity Intermediate Rugby Team during the season. During his third year Bob had the misfortune to break his ankle playing rugby for School. However, he came back to play Interfaculty Hockey and Baseball. Then in fourth year, we have Bob playing Varsity Intermediate Rugby and Interfaculty Lacrosse, Hockey and Baseball. During this time, Bob also played T.H.L. hockey, and baseball in the summer months.

Besides these athletic feats, Bob took time to be Second Year Representative and Secretary-Treasurer of our Athletic Association in his third year.

Summing this up we have the final results: Star quarter-back in rugby. Star goal-getter in hockey and star pitcher in baseball.

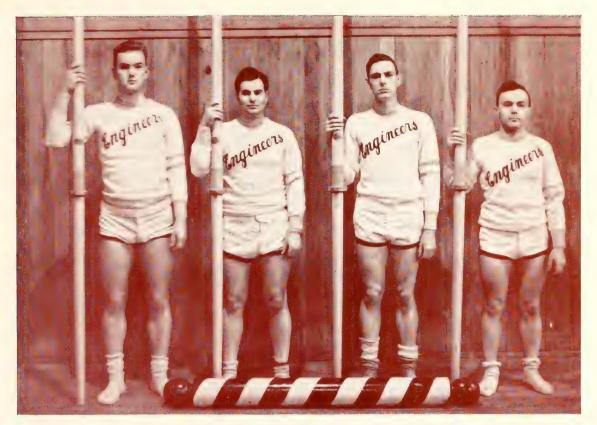

So with these results behind you, Bob, we take "hats off" again and wish you the very best of luck in the future.

S.P.S. HARRIER TEAM, BROTHERTON CUP WINNERS W. Hogg, G. Foulis, D. Finlayson, D. Crichton, J. Goodwin,

### S.P.S. Harrier Team

LTHOUGH vanquished in the Interfaculty Track Meet, School runners came back strongly to wrest the Brotherton Cup from Wycliffe College for the first time in several years. Paced by the veteran Wm. Hogg, Don Finlayson, Roy Foules and Jeff Goodwin came in with the first few to make the victory decisive. Three of these, Hogg, Foules and Goodwin ran with the senior Varsity team and made a very creditable showing. Prospects for the coming year are bright and S.P.S. may look forward to seeing a powerful harrier team in competition.

S.P.S. ROWING CREW, INTRAMURAL CHAMPIONS

# S.P.S. Rowing Team

INTERFACULTY crew racing was an event at the Annual Loudon Regatta last Fall for the first time and was such a success that next year it will probably be an eight-team race instead of a four.

After training for three weeks, crews were put on the water by the Faculties of Dentistry, Medicine, Applied Science, Wycliffe College, University College and Victoria College.

The preliminary races saw the U.C. and Dentistry crews eliminated. In the semi-finals, the Vic and Wycliffe crews had to take the backwash from School and Meds. The finals saw these two arch-enemies at the starting line. The Engineers took the lead at the gun and held it till the last quarter mile, when the Surgeons raised their stroke to a killing 40, then to 42, and were taking the lead 100 yards from the finish. Then those stalwart sweep-swingers from School turned on that smooth surging power for which they are so famous and raced across the finish one-quarter boat-deck length ahead.

The medals were presented by Prof. T. R. Loudon at the Regatta Dance that evening, and the winning crew received the famous McGill-Varsity Barber Pole as their trophy until next year.

# S.P.S. Swimming Team

OR the second year in a row School this year completely dominated the swimming Tank. Capturing the Junior Interfaculty Meet in November and the Senior Meet and Fitzgerald Trophy in January, S.P.S. made a successful defense of her swimming titles. School was also well represented on the Senior and Intermediate Intercollegiate Teams.

In the Junior Meet School scored 28 points to give them a 7 point lead over their nearest opponents, Vic and Meds. Firsts were registered by the Medley Relay Team of Staples, Finlayson, and Laari, by Ames in the diving, and by Staples in the backstroke. Laari came second in the 440-yard freestyle and Finlayson was third in the 200 yard breaststroke. In the 200 yard relay School's first team of Hardy, Bell, Staples and Laari took second, while our second team of Boyd, Byrns, Finlayson and Marshall came fourth.

After a slow start School came from far behind to win the Senior Meet with 29 points as against 20 for their nearest rival, Meds. In the Medley relay Staples, Girvan and Laari took first. Dobson came second in the diving. Possessing the two Senior Intercollegiate backstrokers, S.P.S. took an easy first and second in that race, Staples and Jennings placing in that order. Girvan swam the best race of the night to beat Clawson of U.C. in the 200 yard breast stroke. To clinch the meet the School Relay Team of Veal, Hardy, Harkness and Laari came first.

On the Intercollegiate Teams, Girvan and Staples swam for the Seniors, while Laari and Hardy performed for the Intermediates.

### Dental Athletic Committee

S in former years, Athletics in the Faculty of Dentistry have been controlled by the Athletic Committee. This committee consists of representatives of every branch of interfaculty sport elected annually by student vote. The Chairman of the Athletic Committee is elected from this group and holds a seat on the Cabinet of the Students' Parliament.

This year, the Dental Interfaculty Teams were quite successful in the different sports. Although no championships have been acquired as yet, hopes are running high that such will be the case, and that a very creditable showing will be made in the T. A. Reed Trophy race.

### Dental Athletics

HE past year has been a very successful one in sports for the teams representing the Dental College.

Early in the year, Dents were eliminated in the Mulock Cup semi-finals by Junior School, and the Soccer Team lost out to Medicine in the finals.

This year two teams in Basketball and Baseball were entered. A triumph this year would give us three consecutive wins in the baseball world.

Besides Interfaculty Athletics, the Faculty of Dentistry was well represented on the various Intercollegiate Teams, Ben Shuken playing Senior Rugby, Oscar Brunet in Wrestling and Bob Reid winning the Intercollegiate Golf Championship.

# Ontario Veterinary College Athletic Association

HE Ontario Veterinary College Athletic Association is comprised of every undergraduate in the Faculty of Veterinary Science. The governing body is elected annually by the student body. The executive controls all athletics of the College.

The main effort of the Athletic Association this year has been to create interest in all branches of sport among the students, not so much from a view of competitive success but rather from the more important viewpoint of total number of men engaged in competition.

In spite of drawbacks of incomplete facilities on the campus, competition was keen in intramural sport of all kinds. There are prospects of better accommodation for the coming session.

To the incoming executive may we extend our hopes for success in the 1939-40 session.

# Women's Intercollegiate Athletics

ROM an intercollegiate viewpoint this has certainly been Toronto's year and no less than four championships have been carried off by the wearers of the Blue and White.

Starting with the tennis in October, Varsity won a sweeping victory, with Claire Walsh as captain regaining her singles championship from Barbara Barnard of McGill, and the doubles team of Marjorie Mosbaugh and Ann Macdonald winning all three of their matches. The tournament, most ably managed by Joan McMaster, was at Toronto and the finals on the excellent new Trinity courts were watched by the largest gallery in history.

Probably the year's highlight was the return of the Bronze Baby to Toronto after five years' absence. The basketball meet was held in London and the splendidly coached and conditioned Varsity team defeated the three-times champions from Western 18-11 in the Friday game, then took McGill 19-14 in the final on Saturday afternoon. Miss Beatrice Longley is to be congratulated on the success of her first year's coaching. Bobbie McDonald proved a most capable captain and floor leader and Joan McMaster was the efficient manager. The Intermediate team this year made a particularly fine showing, even winning two out of three games against the Seniors. Miss Erna Laing again coached the team and Molly Moore acted as captain with Eileen Elson as manager.

The swimming team carried on tradition by winning every event at the Intercollegiate Meet in Kingston, and new records were established by Dot Hobson in the 100-yard Free Style, by Mary Casson in the 50-yard Free Style, by Bobbie McDonald in the 50-yard Back Stroke and by the relay team. Peggy Bailey, the captain, and Margaret Hall tied for first in the Diving and Freddie Baxter won both the Ornamental and Style. Toronto entered only one girl in each event except the diving in order to promote better competition and also entered a different girl in each event. The team was as usual splendidly coached by Miss Aileen Cochrane.

The badminton team, captained by Mary Becker, also gave an excellent account of itself. At the intercollegiate meet in Montreal, Toronto defeated

McGill by one point, to take the point title. Rosemary Annesley won all four of her matches, Mary Becker won three and the doubles team broke even with two wins.

A new intercollegiate sport this year entered the field when McGill held an International Intercollegiate Ski Meet and invited Toronto to send a team. While McGill did not enter their "A" team, the feat of the Toronto skiiers in carrying off the trophy is noteworthy as they accumulated the best aggregate score against outstanding teams from various American colleges as well as McGill. The team was composed of Marion Gallie as captain, who won firsts in both events, Joan Griffith who won two-thirds and Peggy McLaren.

All intramural series were very keenly contested except the baseball which was once again won by Victoria. The golf tournament was held at the Mississauga Club in October and boasted a large entry list. Marion Walker, U.C. I., had the low gross for the day. The intramural tennis tournament was won by Victoria for the fourth year, with Claire Walsh as champion.

The basketball series had thirteen entries, the largest in history, and when the long season was over, University College Juniors, cleverly coached by Miss Erna Laing, were declared champions. The hockey series was increased in interest by the entry of Meds. and a hard fought playoff between St. Hilda's and U.C. The Saints once more emerged victorious and retained the battered cup.

In spite of the lack of courts, badminton continues to interest more players every season. A particularly fine intramural tournament was conducted this year, with 36 entries from the four colleges, Meds. and Nurses. St. Hilda's won the championship with Mary Becker as the university champion and Rosemary Annesley as runner-up. The four semi-finalists made up the intercollegiate team.

Varsity at the present time is unusually rich in outstanding swimmers and the intramural meet this year provided some of the most exciting races ever held in Hart House. The Physical Education Department won the meet for the first time in the three years they have entered, amassing 50 points, while Victoria made a very fine showing with 38 points, of which Peggy Bailey, who retained the individual and the diving championships, accounted for 26.

A great increase in interest is noticeable in all the sports which have been made possible by the Athletic Fee, and riding, golf and figure-skating attract many students. The bowling, which was started last year, has again about forty entries, of whom the majority participate in no other form of sport. The high scorer is again Ruth Publow of Vic., who bowls consistently at scratch with an average of about 170.

The men's Directorate and officials of the men's Association have again been most generous in granting the use of their facilities and in offering co-operation and counsel on many occasions. Sincerest thanks are also due to the various coaches who have so generously given of their time and skill in training teams. The success of the year's activities bears witness to the value of all the help received.

Women's Intramural Athletics

# University College Women's Athletics

HE 1938-39 season started with the Interfaculty Golf Meet, in which Audrey Piddington had charge of the U.C. players. There was an exceptionally good turnout. U.C. won the meet, headed by Marion Walker, who carried off the individual honours.

The increase in numbers in the tennis tournament may be accounted for by the fact that we were able to obtain the St. Hilda's courts. In the Interfaculty Tournament, U.C. was runner-up to Victoria College. We were also represented on the winning Varsity Intercollegiate Team by Betty File and Ann Macdonald—Ann being one of the victorious doubles finalists.

As usual, U.C. entered three teams in the Interfaculty Basketball League. The Seniors were coached by Gladys Heintz, Captain of last year's Intercollegiate Team from Queen's. They were managed by Ann Macdonald. Irna Laing, former Varsity star, coached the Juniors, with Helen Sutherland as manager. Last year Irna coached the same team as Freshies, and this year they won the Interfaculty Series, bringing the cup back to U.C. for the first time in several years. The Freshies were coached by Jo Rea, another Varsity player of fame, and were managed by Mary Emmett. The team shows great promise for the future. Senior Intercollegiate players from U.C. were, Bobby MacDonald, Helen Gurney, Patsy McLaren and Janie Church, and on the Intermediate Team were Peggy McLaren, Ann Macdonald and Agnes Cameron.

Swimming was managed by Gertrude Evans. Individual honours at the U.C. meet went to the manager, with Marion Harvey as runner-up. Bobbie MacDonald, another outstanding U.C. swimmer, was unable to compete, as she was busy training for basketball. We expect several of our swimmers to make the Intercollegiate Team, but it will not be chosen until after this has gone to print.

Hockey was very popular this year. Jean Atkinson coached the pucksters, and Cay Robertson managed them. Competition was keen, with St. Hilda's and U.C. once more contending for first place. The final results will be too late for record here.

Badminton is becoming increasingly popular each season. This year a regular club was formed. Cay Bryans was the able manager, and also winner of the tourament, with Gladys Ecclestone the runner-up. Up to the present, Cay is the only U.C. representative on the Intercollegiate Team; however, there may be still some challenging before the final choice is made.

Skiing was made an Intercollegiate sport this year, heightening its interest considerably. If the meet at Montreal is a success, we hope to inaugurate next year a ski club, which will provide transportation, etc. Punch Gallie, Peggy McLaren and Hazel Brown are U.C.'s three hopes in the coming meet.

Term exams. were changed to February, which retarded many of the schedules, but this did not hinder U.C. from a very successful year in the field of athletics and sports. We were well represented on the University teams and were able to capture the Interfaculty Basketball Trophy.

## St. Hilda's Athletic Association

HE athletic season started off with our annual tennis tournament on our new courts. The tournament was run off in fine fashion and the team finally chosen consisted of K. Hilder, G. Mann, M. Becker, E. Kirk, R. Annesley, and J. Griffiths. Their efforts in the interfaculty tourney were creditable but not outstanding. Joan McMaster won the Saints' championship with Kay Hilder runner-up.

We were again able to enter two basketball teams in the league, one being exclusively a Freshie team. The Senior Team gained the semi-finals of the Tournament, only to lose by two points. Joan McMaster, Rosemary Annesley, and Joan Griffiths turned in fine performances for the Seniors.

The hockey season got under way in January. The Saints, although losing many of their former stars, came through to win the coveted Interfaculty Hockey Championship. All the players are worthy of mention, but space will not permit.

In February our annual Swimming Meet was held, and the team was chosen. The Interfaculty Meet has not yet taken place, but the team is ready and out to win.

This year again two of our Saints have won laurels by taking two of the four positions on the intercollegiate badminton team. Our team carried off the interfaculty championship, with Mary Becker winning the University Championship, and Rosemary Annesley as runner-up.

Table tennis was introduced into our athletic activities this year. A great deal of interest was shown in the tournament, and Joan McMaster came out on top in the singles. Joan Griffiths and "Chrissie" Gilchrist were the winners of the doubles.

Here is more power and luck to you next year, Saints!

# Medical Women's Athletic Association

HERE has been an active interest in athletics shown this year by the medical women. Many of the girls engaged in basketball and hockey, and there was also enthusiastic participation in golf and tennis during the fall term. Although it is difficult to find time for athletics with a full academic curriculum, those who did so found it a valuable means of relaxation from their more arduous duties.

Marjorie Mosbaugh, who played hockey, basketball and golf, brought us distinction by qualifying to play on the Intercollegiate Tennis Team. Medical "M's" were awarded to Jean Brereton, Macia Campbell, Helen Holden and Marjorie Mosbaugh.

#### CANTERBURY CATHEDRAL

Since the year 597, when St. Augustine arrived in Canterbury and established a Church on the site of the present magnificent Cathedral, that English city has been the ecclesiastical centre of England.

Nearly a hundred men have been Archbishop of Canterbury, who is primate of all England, and whose duty it is to crown successive English Kings.

Mr. Knight, Organist at Canterbury, states that a recent service confirmed in a very noticeable manner the particular claim of the Hammond Organ of being excellent for congregational singing. The three thousand present sang like one person.

Dr. Alfred Whitehead, Christ Church Cathedral, Montreal, well known organist and composer, declares "I consider the Hammond Organ to be one of the most remarkable developments of our time in the realm of music. My use of the Northern-Hammond . . . demonstrated to me the splendid capabilities of the instrument in the accompaniment of choral works . . . I am sure there is a tremendous future for this epoch-making innovation. I recommend it and congratulate you on your part in making it available to Canadian music lovers."

\*The Hammond Organ is called "Northern-Hammond" in Canada and is manufactured by Northern Electric under license from the Hammond Instrument Company.

# JOE BETTER LIVING ...

Through the tireless efforts of Westinghouse research ideas, born of thinking into the future, are gradually taking concrete form. Thus the needs and problems of the future are even now being solved by an organization dedicated to electrical progress. This fact is of particular significance to you—since the world of tomorrow is the heritage of the youth of today!
